CERTAIN CONVENTIONS, USE OF FINANCIAL INFORMATION AND MARKET DATA AND CURRENCY OF PRESENTATION

Certain Conventions

In this Draft Red Herring Prospectus, the terms “we”, “us”, “our”, the “Company”, “our Company”, “Heranba Industries Limited” and “HIL”, unless the context otherwise indicates or implies, refers to Heranba Industries Limited.

Page Numbers

Unless otherwise stated, all references to page numbers in this Draft Red Herring Prospectus are to page numbers of this Draft Red Herring Prospectus.

Financial Data

Unless stated or the context requires otherwise, the financial information in this Draft Red Herring Prospectus is derived from our Restated Financial Statements. The restated summary statements of assets and liabilities as at March 31, 2020, March 31, 2019 and March 31, 2018 and the restated summary statement of profit and loss (including other comprehensive income), cash flow statement and changes in equity for the years ended March 31, 2020, March 31, 2019 and March 31, 2018 of the Company together with the summary statement of significant accounting policies, and other explanatory information thereon, derived from audited financial statements as at and for the year ended March 31, 2020, March 31, 2019 and March 31, 2018 prepared in accordance with the Ind AS and restated in accordance with the SEBI ICDR Regulations, and the SEBI circular no. SEBI/HO/CFD/DIL/CIR/P/2016/47 dated March 31, 2016 and the Guidance Note on “Reports in Company Prospectuses (Revised 2019)” issued by ICAI.

There are significant differences between Ind AS, U.S. GAAP and IFRS. Our Company does not provide reconciliation of its financial information to IFRS or U.S. GAAP. Our Company has not attempted to explain those differences or quantify their impact on the financial data included in this Draft Red Herring Prospectus and it is urged that you consult your own advisors regarding such differences and their impact on our financial data. Accordingly, the degree to which the financial information included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting policies and practices, the Companies Act, Ind AS, and the SEBI ICDR Regulations. Any reliance by persons not familiar with Indian accounting policies and practices on the financial disclosures presented in this Draft Red Herring Prospectus should, accordingly, be limited.

In this Draft Red Herring Prospectus, any discrepancies in any table between the total and the sums of the amounts listed are due to rounding off. All figures in decimals and all percentage figures, unless otherwise specified, have been rounded off to the second decimal place and accordingly there may be consequential changes in this Draft Red Herring Prospectus on account of rounding adjustments. Our Company’s fiscal year commences on April 1 of each year and ends on March 31 of the next year. Accordingly, all references to a particular fiscal year (referred to herein as “**Fiscal**”, “**Fiscal Year**” or “**FY**”) are to the 12 months period ended March 31 of that particular year, unless otherwise specified.

Our Company has presented certain numerical information in this Draft Red Herring Prospectus in “million” or “billion” units, or in absolute number where the number have been too small to present in million unless as stated, otherwise, as applicable. One million represents 1,000,000, one billion represents 1,000,000,000 and one crore represents 10,000,000. However, figures sourced from third party industry sources may be expressed in denominations other than million or may be rounded off to other than two decimal points in the respective sources, and such figures have been expressed in this Draft Red Herring Prospectus in such denominations or rounded off to such number of decimal points as prescribed in such respective sources.

Currency and units of presentation

In this Draft Red Herring Prospectus, unless the context otherwise requires, all references to (a) ‘Rupees’ or ‘₹’ or ‘Rs.’ or ‘INR’ are to Indian rupees, the official currency of the Republic of India; (b) ‘US Dollars’ or ‘US\$’ or ‘USD’ or ‘\$’ are to United States Dollars, the official currency of the United States of America. All references to the word ‘Lakh’ or ‘Lakhs’ or ‘Lac’ or ‘Lacs’, means ‘One hundred thousand’ and the word ‘Million’ means ‘Ten lakhs’ and the word ‘Crore’ means ‘Ten Million’ and the word ‘Billion’ means ‘One thousand Million’. However, where any figures that may have been sourced from third-party industry sources are expressed in denominations other than millions or may be rounded off to other than one decimal point in the respective sources, such figures appear in this Draft Red Herring Prospectus expressed in such denominations or rounded – off as provided in their respective sources.

Any percentage amounts, as set forth in "Risk Factors", "Our Business", "Management's Discussion and Analysis of Financial Conditions and Results of Operation" and elsewhere in this Draft Red Herring Prospectus, unless otherwise indicated, have been calculated based on our Restated Financial Statements.

Exchange Rates

This Draft Red Herring Prospectus contains conversions of certain other currency amounts into Indian Rupees that have been presented solely to comply with the SEBI ICDR Regulations. These conversions should not be construed as a representation that these currency amounts could have been, or can be converted into Indian Rupees, at any particular rate or at all. The following table sets forth, for the periods indicated, information with respect to the exchange rate between the Rupee and the USD (in Rupees per USD):

Exchange rate as on:			
Currency	As on March 31, 2020	As on March 31, 2019 ⁽¹⁾	As on March 31, 2018 ⁽²⁾
1 US\$*	₹75.39	₹69.17	₹65.04

(For information until March 31, 2018, the source is RBI Reference Rate as available on <https://www.rbi.org.in/> whereas for information post March 31, 2018, the source is FBIL Reference Rate as available on <https://www.fbil.org.in/>)

(1) Exchange rate as at March 29, 2019, as RBI reference rate is not available for March 31, 2019 and March 30, 2019 being a Sunday and a Saturday, respectively.

(2) Exchange rate as at March 28, 2018, as RBI reference rate is not available for March 31, 2018 being a Saturday and March 30, 2018 and March 29, 2018 being public holidays

Please note that the above exchange rates have been provided for indicative purposes only and the amounts reflected in our Restated Financial Information may not have been converted using any of the above-mentioned exchange rates.

Industry and Market Data

Unless stated otherwise, industry and market data used throughout this Draft Red Herring Prospectus has been obtained or derived from the report titled "India Pyrethroids Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2020-2025" dated March, 2020, appearing on the website of The International Market Analysis Research and Consulting Group ("IMARC Report").

For details of risks in relation to the IMARC Report, see "Risk Factors – Industry information included in this Draft Red Herring Prospectus has been derived from an industry report appearing on IMARC's website. There can be no assurance that such third-party statistical, financial and other industry information is complete, reliable or accurate" on page 53. The IMARC Report is subject to the following disclaimer:

"All contents and data of this publication, including forecasts, data analysis and opinion have been based on information and sources believed to be accurate and reliable at the time of publishing. International Market Analysis Research and Consulting (IMARC) makes no representation of warranty of any kind as to the accuracy or completeness of any Information provided. IMARC accepts no liability whatsoever for any loss or damage resulting from opinion, errors or inaccuracies, if any found in this publication."

Industry publications generally state that the information contained in such publications has been obtained from sources generally believed to be reliable, but their accuracy, completeness and underlying assumptions are not guaranteed, and their reliability cannot be assured and accordingly, investment decisions should not be on such information. Although we believe that the industry and market data used in this Draft Red Herring Prospectus is reliable, such data has not been independently verified by us, the Selling Shareholders, the BRLMs or any of our or their respective affiliates or advisors and none of these parties make any representation as to the accuracy of this information. The data used in these sources may have been reclassified by us for the purposes of presentation. Data from these sources may also not be comparable.

The extent to which the market and industry data presented in this Draft Red Herring Prospectus is meaningful depends upon the reader's familiarity with and understanding of the methodologies used in compiling such data. There are no standard data gathering methodologies in the industry in which the business of our Company is conducted, and methodologies and assumptions may vary widely among different market and industry sources.

Such data involves risks, uncertainties and numerous assumptions and is subject to change based on various factors, including those discussed in “*Risk Factors*” on page 27. Accordingly, investment decisions should not be based solely on such information.

In accordance with the SEBI ICDR Regulations, “*Basis for the Offer Price*” on page 87 includes information relating to our peer group companies. Such information has been derived from publicly available sources, and neither we, nor the BRLMs have independently verified such information. Accordingly, no investment decision should be made solely on the basis of this information.

Notice to Prospective Investors

The Equity Shares have not been recommended by any U.S. federal or state securities commission or regulatory authority. Furthermore, the foregoing authorities have not confirmed the accuracy or determined the adequacy of this Draft Red Herring Prospectus or approved or disapproved the Equity Shares. Any representation to the contrary is a criminal offence in the United States. In making an investment decision, investors must rely on their own examination of our Company and the terms of this Offer, including the merits and risks involved. The Equity Shares offered in the Offer have not been and will not be registered under the U.S. Securities Act of 1933, as amended (“**U.S. Securities Act**”) or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the U.S. Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in ‘offshore transactions’ in reliance on Regulation S under the U.S. Securities Act and the applicable laws of the jurisdictions where such offers and sales are made.

FORWARD-LOOKING STATEMENTS

This Draft Red Herring Prospectus contains certain “forward-looking statements”. These forward-looking statements include statements which can generally be identified by words or phrases such as “aim”, “anticipate”, “believe”, “expect”, “estimate”, “intend”, “likely to”, “objective”, “plan”, “propose”, “project”, “will”, “will continue”, “seek to”, “will pursue”, or other words or phrases of similar import. Similarly, statements that describe our Company’s strategies, objectives, plans or goals are also forward-looking statements. All statements regarding our expected financial conditions, results of operations, business plans and projects are ‘forward – looking statement’. All statements in this Draft Red Herring Prospectus that are not statements of historical fact are ‘forward – looking statements’.

These forward-looking statements, whether made by us or a third-party, are based on our current plans, estimates, presumptions and expectations and actual results may differ materially from those suggested by such forward-looking statements. All forward-looking statements are subject to risks, uncertainties and assumptions about us that could cause actual results to differ materially from those contemplated by the relevant forward-looking statement.

This may be due to risks or uncertainties or assumptions associated with the expectations with respect to, but not limited to, regulatory changes pertaining to the industry in which our Company operates and our ability to respond to them, our ability to successfully implement our strategy, our growth and expansion, technological changes, our exposure to market risks, general economic and political conditions in India which have an impact on our business activities or investments, the monetary and fiscal policies of India, inflation, deflation, unanticipated turbulence in interest rates, foreign exchange rates, equity prices or other rates or prices, the performance of the financial markets in India and globally, changes in domestic laws, regulations and taxes, changes in competition in the industry and incidence of any natural calamities and/or acts of violence. Important factors that could cause actual results to differ materially from our Company’s expectations include, but are not limited to, the following:

- to obtain and/or renew registrations of our products;
- our ability to successfully implement our growth;
- changes in laws and regulations relating to the industry in which we operate, changes in government policies and regulatory actions that apply to or affect our business; and
- developments affecting the Indian and global economy.

For a further discussion of factors that could cause our current plans and expectations and actual results to differ, refer “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on page 27, 129 and 262 respectively. By their nature, certain market risk disclosures are only estimates and could be materially different from what actually occurs in the future. As a result, actual future gains or losses could materially differ from those that have been estimated and are not a guarantee of future performance.

Although we believe that the assumptions on which such forward-looking statements are based are reasonable, we cannot assure investors that the expectations reflected in these forward-looking statements will prove to be correct. Given these uncertainties, investors are cautioned not to place undue reliance on such forward-looking statements and not to regard such statements as a guarantee of future performance.

Forward-looking statements reflect the current views of our Company as on the date of this Draft Red Herring Prospectus and are not a guarantee of future performance. These statements are based on the management’s belief and assumptions, which in turn are based on currently available information. Although we believe the assumptions upon which these forward-looking statements are based are reasonable, any of these assumptions as well as statements based on them could prove to be inaccurate. Neither our Company, the Selling Shareholders, our Promoter, our Directors, the BRLMs, nor any of their respective affiliates have any obligation to update or otherwise revise any statements reflecting circumstances arising after the date hereof or to reflect the occurrence of underlying events, even if the underlying assumptions do not come to fruition.

In accordance with regulatory requirements, our Company will ensure that investors in India are informed of material developments from the date of registration of the Red Herring Prospectus with the RoC until receipt of final listing and trading approvals by the Stock Exchanges for the Offer. The Selling Shareholders shall ensure that they will keep our Company and the BRLMs informed of all developments pertaining to the Offered Shares and themselves, that may be material from the context of the Offer.

SECTION III - RISK FACTORS

An investment in Equity Shares involves a high degree of risk. You should carefully consider all the information in this Draft Red Herring Prospectus, including the risks and uncertainties described below, before making an investment in our Equity Shares. The risks described below are not the only ones relevant to us or our Equity Shares, the industry in which we operate in or to India. Additional risks and uncertainties, not presently known to us or that we currently deem immaterial may also impair our business, results of operations, cash flows and financial condition. If any of the following risks, or other risks that are not currently known or are now deemed immaterial, actually occur, our business, results of operations, cash flows and financial condition could suffer, the price of our Equity Shares could decline, and you may lose all or part of your investment. Unless specified in the relevant risk factor below, we are not in a position to quantify the financial implication of any of the risks mentioned below. To obtain a more detailed understanding of our business and operations, prospective investors should read this section in conjunction with “Our Business” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on pages 129 and 262, respectively, as well as the other financial and statistical information contained in this Draft Red Herring Prospectus. In making an investment decision, prospective investors must rely on their own examination of us and the terms of the Offer including the merits and risks involved. You should consult your tax, financial and legal advisors about particular consequences to you of an investment in the Offer.

Prospective investors should pay particular attention to the fact that we were incorporated under the laws of India and are subject to a legal and regulatory environment which may differ in certain respects from that of other countries. This Draft Red Herring Prospectus also contains forward-looking statements that involve risks, assumptions, estimates and uncertainties. Our actual results could differ from those anticipated in these forward-looking statements as a result of certain factors, including the considerations described below and elsewhere in this Draft Red Herring Prospectus. See “Forward-Looking Statements” on page 21.

Our financial information for the Fiscals 2020, 2019 and 2018 included in this Draft Red Herring Prospectus, are prepared under Ind AS. References to “Restated Financial Statements” are to our restated, consolidated financial information for the Fiscals 2020, 2019 and 2018. Unless stated or the context requires otherwise, the financial information used in this section is derived from the Restated Financial Statements on page 205. For a discussion of our results of operations, see “Management’s Discussion and Analysis of Financial Condition and Results of Operations” on page 262.

Risks Relating to Our Business and Industry

1. There are outstanding legal proceedings involving our Company, Promoters and certain Directors which may adversely affect our business, financial condition and results of operations.

There are proceedings pending at different levels of adjudication before various courts, enquiry officers and appellate forums. Such proceedings could divert management’s time, attention and consume financial resources in their defence. Further, an adverse judgment in some of these proceedings could have an adverse impact on our business, financial condition and results of operations. For details in relation to certain material litigation, please see the section entitled “Outstanding Litigation and Material Developments” beginning on page 289. A summary of the outstanding proceedings involving our Company, our Promoters and Directors as disclosed in this Draft Red Herring Prospectus, to the extent quantifiable, have been set out below:

	Nature of proceedings	Number of outstanding proceedings	Amount involved (₹ in million)

Orders passed in such proceedings adverse to our interests may affect our reputation and standing and may have a material adverse effect on our business, results of operations and financial condition. For further details, please refer to section titled "Outstanding Litigation and Material Developments" beginning on page 289 of this Draft Red Herring Prospectus.

2. ***Our top ten customers constituted not more than 20.85% of our sales, both in the domestic and the international markets. Absence of large customers and dependance on smaller customers increases uncertainty of demand which may have an adverse impact on our business operations and financial performance.***

Our top ten customers across product categories constituted 20.85% of our revenue from operations for Fiscal 2020. Reliance on large number of small customers for our business may generally involve several risks. These risks may include, but are not limited to, reduction, delay or cancellation of orders, failure to negotiate favourable terms with customer, the loss of these customers, all of which would have a material adverse effect on the business, financial condition, results of operations, cash flows and future prospects of our Company. Further, there is no guarantee that we will retain the business of our existing customers or maintain the current level of business with each of these customers. In order to retain some of our existing customers, we may also be required to offer terms to such customers which we may place restraints on our resources. Additionally, our revenues may be adversely affected if there is an adverse change in any of our customers supply chain strategies or a reduction in their outsourcing of products we offer, or if our customers decide to choose our competitors over us or if there is a significant reduction in the volume of our business with such customers. Maintaining strong relationships with our customers is, therefore, essential to our business strategy and to the growth of our business. Some of our customers may place demands on our resources or may require us to undertake additional obligations which have the effect of increasing our operating costs and therefore affect our profitability. Further, a decline in our customers' business performance may lead to a corresponding decrease in demand for our products. Consequently, the loss of existing customers and our inability to acquire new customers, may significantly affect our revenues, and we may have difficulty securing comparable levels of business from other customers or secure new customers to offset any loss of revenue from the loss of our existing customers. As a consequence of our reliance on a variety of customers, any adverse change in the financial condition of these customers may also have an adverse effect on our business, financial condition, results of operations, cash flows and future benefits. Furthermore, we typically do not have firm commitment in the form of long-term supply agreements with our customers and instead rely on purchase orders to govern the volume and other terms of our sales of products. Consequently, there is no commitment on the part of our customers to continue to place new purchase orders with us and as a result, our cash flow and consequent revenue may fluctuate significantly from time to time. Further, we may not find other customers for the surplus or excess capacity, in which case we may be forced to incur loss.

3. ***We make a significant portion of our sales to our institutional customers, and the loss of a portion of such sales could have an adverse effect on our business, financial condition and results of operations.***

Our domestic institutional business constituted 39.00%, 39.53% and 33.12%, respectively, of our total income for Fiscals 2020, 2019 and 2018, respectively. We do not enter into long-term agreements with our institutional customers. If we were to experience a significant reduction in the amount of sales we make to our institutional customers, and we are not able to sell to other alternative customers in a timely manner or at all, it could adversely affect our sales volumes, and our business, financial condition and results of operations.

- 4. *Our Company has not entered into long-term agreements with our customers for purchasing our products nor for the supply of raw materials with our suppliers. We are subject to uncertainties in demand and there is no assurance that these customers and suppliers will continue to purchase our products or sell raw materials to us or that they will not scale down their orders. This could impact the business and financial performance of our Company.***

Our Company has been dealing with most of our customers for the past several years, but we have not entered into any long-term agreements with of our customers. Similarly, on the supply side as well we have been purchasing raw materials from various suppliers, both domestic and international, but have not entered into any long-term contract. Our practice has been to place orders considering the demand-supply position which is also an industry practice. As a result, our customers and suppliers can terminate their relationships with us due to a change in preference or any other reason on immediate basis, which could materially and adversely impact our business. Consequently, our revenue may be subject to variability because of fluctuations in demand for our products and supply of raw materials. Our Company's customers have no obligation to place orders with us and may either cancel, reduce or delay orders. The orders placed by our Company's customers are dependent on factors such as customer satisfaction with the quality of our products, level of service that our Company provides, fluctuation in demand for our Company's products, customer's inventory management, amongst others. Our Company's suppliers have no obligation to accept our orders and may either cancel, reduce or delay orders. The orders placed by our Company's on our suppliers are dependent on factors such as fluctuation in demand, supplier's inventory management and pricing amongst others.

Although, we have a strong emphasis on quality, timely delivery of our products and raw materials and personal interaction by the senior management with the customers and suppliers, any change in the buying pattern of buyers and preferences of suppliers can adversely affect the business and the profitability of our Company.

- 5. *Raw materials constitute a significant percentage of our Company's total expenses. Any increase in prices and any decrease in the supply would materially adversely affect our Company's business.***

Raw materials constitute a significant percentage of the total expenses of our Company. The cost of materials consumed accounted for 66.10%, 70.01% and 66.23% of total income for the Financial Years 2020, 2019 and 2018 respectively. Any increase in the price of raw materials, which our Company is unable to pass on the impact of, would have a material adverse effect on our Company's business. We are exposed to the price risk associated with purchasing our raw materials, which form the highest component of our expenses. We have not entered into any long term arrangements with our suppliers and place our orders based on demand estimates and orders in hand. Fluctuations in the price and availability of raw materials may affect our business and results of operations. We do not currently engage in any hedging activities against commodity price risk. Any material shortage or interruption in the domestic and international supply or decrease in the quality of raw materials due to natural causes or other factors could result in increased production costs that our Company may not successfully be able to pass on to customers, which in turn would have a material adverse effect on our Company's business.

- 6. *We are required to obtain and/or renew certain registrations from the CIB&RC for our products manufactured in India. We also register our products in overseas jurisdictions through our International Distribution Partners to enable exports to such countries. Any failure to successfully register our products in India or in the international markets may affect our results of operations and financial condition.***

Our products must receive requisite regulatory pre-approval after being tested for their safety, efficacy and environmental effect before they can be introduced and marketed in any jurisdiction. A submission of an application to a regulatory authority does not itself lead to a grant of such application. In India, our current principal market, the registration process for a new product is complex, lengthy and expensive. The time taken to obtain registration in India is generally from six months to two years from the date of application. This registration process increases our cost of developing new products and does not guarantee that we will be successful in selling these products after their registration is granted. For example, we must not only obtain pre-approval from the CIB&RC to manufacture or import any insecticides in India but also obtain individual registration for each insecticide under Section 9 of the Insecticides Act, 1968. Although, we have duly obtained such approvals for manufacturing and exporting the products we manufacture and distribute in India and in the international markets, there can be no assurance that we will be able to maintain or obtain the necessary approvals or registrations in the future. Additionally, after a period of time, we are

required to re-register our products by illustrating to the relevant authorities that our products meet the current relevant standards, which may have become more stringent since we obtained the prior registration. There is no assurance that such re-registration would be granted. Additionally, our products must be registered in the relevant country in which the product is marketed and sold which is applied by our International Distribution Partners in the relevant overseas jurisdiction. Each applicable authority may impose its own requirements and/or delay or refuse to grant registration, even when a product has already been approved in another country. Even after we obtain all the requisite regulatory or governmental pre-approvals and registrations, our products may be subject to other continual governmental oversight in connection with, among other things, quality control. Our pesticides manufactured in India are subject to surprise sample checking by governmental agencies and in the event that the sample does not comply with the quality norms prescribed by the CIB, it could lead to the issuance of show cause notices and potentially suspension of sales of those batches and/or products or even a total ban on the sale of such products. Legislation encouraging or discouraging the planting of specific crops can also adversely affect the approvals and registration of our products. Regulatory standards and trial procedures are continuously changing. Responding to these changes and meeting existing and new requirements may be expensive and burdensome. In addition, changing regulatory standards may affect our ability to maintain our products in the market. For instance, the Anupam Verma Committee of India, set up to review the continued use of sixty six (66) pesticides that were banned, restricted or withdrawn for use in farming in other countries, recommended a ban in India of thirteen (13) “extremely hazardous” pesticides, the phasing out of six (6) “moderately hazardous” pesticides by 2020 and a review of twenty seven (27) pesticides in 2018 after completing certain technical studies. Since the coming into effect of these recommendations in 2018, we have ceased the manufacturing of the three (3) molecules and related four (4) Branded Formulations and the stock available in our inventory will be sold by December 2020. Any such ban in the future on our products from manufacturing and sale in India could adversely affect our ability to manufacture some of our products which could adversely affect our financial results. There can be no assurance that we or our distributors/customers would be able to obtain the necessary approvals to import and undertake sales of our products, or that we will be able to register or re-register our products in India or the countries where we import or export. If we are unable to do so in a cost effective and timely manner, it would restrict our ability to buy and sell our products in the relevant markets, which could have an adverse effect on our business, financial condition and results of operations.

7. We have certain contingent liabilities that have not been provided for in our Company’s financials, which if realised, could adversely affect our financial condition.

Our contingent liabilities as at March 31, 2020, March 31, 2019 and March 31, 2018, were as follows:

Particulars	As at and for the financial year		
	March 31, 2020	March 31, 2019	March 31, 2018
Claims against our Company not acknowledged as debts (A)	--	--	--
Guarantees issued by bank	41.29	42.68	42.78
In respect of security provided to ABFL in respect of loan availed by related party	335.42	--	--
Disputed Excise duty / Custom duty demands	162.38	162.38	185.12
Disputed income tax liability	--	--	19.05
Disputed VAT liability – UP state	4.50	--	--
Export bills discounted with banks	109.56	141.05	147.30
Commitments (B)	--	--	--
Estimated amount of contracts remaining to be executed in Capital Account and not provided for (Net of Advance)	171.52	86.69	78.92

(₹ in million)

We cannot assure you that these contingent liabilities will not become established as liabilities. In the event any of these contingent liabilities become established as liabilities, it may have an adverse effect on our financial condition and results of operations.

8. Our inability to acquire, develop or protect our Branded Formulations, or defend successfully against claims asserting that we have infringed the IPRs of third parties may adversely affect our business, financial condition and results of operations.

Our IPRs basically include our Branded Formulations which are registered as our trademarks with the trademarks registry in India. We have registered various Branded Formulations like “Jayam”, “Progress Plus”, “Param”, “Cypraplus”, “Dyken”, “Mantra”, “Astron”, “Signor”, “Prompt”, “Cypra”, “Heraban”, “Sarag”, “Alpha Shakti”,

“Henoxa” “Glory”, “Chakde”, “Heraquat”, “Zinta”, “Glory 71%”, “Shera”, “Pendant”, “Atria”, “Macamba”, “Sulphy”, “Mask”, “Silicon Plus”, “Propizole”, “Vintage”, “Exort”, “Tulip”, “Mandy”, “Silicon”, “Shado”, “Heraphon”, “Temper” and “Rat Kill” among others. The measures we take to protect our IPRs include, among others, applying for registration of our brand names which may not be granted, due to various reasons such as similarity with any other registered trademark, prior usage etc. However, third parties may challenge the measures that we take to protect our IPRs and, as a result, our products may not always have the full benefit of IPR protection. We may also inadvertently use the trademarks registered by third parties which may lead to such third parties taking legal action against us by way of infringement proceedings and may be required to pay damages and penalties for the use of trademarks belonging to such third parties. We may also have to change the brand name used for our products and expend monies in the registering and marketing of a new and alternative brand names for the same products. In addition, notwithstanding the precautions we take to protect and prevent unauthorized access to and distribution of our IPRs, it is possible that third parties may obtain access to, copy or otherwise infringe on, our IPRs. The confidentiality agreements we sign with our employees may be breached, and it is possible that adequate remedies may not be available. While we take steps to ensure that we do not infringe the valid IPRs of others, we cannot always determine with certainty whether such infringement occurs. We may also be susceptible to claims from third parties asserting infringement and other related claims. These claims, even those without merit, could result in costly litigation, divert management’s attention and resources, subject us to significant liabilities, require us to enter into potentially expensive royalty or licensing agreements or withdraw certain products. Although intellectual property disputes are often settled through licensing or similar arrangements, necessary licenses may not be available to us on satisfactory terms, if at all. Any of the foregoing could have an adverse effect on our business, financial condition and results of operations.

9. ***In FY 2018-19 certain injunctions or restraining orders were passed against our Company by GPCB prohibiting operations of our manufacturing facilities. In the event we are restrained by the authorities from operating our manufacturing facilities for any length of time, it may adversely affect our business, financial condition and results of operations.***

During FY 2018-19, GPCB prohibited our Company from manufacturing activities and directed closure of operations at Unit I by way of a direction dated November 14, 2018 under Section 33(A) of the Water Act due to an incident of death of a helper and injury caused to an operator due to a tanker blast that happened at the time of loading of spent HBr. In addition to the above, GPCB observed that our Company was selling the spent HBr without obtaining necessary permission from GPCB. On submission of an undertaking and bank guarantee of ₹ 0.25 million, GPCB revoked its direction by way of its revocation order dated December 7, 2018.

Further, during FY 2019-20, GPCB directed closure of our Unit II under Section 5 of the Environment (Protection) Act, 1986 for violations of Hazardous and Other Waste (Management and Transboundary Movement) Rules, 2016 at our Unit II by our Company vide their direction dated July 11, 2019 (the “**Unit II Closure Direction**”). While issuing the Unit II Closure Direction, GPCB had the following observations: (i) generation of incinerable waste more than the consented quality; (ii) breach of production than CC&A; (iii) 23 drums of incinerable waste lying at storage area and four (4) drums of incinerable waste stored at production and plant area; (iv) production was not carried on as per EC and CTE amendment; (v) Unit II had mentioned sludge from incinerable waste instead of sludge from wet scrubber and distillation residue instead of incinerable waste in last six month’s manifest; (vi) High COD, High TDS and Cyanide containing concentrated waste water line joint to final pipeline; (vii) Unit diluting water because TDS of collection tank shows 35000-40000mg/l while TDS of final treated waste water shows 5000-6000 mg/l; and (viii) Unit II to provide established flow diagram of ETP and nomenclature of ETP units. GPCB further directed Unit II to comply with the observations of GPCB mentioned in the Unit II Closure Direction and make payment of ₹5 million towards Environmental Damage Compensation to GPCB. Thereafter, on compliance of the certain observations by Unit II as laid down by GPCB in their Unit II Closure Direction and on payment of ₹10 million towards Environmental Damage Compensation by Unit II, GPCB revoked the Unit II Closure Direction by its revocation order dated August 16, 2019.

In the event we are restrained by the authorities from operating our manufacturing facilities for any length of time in the future, it may adversely affect our business, financial condition and results of operations.

10. ***Any restriction or decline in exports to China, the country from which we receive a substantial portion of our overseas revenues, or any other general restriction or curtailment on export of any products we manufacture, could adversely affect our business, financial condition and results of operations.***

At present, a substantial portion of our products are exported to China. Any restrictions, either from the central or state governments of India, or from China, on such exports may adversely affect our business, prospects, financial condition and results of operations. Other general restrictions or curtailment on export of any products we manufacture could adversely affect our business. Our export revenue from China out of our aggregate revenues from operations for the

Fiscals 2020, 2019 and 2018 was 1,281.44 million, 1690.53 million and 1,723.43 million representing 28.35%, 35.16% and 46.45%, respectively. Any restrictions on the export of our products will have an adverse effect on our ability to sale these products, which could have an adverse effect on our business, prospects, and results of operation. There can be no assurance that such restrictions will not be imposed in the future, or that if such restrictions are imposed, we can find alternative countries to export our products. If, for any reason, our clients in China, Iran, Vietnam, Thailand, Turkey and other countries, should curtail or discontinue their usage of products procured from us, or they find alternative vendors our revenues could be disrupted and our business, financial condition and results of operations could be adversely affected.

11. Any restriction or curtailment on imports from China, the country from which we import some of our raw materials, or any other general restriction or curtailment on import of any raw materials we require, could affect our business, financial condition and results of operations.

At present, some of our raw materials are imported from China. Any restrictions, either from the Central or state governments of India, or from China, on such imports may adversely affect our business, prospects, financial condition and results of operations. Out of the raw materials purchased by our Company during FY 2020, FY 2019 and FY 2018 only 13.52%, 8.03% and 6.03% of the raw materials used were imported from China. Any restrictions on the import of Technicals and Intermediates will have an adverse effect on our ability to manufacture our products, which could have an adverse effect on our business, prospects, and results of operation. There have been instances in the past where anti-dumping duty was imposed on the raw materials we imported. Having anti-dumping duty imposed on our raw materials causes the price of such raw materials to increase. There can be no assurance that such restrictions will not be imposed in the future, that the scope of such restrictions will not be extended to cover raw materials we import from China, or that if such restrictions are imposed, we can find alternative sources to procure raw materials in a timely manner, or at all. If, for any reason, our suppliers of raw materials in China should curtail or discontinue their delivery of such raw materials to us in the quantities we need, or on commercially acceptable terms, production schedules could be disrupted and our business, financial condition and results of operations could be adversely affected.

12. SEBI issued Administrative Warnings in the year 2011 to various persons in the matter of Crazy Infotech Limited including our Promoters & Directors, Sadashiv K. Shetty & Raghuram K. Shetty and Director, Vanita R. Shetty.

Our Promoters & Directors, Sadashiv K. Shetty & Raghuram K. Shetty and Director, Vanita R. Shetty had traded in the scrip of Crazy Infotech Limited in the FY 2007-2008. SEBI issued administrative warnings to 780 entities (including our Promoters & Directors, Sadashiv K. Shetty, Raghuram K. Shetty and Director, Vanita R. Shetty) in May 2011 in relation to this matter advising them to be careful in future and to be more vigilant in the manner they execute trades so that their trades do not compromise market integrity in any manner. SEBI Wholetime Member later passed an order on June 17, 2015 against certain persons in the scrip of Crazy Infotech Limited.

13. Our operations are subject to environmental and workers' health and safety laws and regulations. We may have to incur material costs to comply with these regulations or suffer material liabilities or damages in the event of an incidence or non-compliance of environmental laws and regulations which may have a material adverse effect on our business, financial condition and results of operations.

Our operations are subject to extensive environmental and hazardous waste management laws and regulations in India, including the Environmental Protection Act, 1986, as amended (the "Environment Act"), the Air (Prevention and Control of Pollution) Act, 1981, as amended (the "Air Act"), the Water (Prevention and Control of Pollution) Act, 1974, as amended (the "Water Act") and other regulations promulgated by the MoEF and various statutory and regulatory authorities and agencies in India. The agrochemical intermediates industry is subject to strict regulations with respect to a range of environmental matters including limitations on land use, licensing requirements, management of materials used in manufacturing activities, the storage of inflammable and hazardous substances and associated risks, the storage, treatment and disposal of wastes, remediation of contaminated soil and groundwater, air quality standards, water pollution and discharge of hazardous materials into the environment. The discharge or emission of chemicals, dust or other pollutants into the air, soil or water that exceed permitted levels and cause damage to others may give rise to liabilities towards the government and third parties, and may result in our incurring costs to remedy any such discharge or emissions.

The impact of these laws and regulations, or any changes to such laws or regulations, may be significant and may delay in the commencement of, or cause interruptions to, our operations. We may not have complied with all such applicable environmental laws and regulations in the past and in the future may fail to comply with applicable laws and regulations.

Our manufacturing facilities are being inspected on regular basis by the GPCB and we have been receiving notices from such regulating authorities for contravention of the provisions of the Air Act / Water Act. We have in the past received closure notices from GPCB for our manufacturing units on inspection by GPCB officials. We have been complying with / rectifying such lapses on regular basis and on verification by GPCB officials such closure notices have been revoked, however we may incur and expect to continue to incur, significant capital and operating costs to comply with these requirements, including various provisions made for environmental related expenditure. There can be no assurance that compliance with such environmental laws and regulations will not result in a curtailment of production or a material increase in the costs of production or otherwise have a material adverse effect on our financial condition and results of operations. Environmental laws and regulations in India have become increasingly stringent, and it is possible that they will become significantly more stringent in the future. If any of our manufacturing facilities or the operations of such manufacturing facilities are shut down, we may continue to incur costs in complying with regulations, appealing any decision to close our facilities, maintaining production at our existing facilities and continuing to pay labour and other costs which may continue even if the facility is closed. Stricter laws and regulations, or stricter interpretation of the existing laws and regulations may impose new liabilities on us or result in the need for additional compliance requirements and additional investment in environmental protection equipment, either of which could adversely affect our operations, financial condition or business prospects.

14. Sales of our Branded Formulations are to a large extent dependent on the overall area under cultivation, the cropping pattern adopted by the farming community in India, lack of monsoon and overall general weather conditions in India.

Our Company derives majority of sales from major pesticides consuming crop like paddy, cotton, sugarcane, wheat etc. Any significant reduction in the area under cultivation in these crops may significantly reduce the demand for our Formulations Products. Further, the demand for our Formulations products is dependent on the cropping pattern which may vary year on year for these major crops. Any significant changes in the cultivable area and the cropping pattern in India for these crops may impact our sales and profitability. Further, the demand of our Formulations products is also dependent on the monsoon and general weather conditions in India. Lack of monsoon in a particular year may result in the decline in demand for our Formulations products. Sales of agrochemical products in the domestic Indian retail market are seasonal due to monsoon. In particular, demand for pesticides is generally higher during the monsoon season. Demand by domestic customers for our Formulations products is also affected by weather conditions in India such as droughts, excessive rainfall and cyclones or other natural calamities such as fires, floods and earthquakes. The unpredictable effects of weather in India, including floods, droughts and subsequent damage to crops significantly affects crop production in India as they can be more severe than those in other countries. Any adverse weather conditions in India, or an inability to predict and plan for such adverse weather conditions, could affect farmers' decisions about the types and the quantum of crops to plant, and may lead to adverse effects on the sales of our Formulations products, which could have an adverse effect on our business, financial condition and results of operations. Similarly, in some seasons there may be stable general weather conditions and such conditions may result in decline in pest infestation and thereby resulting in decline in demand for our products. Any significant changes in the above factors may impact our sales and profitability.

15. The value of our brands may be diluted if there is a change in the brand name for a product it is known for with the farmers, which could adversely affect our business, financial condition and results of operations.

Our brands are among our important assets, some of which have been established for many years. We believe our brands serve in attracting customers to our products over those of our competitors. Our products are marketed throughout India through our brands, many of which are well known to farmers. We believe that continuing to develop awareness of our brands, through focused and consistent branding and marketing initiatives, among brand customers and farmers, is important for our ability to increase our sales volumes and our revenues, grow our existing market share and expand into new markets. We also believe most of our brands, including our key Branded Formulations like "Jayam", "Progress Plus", "Param", "Cypraplus", "Dyken", "Mantra", "Astron", "Signor", "Prompt", "Cypra", "Heraban", "Sarag", "Alpha Shakti", "Henoxa", "Glory", "Chakde", "Heraquat", "Zinta", "Glory 71", "Shera", "Pendant", "Atria", "Macamba", "Sulphy", "Mask", "Silicon Plus", "Propizole", "Vintage", "Exort", "Tulip", "Mandy", "Silicon", "Shado", "Heraphon", "Temper" and "Rat Kill" command a strong brand recall in India due to our long presence in the Indian market. Decrease in product quality due to reasons beyond our control or allegations of product defects, even when false or unfounded, could tarnish the image of our brands and may cause farmers to choose other products. Our reputation and brands could also be affected by socially motivated groups, which could lead to a decline in our sales volume. In addition, the considerable expansion in the use of social media over recent years has compounded the impact of negative publicity. As a result, any adverse publicity involving our brands, our products or us may impair our reputation, dilute the impact of our branding and marketing initiatives and adversely affect our business and our prospects.

16. One of our Group Companies, Shakti Bio Science Limited was declared a “Wilful Defaulter” by Cosmos Bank during the period June 30, 2016 to December 31, 2017.

One of our Group Companies, Shakti Bio Science Limited (“**Shakti Bio**”) was declared as “Wilful Defaulter” by The Cosmos Co-op Bank Limited (“**Cosmos Bank**”) for the period June 30, 2016 to December 31, 2017. Cosmos Bank had initiated an arbitration proceeding under Section 84(4) of Multi-State Co-operative Societies Act, 2002 against Shakti Bio, one of our Promotor Group entities, one of our Promoters Sadashiv K. Shetty and our Promoter Group members, Sujata S. Shetty, Shreya S. Shetty, seeking an award for outstanding dues of ₹485.79 million along with further interest for the financial facilities extended by the Cosmos Bank to Shakti Bio. The parties filed consent terms dated April 19, 2018 in the arbitration proceedings and it was agreed between the parties that an amount of ₹367.90 million, being the full principal amount, will be paid in thirteen (13) instalments last being due on or before March 31, 2019. The entire amount payable under the consent terms has been paid and Cosmos Bank has also issued a “no dues certificate” dated August 31, 2019.

17. Our Company stands as a Co-Borrower for a term loan of ₹ 350 Million issued to our Group Company, Insunt Trading Private Limited by Aditya Birla Finance Limited (ABFL). In the event of default in the repayment of the principal and/or interest payable to ABFL, our Company will have to bear the liability of our Group Company which may adversely affect our financial position.

Our Group Company Insunt Trading Private Limited has availed a term loan from ABFL of ₹350 Million. Our Company is also named as the Co-Borrower for this term loan by ABFL. In the event of any default in the repayment of the principal and/or interest payable to ABFL by Insunt Trading Private Limited, our Company being the Co-Borrower may become liable for the repayment of the ABFL loan. Further, our Company has also provided certain immovable and liquid securities as collateral to secure the repayment of the ABFL loan. In the event of default by our Group Company, we may be forced to pay its liability which may adversely affect our financial condition and results of operations. For further details, please refer to the section titled ‘*Financial Indebtness*’ beginning on page 285 of the Draft Red Herring Prospectus.

18. Our success largely depends upon the services of our senior management and other Key Managerial Personnel (KMP) and our ability to attract and retain them. Demand for senior management personnel in the industry is intense and our inability to attract and retain our KMP may affect the operations of our Company.

Our Key Managerial Personnel have substantially contributed for our growth. Our success is substantially dependent on the expertise and services of our Directors and Key Managerial Personnel. They provide expertise which enables us to take well informed decisions in relation to our business and prepare our Company for future challenges. Our future performance will depend upon the continued services of these persons. Demand for senior management personnel in the industry is intense. We cannot assure you that we will be able to retain any or all, or that our succession planning will help to replace, the key members of our management. The loss of the services of such key members of our management team and the failure of any succession plans to replace such key members could have an adverse effect on our business and the results of our operations.

19. Products sold by our Company are subject to independent verification by Government agencies on a sample check basis and any non-conformity with the prescribed standards may lead to adverse impact on our business.

Quality of Pesticides manufactured in India are open to independent verification by Government agencies. Government agencies carry out surprise sample checking of products and their contents. In case, the content in the sample does not comply with the quality norms prescribed by the Government or does not match with the disclosure of contents mentioned on the packaging of our products, it could lead to issuance of show cause notices. For details of pending show cause notices issued to our Company under Insecticides Act, please refer to section titled “*Outstanding Litigation and Material Developments*” on page 289 of this Draft Red Herring Prospectus. Any failure on quality control and required level of packaging disclosures by our Company could lead to suspension of sales of those batches and /or product in a state or our products being banned for sales. In the past our Company has not faced any suspension/ban on sale of any product, though certain show cause notices and proceedings have been initiated by government agencies in relation to misbranded products. Any such events are likely to impact our sales and revenues.

20. We do not own our administration office and any revocation or adverse changes in the terms of the leave and license may have an adverse effect on our business, prospects, results of operations and financial condition.

We have entered into a leave and license agreement in respect of our administration office situated at Office No. 301, Soni Shopping Centre, L. T. Road, Borivali West, Mumbai 400 092, Maharashtra. This leave and license is valid till February 9, 2023. If the owner of the premises revokes this agreement or imposes terms and conditions that are unfavourable to us, we may suffer a disruption in our operations or have to pay increased rent, which could have a material adverse effect on our business, prospects, results of operations and financial condition.

Considering the above uncertainties, we have acquired an office premises viz. Office No. 201, 202, 203, 205 and 206, A-Wing, Fortune Avirahi, Bhattwadi, Jambli Galli, Borivali (West), collectively admeasuring 6262.67 sq. ft. which is under construction and possession is expected by June, 2022. On receipt of possession from the developer, we will be shifting all our administrative, marketing and corporate office activities to this new corporate office.

For further details, see the section titled “Business — Immovable Property” on page 157.

21. *We are in the process of acquiring by way of transfer of lease of a land and building from one of our Group Companies.*

We are in the process of acquiring a portion of the land admeasuring 1,631 sq. mtrs. along with factory building in Vapi, Gujarat from Heranba Agro Science Limited, one of our Group Companies, for an aggregate consideration of ₹10.00 million in the present Fiscal. There can be no assurance that we will not or would not have received better commercial terms for such acquisition if the land and factory building was being acquired from a third party.

22. *Our failure to accurately forecast and manage inventory could result in an unexpected shortfall and/ or surplus of products, which could harm our Formulations business.*

We monitor our inventory levels based on our own projections of future demand, which are generally based on weather predictions and agriculture seasons of various parts of the world. Because of the length of time necessary to produce commercial quantities of our products, we make production decisions well in advance of sales. An inaccurate forecast of demand for any product can result in the unavailability/surplus of our Formulations products. This unavailability of Formulations products in high demand may depress sales volumes and adversely affect customer relationships. Conversely, an inaccurate forecast can also result in an over-supply of our Formulations products, which may increase costs, negatively impact cash flow, reduce the quality of inventory, erode margins substantially and ultimately create write-offs of inventory. Any of the aforesaid circumstances could have a material adverse effect on our business, results of operations and financial condition.

23. *Our customers may be unable to pay their debts due to local economic conditions, which may affect payment for our products used by them on credit in their agricultural activities leading to adversely affecting our business, financial condition and results of operations.*

Generally, we sell our products against future payment with credit terms varying according to local market practice. Our credit terms vary from 90 to 120 days, except in geographic areas where we have special strategies for particular products, such as cash on delivery or, in certain cases, credit terms of 150 days. However, farmers may be adversely affected by a number of factors beyond their control such as severe monsoon, drought or low prices for their crops, which could affect their financial condition and consequently their ability to pay the dealer/distribution partners for products that have already been sold to them and used by them. Pending farmer payments may lead to defaults by our dealers/distribution partners of our dues for products sold through them. Although losses in these respects have historically been limited, in periods of declining economic conditions and sustained adverse weather, there can be no assurance that such losses will not be material, which may have an adverse effect on our business, financial condition and results of operations. In addition, in our institutional and exports businesses, we deliver our products against future payment. If any of our large and medium corporate customers fail to make payments to us or become insolvent, we would suffer losses and our business, financial condition and results of operations could be adversely affected. Additionally, in the event of any dispute or a default regarding our payments, we would have to initiate appropriate recovery proceedings. Inability to collect dues because of delays or defaults in payments by customers could have an adverse effect on our business, financial condition and results of operations.

24. *Our Branded Formulations business is sensitive to seasonal fluctuations, climatic variations and other factors beyond our control, which could adversely affect our business, financial condition and results of operations.*

As our agrochemicals business is dependent on the agricultural industry, we are highly sensitive to seasonal and weather factors, which make our results of operations unpredictable from period to period. The weather can affect the presence of disease and pest infestations in the short term on a regional basis, and accordingly may adversely affect

the demand for crop protection products. Sales of agrochemical products in the domestic Indian retail market are seasonal due to the monsoon. In particular, demand for pesticides is generally higher during the monsoon season and therefore most of our sales of Branded Formulations products takes place between June and November, which is also known locally as the Kharif crop season. Demand by domestic customers for our Formulations products is also affected by weather conditions in India such as droughts, excessive rainfall and cyclones or other natural calamities such as fires, floods and earthquakes. The unpredictable effects of monsoonal weather in India, including flooding, droughts and subsequent damage to crops significantly affects crop production in India as they can be more severe than those in other countries. Any adverse weather conditions in India, or an inability to predict and plan for such adverse weather conditions, could affect farmers' decisions about the types and the quantum of crops to plant, and may lead to an adverse effect on the sales of our products, which could have an adverse effect on our business, financial condition and results of operations.

25. *Fluctuations in the prices of commodities crops may affect the sales of our crop protection products and our results of operations.*

We are also affected by movements in prices of commodities crop, which may vary as a result of, among other things, volatile weather conditions, unfavourable soil conditions, quality and availability of supply, currency fluctuations, consumer demand and changes in government programs. Such movements may affect farmers' decisions about the types and quantum of crops to plant, and accordingly affect the sales of our crop protection products and our results of operations. If crop prices fall, our customers generally reduce their spending on agrochemical products, which could have an adverse effect on our business, financial condition and results of operations.

26. *Quality concerns and negative publicity, if any, would adversely affect the value of our brand and our sales.*

Our business is dependent on the trust of farmers that they have in the quality of our products as well as on our ability to protect our brand value. Any negative publicity regarding our Company's Branded Formulations or products, including those arising from a drop in quality of our products from our vendors, or any other unforeseen events could adversely impact our reputation, brand value, operations and our financial results.

27. *Our inability to respond adequately to increased competition may adversely affect our business, financial condition and results of operations.*

We compete with several domestic companies, as well as large multi-national companies with broader product ranges, greater brand recognition, stronger sales forces and greater financial resources and experience, including a larger budget for advertising and marketing. Some of our competitors may develop alliances to compete against us. Our competitors in certain regions may also have better access or exclusive arrangements to distribute products or procure raw materials which are typically required in our operations, may procure them at lower costs than us and may therefore be able to sell their products at lower prices. Some of our international competitors may be able to capitalize on their overseas experience to compete in the Indian market. We also face competition from new entrants, including multinational ones, who may have more flexibility in responding to changing business and economic conditions and may possess greater financial resources. The basis of competition includes, among other things, pricing, innovation, perceived value, brand recognition, promotional activities, advertising, special events, new product introductions, customer service and other activities. We have experienced price competition in the past, and there can be no assurance that such price competition will not recur in the future. Growing competition may force us to reduce the prices of our products, which may reduce revenues and margins and/or decrease our market share, either of which could affect our results of operations. The majority of sales of agrochemical products in India continue to be dominated by multi-national corporations. In most of the markets in which we operate, the number of products available is steadily increasing as our competitors introduce new products. Our competitors may succeed in developing technologies, processes and products that are more effective and/or more cost effective than the ones that we may develop. These developments could render our technologies, processes or products obsolete or uncompetitive, which would harm our business and financial results. We expect competition to continue to be intense as our existing competitors expand their operations and introduce new products. Our failure to compete effectively, including any delay in responding to changes in the industry and market, together with increased spending on advertising, may affect the competitiveness of our products, which may result in a decline in our revenues and profitability. As a result, there can be no assurance that we will be able to compete successfully in the future against our existing or potential competitors, which may adversely affect our business, financial condition and results of operations.

28. We have made Company Law related non-compliances in the past. We may be subject to regulatory action, including monetary penalty that may be imposed on us.

There have been certain non-compliances in respect of company law related matters. Notices maybe issued upon our Company and fines or penalties may also be imposed upon our Company, which may adversely affect our administration from compliance perspective. There can be no assurance that no penal action will be taken against us by the regulatory authorities with respect to the non-compliances. If any adverse actions are taken against us, our financial results could be affected. The below mentioned is the list of non-compliances with regards to Companies Act, 2013:

1. Section 203 of Companies Act 2013 – Our Company was required to appoint a company secretary from the FY 2015 when our paid-up capital exceeded ₹ 50.00 Million but appointed a company secretary only on September 26, 2018. Our Company has already filed a compounding application under Section 203 and 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad which is pending for hearing.
2. In relation to the bonus issue made by our Company on May 28, 2014 the date of EGM in the resolution attached with the relevant form was inadvertently mentioned as June 1, 2014. Our Company has filed a compounding application under Section 63 and 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad which is pending for hearing.
3. Our Company was required to have an optimum combination of independent and non-executive Directors in terms of Companies Act, 2013 on its Board since FY 2015, but we complied with this requirement on July 9, 2018. Our Company has filed a compounding application under Section 149 and 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad which is pending for hearing.
4. Section 177 of the Companies Act, 2013 - Formation of the Audit Committee and Nomination and Remuneration Committee. Our Company was required to appoint Independent Directors on its Board to comply with the requirement of the Companies Act, 2013 since FY 2015. Nomination and Remuneration Committee was also not formed by our Company as required under the Companies Act. However, on August 31, 2018, both the Audit Committee and Nomination and Remuneration Committee were formed in compliance of SEBI LODR Regulations and the Companies Act, 2013. Our Company has filed a compounding application under 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad to compound the non-compliance of Section 177 and 178 which is pending for hearing.

Further, our Company was required to appoint an internal auditor as per Section 138 of the Companies Act, 2013 from April 1, 2014 but has only recently complied with this requirement in the FY 2020-21. Our Company is in the process of filing a compounding application under Section 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad.

29. We have made allotment of 1,17,000 Equity Shares on May 8, 2015 without full compliance of section 42(6) of the Companies Act, 2013.

The Company had issued and allotted 53,500 Equity Shares to Sadashiv K. Shetty, 52,000 Equity Shares to Raghuram K. Shetty and 11,500 Equity Shares to Sujata S. Shetty on May 8, 2015. As per Section 42(6) of the Companies Act, 2013, the monies received on application are required to be kept in a separate bank account in a scheduled bank and must not be utilised for any purpose other than for allotment of shares. Our Company had inadvertently deposited the application money in the Cash Credit Account of the Company which technically amounts to utilization of fund before the allotment of shares. The contravention of the provisions of Section 42 attract a penalty against our Company, its Promoters and Directors. In such a scenario, notices maybe issued upon our Company imposing fines or penalties by the MCA.

Our Company has filed a compounding application under Section 42 and 454 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad which is pending for hearing.

30. There has been a non-compliance of Section 135 of Companies Act, 2013 regarding Corporate Social Responsibility.

As per Section 135 of the Companies Act, 2013, our Company was required to constitute Corporate Social Responsibility Committee and spend at least two percent (2%) of our average net profits made during the three (3) immediately preceding financial years. Our Company had not constituted the Corporate Social Responsibility

Committee upto August 31, 2018. However, our Company did not allocate and disburse ₹ 1.75 million in FY 2015-16 for CSR purposes against the amount of ₹2.12 million that was required to be allocated and disbursed in FY 2014-15. During the FY 2015-16 our Company did not allocate and disburse monies for CSR purposes. During the FY 2016-17 our Company was required to allocate and disburse ₹5.46 million but failed to do the same during this period. During FY 2017-18 our Company allocated and disbursed ₹2.61 million for CSR purposes while the amount required to allocate and disburse ₹6.17 million. Our Company has already filed a compounding application under Section 135 and 441 of the Companies Act, 2013 before the Regional Director, Registrar of Companies, Ahmedabad which is pending for hearing.

31. *We are subject to counterfeit and pass-off products, which could adversely affect the reputation of our branded Formulations business and consequently, our business, financial condition and results of operations.*

Counterfeit products are products manufactured and sold illegally as legitimate products. Pass-off products are manufactured and packaged to resemble legitimate products. In the past few years, technologies have advanced to the level that legitimate products can be counterfeited. The sale of counterfeit and pass-off products may lead to lower sales of our branded Formulations products. In addition, such products may be harmful to customers or may be less effective than genuine products, which could harm our brands and reputation. The proliferation of unauthorized copies of our Formulations products, and the time spent in pursuing claims and complaints about spurious products may also reduce our sales and tarnish our brands and reputation, and could adversely affect our business, financial condition and results of operations.

32. *Product innovation and research and development (R&D) activities are an integral part of our business model. If our research and product development efforts are not successful, our business may be restricted which may in turn have an adverse effect on our business and financial condition.*

Product innovation and Research and Development (R&D) activities are an integral part of our business model. Our Company needs to introduce new products and further expand into additional areas to remain successful in the future. We are in process of developing two (2) products of Fungicides, two (2) products of Herbicides and one (1) product of Insecticides, for which research and development tests have been initiated, for exclusive sale to the European markets after registration with the relevant regulatory authority in EU. Our Company's plans to introduce new products into these markets and diversify the areas in which it already operates may not be successful. Any material adverse developments with respect to the sale or use of our products, failure to successfully introduce new products or implement our expansion strategies, could have a material adverse effect on the business and financial condition of our Company. Further, new products currently under development, if and when fully developed and tested, may not perform as per our expectations and our Company may not be able to successfully and profitably produce and market such products, which may consequently restrict our business and affect our financial condition.

33. *Our traditional agrochemical products may be subject to alternative pest management and crop protection products and measures such as biotechnology products, pest resistant seeds or genetically modified crops.*

The increased use of the products derived through biotechnology, alternative pest management and crop protection products and measures pose challenges to traditional agrochemicals. For instance, genetically modified (GM) crops are likely to have more resistance to pests and diseases than non-GM crops and therefore require significantly less agrochemical usage than non-GM crops. The acceptance and growth of such alternative pest management and crop protection products and measures such as biotechnology products, pest resistant seeds or GM crops by farmers may have an adverse effect on the sales volume of our agrochemical products, which would adversely affect our business, financial condition and results of operations.

34. *Resistance from farmers to crop protection chemicals may adversely affect our business, financial condition and results of operations.*

Some crop protection chemical products, which may include some of our Formulations products, are facing increasing resistance from certain activist groups because of concerns over their alleged effects on food safety and the environment. These groups attempt to influence and, in some cases, litigate against governmental regulatory bodies to restrict the use of crop protection chemical products in their jurisdictions. Further, there can be no assurance that such resistance would not continue to spread in the future and any future resistance could adversely affect our business, financial condition and results of operation.

35. *Lack of education and awareness among farmers in India may lead to inappropriate application of our Formulations and adversely affect our business prospects.*

To apply our Pesticides appropriately and effectively, we recognize the importance of educating farmers with the latest information on crop management, such as the appropriate kind of pesticide, its dosage and quantity and the frequency of its application and provide farmer training programs. For details, see “*Our Business*” on page 129. However, it may be difficult to effectively instruct or train farmers due to differences in regional languages and dialects although almost all our Formulations products are packed with instructions about the optimum dosage and usage method of our products. Any inappropriate application of our Formulations products could result in crop damage, and other serious consequences. For instance, in the state of Maharashtra, over 18 people reportedly died in 2017 due to their blending agrochemicals in an unsafe manner. This resulted in a 60-day prohibition by the state government on the sale, distribution and use of certain agrochemicals including some of our products. There can be no assurance that such incidents will not recur in the future, or that our farmer training programs will work effectively to educate the farmers on the safe use of our Formulations products. Any inappropriate application of our Formulations products could adversely affect our brand image, prospects, business, financial condition and results of operations.

- 36. *Our ability to introduce new products is dependent upon approvals for manufacturing and selling under the Insecticides Act. In the event we our new products do not receive approvals from CIB&RC, we will be unable to launch new products in the markets which will may adversely affect our business prospects.***

As per Section 9 of the Insecticides Act, any person desiring to import or manufacture any Pesticide may apply to registration committee (CIB&RC) for registration of such Pesticide and there is separate registration for each insecticide. Our Company has duly obtained the registration under the Insecticides Act, 1968, for manufacturing pesticides at our manufacturing facilities. We have already received registrations for eighteen (18) Technicals and one hundred sixty-seven (167) Formulations registered for manufacturing and sale in India and manufacturing ninety-three (93) Technicals only for the international markets. We have applied for registration from the CIB&RC for the manufacture and sale in India of thirteen (13) Technicals and Formulations which are pending at various stages with the CIB&RC. For details of approval our Company has for manufacturing various products, please refer to section “*Government and Other Approvals*” on page 298. The process of seeking registration for any Technicals or Formulation is complex, expensive and time consuming. If we are unable to successfully obtain registrations in a timely manner, we may lose the market opportunities which may result in our delay or failure to recover the costs incurred towards seeking registrations and other related activities and may adversely affect our operations and profitability.

- 37. *Our Branded Formulations products may become ineffective in the long term. If any of our high sales Branded Formulations become ineffective and farmers choose Formulations of other companies, this may adversely affect our business, financial condition and results of operations.***

From empirical tests and data, it is well documented that over a period of time pests develop immunity to the Pesticides which are used constantly. Hence, over a period of time the pests may develop immunity towards our products. We may be required to change the chemical formula of our products and/or develop new products, which may not be as effective against the pests as our earlier products, which may adversely affect our business operations and our reputation. Development and registration of new products is a time-consuming process and may put a strain on our financial resources.

- 38. *Many of the materials produced at our factories are hazardous in nature. In the event of any accidents involving any such hazardous materials and substances, our Company may be held liable for damages and penalties which may impact the financials of our Company.***

Our employees/labour may be required to work under potentially dangerous circumstances in the operation of our business, which is subject to hazards and risks normally associated with the handling, storage, movement and production of chemical and other products, such as the use, handling, processing, storage and transportation of hazardous materials, as well as accidents such as fire, explosions, leakage or spillages of chemicals. Any mishandling of hazardous chemicals and substances could also lead to serious and sometimes fatal accidents. These hazards can cause personal injury and loss of life, severe damage to and destruction of property and equipment, environmental damage and may result in the suspension of operations and the imposition of civil and criminal liabilities. As a result of past or future operations, claims of injury by employees or members of the public due to exposure, or alleged exposure, to the hazardous materials involved in our business operations may arise. Certain proceedings related to the above filed against our Company are currently pending. For further details, see “*Outstanding Litigation and Other Material Developments*” on page 289. Liabilities incurred as a result of these events have the potential to adversely impact our financial position and reputation. Events like these could result in liabilities, or adversely affect our

reputation with suppliers, customers, regulators, employees and the public, which could in turn affect our financial condition and business performance.

39. *Conflict of interest may arise out of common business objects shared by our Company and some of our Group Companies and members of the Promoter Group.*

Our Group Companies, namely SAMS Industries Limited, Heranba Agro Science Limited, Shakti Bio Science Limited and Insunt Trading Private Limited and our Promoter Group Company Heranba Crop Care Limited share common business objects and the constitutional documents of these companies may lead to competition with such Group/Promoter Group Companies. As a result, there may be conflict of interests in allocating business opportunities between us and our Group/ Promoter Group Companies. However, the aforesaid Group/Promoter Group Companies are not currently involved in business activities similar to that of our Company. Our Promoters have undertaken to not undertake any business (directly and indirectly) in our Groups Companies or our Promoter Group Companies which competes in any manner with the business undertaken by the Company. Any violation, non-compliance (whether in whole or in part) or unenforceability of such non-compete obligations may have an adverse effect on the results of our operations and financial condition.

40. *We engage in certain transactions in or with countries or persons that are subject to U.S. and other sanctions.*

We generate a portion of our revenues from customers in countries subject to international sanctions administered by the Office of Foreign Assets Control of the U.S. Department of the Treasury, the U.S. Department of State or equivalent sanctions regimes administered by Her Majesty's Treasury, the European Union, the United Nations or other relevant sanctions authorities (collectively, “**International Sanctions**”). In addition, we have limited information about and control over the identity of customers that use our products, and there can be no assurance that our past or future customers have not included or will not include persons or entities targeted by, or were not or will not be located in any country that is the subject of International Sanctions. For instance, in Fiscal 2018, 2019 and 2020, customers based in Iran and Zimbabwe contributed 4.50%, 4.90% and 7.70%, respectively, of our revenues from operations.

There can be no assurance that our business will not be impacted by such International Sanctions in the future, particularly if there are changes to, or more stringent application of, the International Sanctions, or if we make changes to our operations or introduce new products or services with particular appeal to customers subject to or based in countries subject to such International Sanctions. In addition, as a result of our business activities or a change in the scope or application of International Sanctions, our counterparties, including our vendors and suppliers, or our other customers, that are required to comply with such International Sanctions, may seek to terminate or modify our contractual arrangements to impose additional conditions that may be adverse to our operations or business prospects, or may be precluded from entering into commercial transactions with us.

Investors in the Equity Shares could incur reputational or other risks as a result of our business dealings with customers in or with persons that are the subject of International Sanctions. In addition, because many sanctions programs are evolving, new requirements or restrictions could come into effect which might increase regulatory scrutiny of our business or result in some of our business activities being deemed to have violated sanctions or being sanctionable.

Future changes in International Sanctions may also require us to discontinue existing operations, or prevent us from doing business, in jurisdictions subject to such International Sanctions, which could have a material adverse effect on our financial condition and results of operations, including as a result of disputes arising from the termination of our existing contractual arrangements.

41. *Agrochemicals is a labour intensive industry, hence we may face labour disruptions and other planned and unplanned outages that could interfere or temporarily disrupt our operations.*

Our Company’s activities are labour intensive. Strikes and other labour action may have an adverse impact on our operations, though we have not experienced any such labour disruption in the past. We cannot guarantee that we will not experience any strike, work stoppage or other industrial action in the future. Also, the third-party suppliers of raw materials, which we use may experience strikes or other industrial action. Any such event could disrupt our operations either temporarily or for a significant period of time, resulting in increased wages and other costs leading to a material adverse effect on our business, results of operations or financial condition. For further details, please refer to the paragraph titled ‘*Manpower*’ under chapter titled ‘*Our Business*’ beginning on page 129 of the Draft Red Herring Prospectus.

42. Unfavourable global weather patterns may have an adverse effect on our export business, results of operations and financial condition.

Since we primarily serve the agriculture sector, our export business is sensitive to global weather conditions affecting global crop patterns, including extremes such as drought and natural disasters. There is growing concern that carbon dioxide and other greenhouse gases in the atmosphere may have an adverse impact on global temperatures, weather patterns and the frequency and severity of extreme weather and natural disasters. Adverse weather conditions may also cause volatility in the prices of commodities, which may affect growers' decisions about the types and quantum of crops to plant and may consequently affect the sales of our Pesticides. Consequently, the occurrence of any such unfavourable weather patterns may adversely affect our business, results of operations and financial condition.

43. The loss resulting from shutdown of operations at any of our manufacturing facilities could have an adverse effect on our Company.

Our manufacturing facilities are subject to operating risks, such as the breakdown or failure of equipment, power supply or processes, performance below expected levels of output or efficiency, obsolescence, labour disputes, natural disasters, industrial accidents. Our manufacturing facilities use complex equipment and machinery, and the breakdown or failure of equipment or machinery may result in us having to make repairs or procure replacements which may require considerable time and expense. Although, our Company have not had such incident in the past and while we also have insurance cover for all our facilities, the same may not be adequate to cover the loss in business. Although we take precautions to minimise the risk of any significant operational problems at our units they could have adverse effect on our financial performance.

44. Our business is dependent on our manufacturing facilities which are geographically located in one area, in and around Vapi, Gujarat. Any shutdown of operations in and around Vapi, Gujarat may have an adverse effect on our business and results of operations.

As of the date of this Draft Red Herring Prospectus, we have three (3) operational Intermediates, Technicals and Formulations manufacturing facilities, two of them are manufacturing Intermediates and Technicals situated at Vapi, Gujarat and one located at Sarigam, near Vapi, Gujarat is presently manufacturing Formulations. These facilities are subject to the normal risks of industrial production, including natural disasters, directives from government agencies and power interruptions. Any extended power supply interruption will result in reduced production at the affected facility. We depend on the Dakshin Gujarat Vij Company Limited for the supply of power to our manufacturing facilities and the GIDC for the supply of water to our manufacturing facilities. Any shortage or interruption in the supply of electricity or water may adversely affect our operations and increase our production costs. This could lead to delays in delivery of our products or non-delivery, resulting in loss of revenue and damage to our reputation or customer relationships. As we do not carry business interruption insurance, any disruption that affects our operations will adversely affect our business, financial condition and results of operations.

45. Any reduction in the demand for our products could lead to underutilization of our manufacturing capacity. We may also face surplus production of a particular product due to various reasons including inaccurate forecasting of customer requirements, which could adversely affect our business, results of operations, financial condition and cash flows.

We face the risk that our customers might not place any order or might place orders of lesser than expected size or may even cancel existing orders or make change in their policies which may result in reduced quantities being manufactured by us. Cancellations, reductions or instructions to delay production (thereby delaying delivery of products manufactured by us) by customers could adversely affect our results of operations by reducing our sales volume leading to a reduced utilization of our existing manufacturing capacity.

Further, we make significant decisions, including determining the levels of business that we will seek and accept, production schedules, personnel requirements and other resource requirements, based on our estimates of customer orders. The changes in demand for their products (which are in turn manufactured by us) could reduce our ability to estimate accurately future customer requirements, make it difficult to schedule production and lead to over production and utilization of our manufacturing capacity for a particular product. The requirements of our customers are not restricted to one type of product and therefore variations in demand for certain types of products also requires us to make certain changes in our manufacturing processes thereby affecting our production schedules. This may lead to over production of certain products and under production of some other products resulting in a complete mismatch of capacity and capacity utilization. Any such mismatch leading to over or under utilization of our manufacturing facilities could adversely affect our business, results of operations, financial condition and cash flows.

46. Our operations are dependent on our reactors, machines, and equipment for manufacturing our Products. Any breakdown, failure or malfunction may have an adverse effect on our business and results of operations.

Any significant malfunction or breakdown of our machinery may entail significant repair and maintenance costs and cause delays in our operations. If we are unable to repair malfunctioning machinery in a timely manner or at all, our operations may need to be suspended until we procure machinery to replace such malfunctioning machinery. In addition, we may be required to carry out planned shutdowns of our facilities for maintenance, statutory inspections and testing, or may shut down our facilities for capacity expansion and equipment upgrades. Any interruption to production at any of our facilities could significantly reduce our production volumes and consequently our sales revenue. There can be no assurance that there will not be any recurrence of such disruptions in our operations in the future. If we are unable to effectively respond to such events and rectify any disruption in a timely manner and at an acceptable cost, such events could lead to the slowdown or shutdown of our operations or the under-utilization of our manufacturing facilities.

47. Information relating to estimated installed capacities of our manufacturing facilities is based on various assumptions and estimates and actual production may differ significantly from such estimated capacities.

The requirements of our customers are not restricted to one type of product and therefore variations in demand for certain types of products also requires us to make certain changes in our manufacturing processes thereby affecting our production schedules. We often increase capacity to meet the anticipated demand of our customers or significantly reduce production of certain products depending on potential orders. Therefore, there could be a significant difference in the installed capacity and the production of our products due to the variety of products that we manufacture. Certain products require lesser process time whereas certain products require more process time in the same manufacturing set-out that we have installed.

Therefore, the information provided in this DRHP on installed capacities and the data on actual production may differ significantly. For further details, see the section titled “Our Business” on page 129.

48. The installed capacity of our manufacturing facilities has not been fully utilized and could impair our ability to fully absorb fixed costs.

The installed capacity of our manufacturing facilities located at Vapi, Gujarat have not been fully utilized, over the last three financial years, and there is no assurance that there will be an increase in the capacity utilization in the future. If we are unable to fully utilize our installed capacity of our manufacturing facilities in the future this could affect our cost and profitability and thereby adversely affect the financial condition of our Company. For further details of our production and capacity utilization, please see the section titled “Our Business” on page 129.

49. Our manufacturing facilities in Vapi and Sarigam, Gujarat have been established on industrial land allotted to us by GIDC on a leasehold basis. Failure to comply with the conditions of use of such land could result in an adverse impact on our business and financial condition.

Our manufacturing facilities at Vapi and Sarigam have been established on industrial land allotted by GIDC for a period of 99 years lease. Under the terms of the lease deed entered between GIDC and our Company, we are required to comply with certain ongoing conditions, especially at the new manufacturing facility at Sarigam, including the requirement to (i) complete the construction of the factory building at Sarigam within a period of two years from the date of the lease deed, failing which the lease shall stand terminated, unless for sufficient cause GIDC allows further time to complete the construction; (ii) to utilize the balance land for expansion within a period of ten (10) years; (iii) not change use of the plot and (iv) obtain licenses and approvals; and (v) pay rates, taxes and charges. If we fail to meet any such conditions, we may be required to incur liability. Cancellation of the lease deed due to, among other things, non-compliance of the conditions of the lease deed and allotment letter could have an impact on our financial condition, which could adversely impact our results of operations and financial condition.

50. Our Company is dependent on third party transportation providers for the supply of raw materials and delivery of our products and any disruption in their operations or a decrease in the quality of their services could affect our Company's reputation and results of operations.

Our Company uses third party transportation providers for the supply of our raw materials and delivery of our products to our domestic customers. Though, our business has not experienced any disruptions due to transportation strikes in the past, any future transportation strikes may have an adverse effect on the supplies from our suppliers and deliveries

to our customers. These transportation facilities may not be adequate to support our existing and future operations. In addition, raw materials and products maybe lost or damaged in transit for various reasons including occurrence of accidents or natural disasters. There may also be delay in delivery of raw materials and products which may also affect our business and results of operation. An increase in the freight costs or unavailability of freight for transportation may have an adverse effect on our business and results of operations.

Further, disruptions of transportation services due to weather-related problems, strikes, lockouts, inadequacies in the road infrastructure and port facilities, or other events could impair the supply raw materials to our Units and our products to our customers. Any such disruptions could materially and adversely affect our business, financial condition and results of operations.

51. *We depend on our distribution network to sell our products to the farmers and our inability to manage our distribution partners could hamper our business, financial condition and our results of operations.*

We rely to a significant extent on the relationships we have with our third-party dealers, as they lay a significant role in enhancing customer awareness of our products and maintaining our brand names. As of August 31, 2020, we had more than 8,600 dealers in India. We may not be able to effectively manage our existing distribution network as we do not have any long-term contracts with any of our dealers. We are also exposed to the risk of our dealers failing to obtain requisite licenses and selling permissions or adhering to the standards in respect of sales and after-sales service in their direct contacts with customers, which in turn could adversely affect our customers' perception of our brands and products. In addition, although we provide certain incentive schemes to our dealers, we may not be able to effectively implement them across our network. If our competitors provide more favourable incentives, our dealers may be persuaded to decline to distribute our products and promote the products of our competitors instead and we may be unable to appoint a replacement in their place in a timely manner. In addition, any failure to provide our dealers with sufficient inventories of our products may lead to a reduction in the sales of our products. We seek to increase the penetration of our products by expanding our distributor network targeted at different customer groups and geographies. There can be no assurance that we will be able to successfully identify or appoint new dealers. Our competitors may have exclusive arrangements with certain dealers who may be unable to stock and distribute our products, which may limit our ability to expand our distribution network as we typically do not have exclusive arrangements with our dealers. If we are unable to effectively manage our distribution network, our business, financial condition and results of operations may be adversely affected.

52. *Our business and profitability will suffer if we fail to anticipate and develop new products and enhance existing products in order to keep pace with rapid changes in customer preferences and the industry on which we focus.*

The agrochemical business is characterized by constant product innovation in agrochemicals and evolving industry standards. Creativity is one of the key attributes for success in our industry. To compete successfully in the industry, we must be able to identify and respond to changing demands and preferences, as well as operate within substantial production and delivery constraints. Changes in product mix impacts our operating results and our margins. We cannot assure you that our products will always gain buyer acceptance and we will always be able to achieve internationally competitive products to meet customer expectations. Failure to identify and respond to changes in consumer preferences could, among other things, limit our ability to differentiate our products, adversely affect consumer acceptance of our products, and lower sales and gross margins. Further, products, that are developed by our competitors may render our offerings uncompetitive or force us to reduce prices, thereby adversely affecting our margins. Any of these factors could have a material adverse effect on our business and results of operations.

53. *There can be no assurance that we will in all instances be in full compliance with applicable regulations of the international markets where we export our products. Any failure to comply with applicable international regulations may adversely affect our export business, financial condition and results of operations.*

In FY 2020 we exported our products to more than sixty (60) countries in the world to various international markets which are governed by their respective laws in which the products are being exported. We undertake these exports mainly through our International Distribution Partners who also get our products registered with their respective regulatory authority. The name of our Company appears on the label of the package of the product as the “source” or “manufacturer” of these products meant for sale in a country. We are required to comply with the local packaging disclosure requirements for the direct export and sale of our Formulations. The manufacture and supply of Technicals is mostly based on demand and supply dynamics in the international markets.

Further, any dispute arising from any contractual arrangement to export products maybe typically subject to the exclusive jurisdiction of courts located in such countries, and it may be prohibitively expensive or otherwise

impracticable for us to pursue, enforce or effectively defend, any claims in legal proceedings initiated in such courts or other applicable judicial or regulatory forum in such international jurisdictions.

54. *The outbreak of Novel Coronavirus, or outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

In late calendar 2019, COVID-19, commonly known as “novel coronavirus” was first reported in Wuhan, China. Since then, the virus has progressively spread globally to many countries. The World Health Organization declared the COVID-19 outbreak as a health emergency of international concern on January 30, 2020 and thereafter categorised the outbreak as a pandemic on March 11, 2020. In order to contain the spread of COVID-19 virus, the Government of India initially announced a 21-day lockdown on March 24, 2020, which, after being subject to successive extensions, certain restrictions were relaxed from June 8, 2020 and continue to be relaxed till date in a phased manner by both the Central and State Governments. During the duration of the lockdown, there were several restrictions in place including travel restrictions and directive to all citizens to not move out of their respective houses unless essential. Whilst the lockdown required private, commercial and industrial establishments to remain closed, manufacturing units of essential commodities were permitted to be functional. Since manufacturing of agrochemicals was categorised as essential items, manufacturing at our manufacturing facilities at Vapi and Sarigam were shut down temporarily for some days in the beginning of the lockdown. During the initial stages of the lockdown we faced limited availability of labour, supply chain constraints and logistical problems, thereby causing our manufacturing facilities to operate at a sub-optimal capacity in the month of April, 2020. We also faced limitation on transportation of our products from our manufacturing facilities and the operation of our offices and branches were also adversely affected amidst the lockdown and public transport restrictions. Due to the rising number of infected cases of COVID-19 in the country, there is no certainty if additional restrictions will be put back in place or if another lockdown would be imposed to control the spread of the pandemic. We cannot assure you that we may not face any difficulty in our operations due to such restrictions and such prolonged instances of lockdown may adversely affect our business, financial condition and results of operations. Further, our ability to ensure the safety of our workforce and continuity of operations while confirming with measures implemented by the central and state governments in relation to the health and safety of our employees may result in increased costs. In the event a member or members of our senior management team contract COVID-19, it may potentially affect our operations. Further, in the event any of our employees contract COVID-19, we may be required to quarantine our employees and shut down a part of or the entire manufacturing facility or our offices and branches, as necessary. Risks arising on account of COVID-19 can also threaten the safe operation of our facility, offices, loss of life, injuries and impact the well-being of our employees.

The ultimate impact will depend on a number of factors, many of which are outside our control. These factors include the duration, severity and scope of the pandemic, the impact of the pandemic on economic activity in India and the world, the eventual level of infections in India or in the regions in which we operate, and the impact of any actions taken by governmental bodies or health organisations (whether mandatory or advisory) to combat the spread of the virus. These risks could have an adverse effect on our business, results of operations, cash flows and financial condition. As on the date of this Draft Red Herring Prospectus, while we have seen a higher demand of our Products, there is significant uncertainty on the impact of COVID-19 on the global and Indian economy and we may not be able to accurately predict its near term or long term impact on our business.

55. *We are subject to risks arising from foreign exchange rate movements. If we are unable to rightly anticipate foreign exchange movements and hedge our forex risks, our financial condition may get adversely affected due to forex losses.*

Our revenues from international sales for the Fiscal 2020, 2019 and 2018 was 4691.52 million, 4917.67 million and 3675.15 million representing 49.31%, 48.96% and 49.32% of our aggregate revenues, respectively. Our revenues are influenced by the currencies of those countries where we sell our products. The exchange rate between the Indian Rupee and foreign currencies, primarily the US\$, has fluctuated in the past and our results of operations have been impacted by such fluctuations in the past and may be impacted by such fluctuations in the future. For example, during times of strengthening of the Indian Rupee, we expect that our overseas sales and revenues will generally be negatively impacted as foreign currency received will be translated into fewer Indian Rupees. However, the converse positive effect of depreciation in the Indian Rupee may not be sustained or may not show an appreciable impact in our results of operations in any given financial period due to other variables impacting our business and results of operations during the same period. While we seek to pass on all losses on account of foreign currency fluctuations to our customers, our ability to foresee future foreign currency fluctuations is limited. As our exported products are priced in foreign currencies, the strengthening of these currencies against the Indian Rupee results in gains and the weakening of these currencies results in losses for our Company. Further, due to the time gap between the accounting of purchases and actual payments, the foreign exchange rate at which the purchase is recorded in the books of accounts may vary

with the foreign exchange rate at which the payment is made, thereby benefiting or affecting us negatively, depending on the appreciation or depreciation of the Rupee. We may, therefore, be exposed to risks arising from exchange rate fluctuations, may not be able to pass on all losses on account of foreign currency fluctuations to our customers, and suffer losses on account of foreign currency fluctuations. There is no guarantee that we may be able to manage our foreign currency risk effectively or mitigate exchange exposures, at all times and our inability may harm our results of operations and cause our results to fluctuate and/or decline. Further, while we seek to hedge our foreign currency exchange risk by entering into forward exchange contracts, any action that we may take and any amounts that we spend or invest in order to hedge the risks to our business due to fluctuations in currencies may not adequately hedge against any losses and we cannot assure you of the sufficiency of these procedures or whether the procedures we have in place will be successful in managing our foreign currency exposure. Please see “*Financial Statements*” on page 205.

- 56. *Our Company has recently incorporated a subsidiary in China to streamline the exports and imports in that country. Though we have not yet infused funds in this subsidiary, if we are unable to explore new opportunities in China and implement our China business objectives through this new subsidiary, it may affect our business prospects.***

Our Company has recently incorporated a subsidiary in China by the name Chang Zhou Heranba Crop Science and Technology Co. Ltd. to further promote our import and export operations through this subsidiary. We have not infused funds in this subsidiary and will take steps towards commencing operations through this subsidiary at an appropriate time.

- 57. *We are exposed to the risks of significant breaches of data security, and malfunctions or disruptions of information technology systems.***

We increasingly depend on information technology systems, in particular, an Microsoft Navision 2013 ERP and accounting system to that support our business processes, including product formulae, product development, sales, order processing, production, procurement, inventory management, quality control, product costing, human resources, distribution and finance. Although these technology initiatives are intended to increase productivity and operating efficiencies, they may not achieve such intended results. These systems may be potentially vulnerable to data security breaches, whether by employees or others, which may result in unauthorized persons getting access to sensitive data. Such data security breaches could lead to the loss of trade secrets or other intellectual property, and the data related to our product formulae, product development and other proprietary information could be compromised. These systems are also susceptible to outages due to fire, floods, power loss, telecommunications failures, natural disasters, computer viruses or malware, break-ins and similar events. Effective response to such disruptions or malfunctions will require effort and diligence on the part of our third-party distribution partners and employees to avoid any adverse effect to our information technology systems.

- 58. *Any adverse revision to our credit rating by rating agencies may adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such funding is available.***

We may experience a downgrade in our credit ratings. Any downgrade in our credit ratings by rating agencies, international or domestic, may increase our costs of accessing funds in the capital markets and adversely affect our ability to raise additional financing and the interest rates and other commercial terms at which such funding is available. This could have an adverse effect on our business and future financial performance, our ability to obtain financing for capital expenditures or other purposes and the trading price of the Equity Shares.

- 59. *This Draft Red Herring Prospectus contains information from the International Market Analysis Research and Consulting Group (IMARC) Report, appearing on IMARC’s website.***

This Draft Red Herring Prospectus includes information from the International Market Analysis Research and Consulting Group (IMARC) Report dated March 2020 appearing on its website. Neither we, nor the BRLMs, nor any other person connected with the Offer has verified the information in the IMARC Report. IMARC has advised that, while it has taken due care and caution in preparing its report based on public information and industry and statistical data information obtained from sources which it considers reliable, it does not guarantee the accuracy, adequacy or completeness of such information and is not liable for any loss or damage suffered because of reliance on the information contained in the report. The IMARC Report highlights certain industry and market data relating to us and our competitors. Such data is subject to many assumptions. Further, such assumptions may change based on various factors. There can be no assurance that IMARC’s assumptions are correct or will not change and accordingly our position in the market may differ from that presented in this Draft Red Herring Prospectus. Prospective investors are advised not to rely unduly on the IMARC Report when making their investment decisions.

60. Our Company has in the past entered into related party transactions with our Promoters and Promoter Group Entities and may continue to do so in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

Our Company has entered into related party transactions with our Promoters and Promoter Group Entities in the past. While our Company believes that all such transactions have been conducted on an arm's length basis and are accounted as per Accounting Standard 24, however there can be no assurance that we could not have achieved more favourable terms had such transactions not been entered into with related parties. Furthermore, it is likely that we may enter into related party transactions in the future. There can be no assurance that such transactions, individually or in the aggregate, will not have an adverse effect on our financial condition and results of operations.

For further details please refer to the section titled 'Related Party Transactions' beginning on page 203 of the Draft Red Herring Prospectus.

61. Our agreements with various financial institutions for financial arrangements contain restrictive covenants for certain activities and if we are unable to get their approval, it might restrict our scope of activities and impede our growth plans.

We have entered into agreements for short term and long-term borrowings with certain financial institutions. These agreements include restrictive covenants which mandate certain restrictions in terms of our business operations such as to obtain either the prior written consent of such financial institutions or require us to give prior written intimation to such lenders, prior to, amongst other circumstances, formulate any scheme of amalgamation with any other borrower or re-construction or acquire any borrower, declare dividend for any year except out of profit relating that year after making all due and necessary provisions provided that no default had occurred in any repayment obligation and permission of bank is obtained, assign, mortgage any of the fixed assets charged to banks, effect any change in constitution/ capital structure of our Company, undertake guarantee obligation on behalf of any other company, firm or person (including group companies), allow the net level of working capital to come down from the projected level, pay commission/ brokerage/ fees, etc to guarantor/ or any other person for guaranteeing the facilities sanctioned to our Company, any trading activity other than the sale of products arising out of its own manufacturing operations or permitted as per business model, create any further charge, lien or encumbrance over the assets and properties of our Company to be charged to our lenders, in favour of any other bank, financial institution, company or person and raise in future loan from other banks/ financial institutions/ leasing company. Our ability to execute business plans, including our ability to obtain additional financing on terms and conditions acceptable to us, could be negatively impacted as a result of these restrictions and limitations. In the event of breach of a restrictive covenant, our lenders could deem us to be in default and seek early repayment of loans. An event of default would also affect our ability to raise new funds or renew borrowings as needed for the smooth conduct of our operations and pursue our growth initiatives. Although we have received consents from our lenders for the Issue, we cannot assure you that we will be able to receive such consents in future for other growth plans.

For further details, please refer to the section 'Financial Indebtedness' beginning on page 285 of the Draft Red Herring Prospectus.

62. Our Promoters and Directors have provided personal guarantees for our loans and any failure or default by us to repay such loans in accordance with the terms and conditions of the financing documents could trigger repayment obligations, which may adversely affect our Promoters' ability to manage our affairs.

We have obtained loans in the ordinary course of business for the purposes of working capital and other business requirements. Our Promoters and Directors, Sadashiv K. Shetty, Raghuram K. Shetty, and our Directors Sujata S. Shetty, Raunak R. Shetty and Vanita R. Shetty have given personal guarantees in relation to certain of our loans. For details, see "Financial Indebtedness" on page 285. Our Promoters and Directors may continue to provide such guarantees and other security post listing. In case of a default under our loan agreements, any of the guarantees provided by our Promoters and Directors may be invoked, which could negatively impact the reputation and net worth of our Promoters and Directors. In addition, our Promoters and Directors may be required to liquidate their shareholding in our Company to settle the claims of the lenders, thereby diluting their shareholding in our Company. Furthermore, in the event that our Promoters withdraw or terminate their guarantees, our lenders for such facilities may ask for alternate guarantees, repayment of amounts outstanding under such facilities, or even terminate such facilities. We may not be successful in procuring guarantees satisfactory to the lenders, and as a result may need to repay outstanding amounts under such facilities or seek additional sources of capital, which could affect our financial

condition and cash flows. For further details in relation to the personal guarantees provided by our Selling Shareholders, see “*Our Promoters and Promoter Group*” on page 191.

- 63. *We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our growth and operations.***

We may require additional funds in connection with future business expansion and development initiatives. In addition to the net proceeds of this offering and our internal accruals, we may need other sources of funding to meet these requirements, which may include entering into new debt facilities with lending institutions. If we decide to raise additional funds through the issuance of debt, our interest obligations will increase, and we may be subject to additional covenants. Such financing could cause our debt to equity ratio to increase or require us to create charges or liens on our assets in favour of lenders. We cannot assure you that we will be able to secure adequate financing in the future on acceptable terms, in time, or at all. Our failure to obtain sufficient financing could result in delay or abandonment of our business plans and this may have an adverse effect on our future growth and operations.

- 64. *Our operations are subject to high working capital requirements. Our inability to obtain and / or maintain sufficient cash flow, credit facilities and other sources of funding in a timely manner to meet our requirements of working capital or payment of our debts, could adversely affect our operations.***

Our business requires significant amount of working capital. We require significant amount of our working capital for purchasing key raw materials which are sourced from domestic companies, local vendors and some of them are imported by our Company mainly from China. Further, our Formulations Products have a credit cycle of 90 to 120 days which form a part of our working capital requirements. Though, presently we have sanctioned working capital limits from the existing bankers and one of the Objects of the Issue is to meet our future working capital requirements, we may need additional debt in the future to satisfy our working capital needs. All these factors may result in increase in the quantum of our current assets and short-term borrowings. Our inability to obtain and / or maintain sufficient cash flow, credit facilities and other sources of funding, in a timely manner, to meet our working capital requirements, could adversely affect our financial condition and results of operations.

- 65. *Our Promoters, certain of our Directors and Key Managerial Personnel have interests in us other than reimbursement of expenses incurred and normal remuneration or benefits.***

Our Promoters, Directors and Key Managerial Personnel may be deemed to be interested to the extent of Equity Shares held by them and by members of our Promoter Group, as well as to the extent of any dividends, bonuses or other distributions on such Equity Shares. As of the date of this Draft Red Herring Prospectus, our Promoters and certain members of our Promoter Group hold majority of the issued, subscribed and paid-up Equity Share capital of our Company. Upon completion of the Offer, our Promoters and certain members of the Promoter Group together will continue to exercise significant control over us, which will enable them to vote together in capacity as shareholders of our Company on certain matters in general meetings of our Company. Accordingly, the interests of our Promoters and certain members of the Promoter Group in their capacity as shareholders of our Company may conflict with your interests and the interests of other shareholders of the Company. For further details, see “*Capital Structure*”, “*Promoter and Promoter Group*” and “*Our Management*” on pages 67, 191 and 172 respectively.

- 66. *We have not been able to obtain certain records of the educational qualifications and work experience of some Directors and have relied on declarations, undertakings and affidavits furnished by them.***

We have not been able to obtain certain old records of the educational qualifications and work experience of the following Directors (i) Promoter and Director, Raghuram. K. Shetty - Bachelor's degree in Economics; (ii) Independent Director, Mulky V. Shetty - Bachelor's degree in Science (physics and chemistry); (iii) Independent Director, Ganesh N. Vanmali - Bachelor's degree in Law and work experience in banking industry; and (iv) Promoter and Director, Sadashiv. K. Shetty - work experience with Sudarshan Chemical Limited, Gharda Chemical Limited, Hoechst Pharmaceuticals and Nirlon Limited. We have relied on the declarations, undertakings and affidavits furnished by them for the above. For further details, please see “*Our Management*” on page 172.

- 67. *Our Promoter and Promoter Group will continue to retain significant control in our Company after the Issue, which will allow them to influence the outcome of matters submitted to shareholders for approval. Such a concentration of ownership may also have the effect of delaying, preventing or deterring a change in control.***

After the completion of this Issue, our Promoters and Promoter Group will continue to hold 2,96,71,530 of the paid-up Equity Share capital of our Company. As a result, our Promoters and Promoter Group will continue to exercise significant control over us, including being able to control the composition of our Board of Directors and determine decisions requiring simple or special majority voting, and our other shareholders will be unable to affect the outcome of such voting. Our Promoters and Promoter Group may take or block actions with respect to our business, which may conflict with our interests or the interests of our minority shareholders, such as actions which delay, defer or cause a change of our control or a change in our capital structure, merger, consolidation, takeover or other business combination involving us, or which discourage or encourage a potential acquirer from making a tender offer or otherwise attempting to obtain control of us. We cannot assure you that our Promoter and Promoter Group will act in our interest while exercising their rights in such entities, which may in turn materially and adversely affect our business and results of operations. We cannot assure you that our Promoters and Promoter Group will act to resolve any conflicts of interest in our favour. If our Promoters and Promoter Group sells a substantial number of the Equity Shares in the public market, or if there is a perception that such sale or distribution could occur, the market price of the Equity Shares could be adversely affected. No assurance can be given that such Equity Shares that are held by the Promoter will not be sold any time after the Issue, which could cause the price of the Equity Shares to decline.

68. Our Group Companies have incurred losses in the past, which may have an adverse effect on our reputation and business.

The following companies, being our Group Companies, incurred a loss after tax as detailed below. For further details, see “Our Group Companies” on page 195.

(₹ in million)

Name of Group Entity	Profit / (loss)		
	2019	2018	2017
SAMS Industries Limited	1.26	1.71	(0.55)
Heranba Agro Science Limited	(0.01)	(0.87)	(0.87)
Shakti Bio Science Limited	(14.38)	(28.77)	(188.01)
Insunt Trading Private Limited	(0.03)	NA	NA

69. Increasing employee compensation in India may reduce our Company’s profit margins.

Increase in compensation levels in India may negatively affect our profit margins. Employee compensation in India is currently increasing which could result in increased costs of production. Our Company may need to continue to increase levels of employee compensation to manage attrition. Any increases in the amount of compensation paid to our Company’s employees could have a significant effect on our costs, which may affect our position in our industry and have a material adverse effect on our business and financial operations.

70. Our ability to pay dividends in the future will depend upon future earnings, financial condition, cash flows, working capital requirements and capital expenditures and are also prohibited by the terms of our financing arrangements.

Our Company has a track record of paying dividends since last ten (10) financial years. The amount of our future dividend payments, if any, will depend upon factors that our Board deems relevant, including among others, our results of future earnings, financial condition, cash flows, working capital requirements, capital expenditures, applicable Indian legal restrictions and other factors. There can be no assurance that our Company will be able to pay dividends.

71. Our insurance cover may not adequately protect us against all material hazards. We may face significant financial and operational losses if we are not able to recover our insurance claims in the event of any such untoward material hazard.

Our operations are subject to accidents which are inherent to any manufacturing process such as risks of equipment failure, worker accidents, fire, earthquakes, flood and other force majeure events, acts of terrorism and explosions including accidents that may cause injury and loss of life, severe damage to and the destruction of property and equipment and environment. We may also be subject to product liability claims if the products that we manufacture are not in compliance with regulatory standards and the terms of our contractual arrangements. Our principal types of coverage include specific policies for manufacturing, storage of our products at various locations, transportation and such others. Our insurance policies include multi buyer pressure policy, marine cargo open policies, standard fire and special perils policies, boiler and pressure plant insurance policy, fire floater policy, burglary floater insurance policy public liability industrial risk policy and certain vehicle insurance policies. However, our insurance policies may not be sufficient to cover the economic loss that we may have to suffer due to an unfortunate incident. To the extent that we suffer loss or damage for events for which we are not insured or for which our insurance is inadequate, the loss

would have to be borne by us, and as a result, our results of operations and financial condition could be adversely affected.

72. *Any changes in regulations or applicable government incentives would materially adversely affect our Company's operations and growth prospects.*

Our Company is subject to regulations in India. Our Company's business and prospects could be adversely affected by changes in any of these regulations and policies, or if any or all of the incentives currently available cease to be, including the introduction of new laws, policies or regulations or changes in the interpretation or application of existing laws, policies and regulations. There can be no assurance that our Company will succeed in obtaining all requisite approvals in the future for its operations or that compliance issues will not be raised in respect of its operations, either of which would have a material adverse effect on our Company's operations and financial results. For further details, please refer to the chapter titled 'Key Industry Regulations and Policies in India' beginning on page 160 of the Draft Red Herring Prospectus.

73. *Any of our violation of the Metrology Act and the Metrology Rules may lead to fines and penalties, or seizure and forfeiture of our products which could adversely affect our business.*

Some of our products and the packaging of our products are required to comply with the standards of weight, measurement and numbers prescribed under the Metrology Act and the Metrology Rules. For details, see "Key Industrial Regulations and Policies in India" on page 160. If we fail to comply with such standards, or fail to obtain a license from the respective controller as mandated under the Metrology Act, or fail to obtain the verification of weights and measures by the government approved test centers under the Metrology Act, fines and penalties may be imposed on us. In addition, there could be seizure and forfeiture of our products, which could adversely affect our operations.

74. *In the event of abnormal / exceptional circumstances, our Company may experience significant or material losses on account of bad debts, which would have a material adverse impact on our business, results of operations and financial condition.*

Normally, we deliver a significant portion of our products against future payment. Though, we had no bad debts written off for the Fiscal 2020 and Fiscal 2019. However, in the Fiscal 2018 we did write off ₹102.29 Million as bad debts. In the event of certain abnormal / exceptional circumstances in the future, there may be significant or material losses on account of bad debts, which would have a material adverse impact on our business, results of operations and financial condition.

75. *The Objects of the Issue for which funds are being raised have not been appraised by any bank or financial institution. The deployment of funds is entirely at the discretion of our management and as per the details mentioned in the section titled "Objects of the Issue". Any revision in the estimates may require us to reschedule our expenditure and may have a bearing on our expected revenues and earnings.*

Our funding requirements and the deployment of the proceeds of the Issue are purely based on our management's estimates and have not been appraised by any bank or financial institution. Our Company may have to revise such estimates from time to time and consequently our funding requirements may also change. Our estimates may exceed the value that would have been determined by third party appraisals and may require us to reschedule our expenditure which may have a bearing on our expected revenues and earnings. Further, the deployment of the funds towards the Objects of the Issue is entirely at the discretion of our management. However, our Board will monitor the utilisation of the Net Proceeds through its Audit Committee and our Company will disclose the utilisation of Net Proceeds under separate head in our balance sheet along with relevant details for all sum amounts that have not been utilized. Our Company will issue a disclosure to the Stock Exchanges, on a quarterly basis, deviations, if any, in the Use of Proceeds of the Issue from the Objects stated in the Draft Red Herring Prospectus or by way of an explanatory statement to the notice for a general meeting.

76. *We may not be able to avail funding from banks or financial institution for our future working capital requirements. The failure to obtain such financing may adversely affect our ability to grow and our future profitability.*

Our working capital requirement for FY 2020-21 estimated at ₹3,093 million. Further, an amount of ₹500 million towards working capital requirement will be funded out of the Issue Proceeds, whereas the balance, if any, would be arranged from our internal accruals and/or loan funds. Our Company cannot assure you that we will be able to raise such financing on acceptable terms in a timely manner or at all. Our failure to renew existing funding or to obtain financing on acceptable terms and in a timely manner could materially and adversely impact our planned capital

expenditure, which, in turn, could materially and adversely affect our business, financial condition and results of operations.

77. *Unsecured loans of ₹0.07 Million taken by our Company from Directors can be recalled at any time.*

The unsecured loans of ₹ 0.07 million taken by our Company from Promoter and Director, Raghuram K. Shetty and Director, Sujata S. Shetty may be recalled by the lenders at any time. Any failure to service such indebtedness, or otherwise perform any obligations under such financing arrangement may incur penalties and acceleration of payments, which may affect our Company.

EXTERNAL RISK

78. *Pyrethroids and Insecticides are known to cause health hazards in humans.*

People are most frequently exposed to pyrethroids by ingesting contaminated food or water. Unfortunately, pesticide residues are not completely removed from fruits and vegetables by dipping them in water. Dust from the majority of homes contains measurable levels of pyrethroids or other ingredients added to pyrethroid-based insecticides. Pyrethroids can be absorbed through the skin during the application or upon contact with treated surfaces as pyrethroids are fat-soluble. Fine droplets of suspended dust particles in the air can also be inhaled, mainly when pyrethroids are used in confined spaces. Workers in the pesticide industry, exterminators and farmers can be exposed to pyrethroids through inhalation and absorption through their skins.

Both pyrethroids and insecticides, which are used to control pests, are known to cause health hazards in humans. For instance, they can trigger asthma attacks in individuals with sensitive lungs, which may prove fatal in certain cases. Toxicity evidence from laboratory animal studies and human epidemiological studies indicates that pyrethroids are developmental neurotoxins that may also adversely affect behavior, fertility and hormonal balance in human beings.

79. *A slowdown in economic growth in India could adversely affect our business.*

The structure of the Indian economy has undergone considerable changes in the last decade. These include increasing importance of external trade and of external capital flows. Any slowdown in the growth of the Indian economy or the agrochemical business or agricultural sectors or any future volatility in global commodity prices could adversely affect our business, financial condition and results of operations. India's economy could be adversely affected by a general rise in interest rates, fluctuations in currency exchange rates, adverse conditions affecting agriculture, commodity and electricity prices or various other factors. Further, conditions outside India, such as slowdowns in the economic growth of other countries, could have an impact on the growth of the Indian economy and government policy may change in response to such conditions. The Indian economy and financial markets are also significantly influenced by worldwide economic, financial and market conditions. Any financial turmoil, especially in the United States, Europe or China or Asian emerging market countries, may have an impact on the Indian economy. Although economic conditions differ in each country, investors' reactions to any significant developments in one country can have adverse effects on the financial and market conditions in other countries. A loss of investor confidence in the financial systems, particularly in other emerging markets, may cause increased volatility in Indian financial markets, and could have an adverse effect on our business, financial condition and results of operations and the price of the Equity Shares.

80. *The occurrence of natural or man-made disasters could adversely affect our results of operations, cash flows and financial condition. Hostilities, terrorist attacks, civil unrest and other acts of violence could adversely affect the financial markets and our business.*

The occurrence of natural disasters, including cyclones, storms, floods, earthquakes, tsunamis, tornadoes, fires, explosions, pandemic disease and man-made disasters, including acts of terrorism and military actions, could adversely affect our results of operations, cash flows or financial condition. Terrorist attacks and other acts of violence or war may adversely affect the Indian securities markets. In addition, any deterioration in international relations, especially between India and its neighbouring countries, may result in investor concern regarding regional stability which could adversely affect the price of the Equity Shares. In addition, India has witnessed local civil disturbances in recent years and it is possible that future civil unrest as well as other adverse social, economic or political events in India could have an adverse effect on our business. Such incidents could also create a greater perception that investment in Indian companies involves a higher degree of risk and could have an adverse effect on our business and the market price of the Equity Shares.

81. *Changing laws, rules and regulations and legal uncertainties, including adverse application of tax laws, in the jurisdictions in which we operate may adversely affect our business and results of operations.*

Our business is subject to various laws and regulations, which are evolving and subject to change. For details, see “Key Industrial Regulations and Policies in India” on page 160. We are also subject to corporate, taxation and other laws in effect in India, which require continued monitoring and compliance. These laws and regulations and the way in which they are implemented and enforced may change. There can be no assurance that future legislative or regulatory changes will not have any adverse effect on our business, results of operations, cash flows and financial condition.

82. *Significant differences exist between Ind AS and other accounting principles, such as IFRS and US GAAP, which may be material to investors’ assessments of our financial condition, result of operations and cash flows.*

Our financial statements for the Fiscals 2019 and 2018 included in this Draft Red Herring Prospectus are prepared and presented in conformity with Ind AS, in each case restated in accordance with the requirements the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectuses (Revised 2016)” issued by the ICAI. Ind AS differs from other accounting principles with which prospective investors may be familiar in other countries, such as IFRS and U.S. GAAP. As a result, the financial statements prepared under Ind AS for the period Fiscals 2020, 2019 and 2018 may not be comparable to our historical financial statements. Accordingly, the degree to which the Financial Statements included in this Draft Red Herring Prospectus will provide meaningful information is entirely dependent on the reader’s level of familiarity with Indian accounting practices. Persons not familiar with Indian accounting practices should limit their reliance on the financial disclosures presented in this Draft Red Herring Prospectus.

83. *We may be affected by competition law in India and any adverse application or interpretation of the Competition Act could adversely affect our business.*

The Competition Act regulates practices that have or are likely to have an appreciable adverse effect on competition in the relevant market in India and provides for the establishment of CCI as the nodal authority for monitoring, enforcement and implementation of competition law in India. The Competition Act seeks to regulate anti-competitive agreements, abuse of dominance and combinations and came into effect in a phased manner with provisions relating to anti-competitive agreements and abuse of dominance on May 20, 2009 and merger control provisions on June 1, 2011. Under the Competition Act, arrangements, understandings or actions in concert, whether formal or informal, which cause or are likely to cause an appreciable adverse effect on competition are considered void and attract substantial penalties. Any agreement among competitors which, directly or indirectly, involves the determination of purchase or sale prices, limits or controls production, supply, markets, technical development, investment or provision of services, shares the market or source of production or provision of services by way of allocation of geographical area of market, or type of goods or services or number of customers in the market or, directly or indirectly, results in bid-rigging or collusive bidding, is presumed to have an appreciable adverse effect on competition. The Competition Act prohibits abuse of a dominant position by an enterprise or a group. In relation to merger control, an acquisition of shares, assets, voting rights or control of one or more enterprises or merger or amalgamation of enterprises, where certain prescribed assets or turnover thresholds are crossed, will need to comply with the merger control provisions contained under the Competition Act and the Competition Commission of India (Procedure in regard to the transaction of business relating to combinations) Regulations, 2011 and will require prior notification to, and approval of, the CCI. The CCI has extra-territorial powers and can investigate any agreements, abusive conduct or combination taking place outside India if such agreement, conduct or combination has or is likely to have an appreciable adverse effect on competition in India. However, there can be no assurance as to the impact of the provisions of the Competition Act on the agreements that we have entered or will enter into. We are not subject to any outstanding proceedings, nor have we received any notice from the CCI in relation to non-compliance with the provisions of the Competition Act or the agreements we have entered into. However, if we are affected, directly or indirectly, by the application or interpretation of any provision of the Competition Act, or any enforcement proceedings initiated by the CCI, or any adverse publicity that may be generated due to scrutiny or prosecution by the CCI or if any prohibition or substantial penalties are levied under the Competition Act, it could have an adverse effect on our business, prospects, financial condition and results of operations.

84. *COVID-19 or the outbreak of any other severe communicable disease could have a potential impact on our business, financial condition and results of operations.*

COVID-19 or the outbreak of any other severe communicable disease could adversely affect the overall business sentiment and environment, particularly if such outbreak is inadequately controlled. The spread of any severe communicable disease may also adversely affect the operations of our customers and suppliers, which could adversely

affect our business, financial condition and results of operations. The outbreak of COVID-19 has resulted in authorities implementing several measures such as travel bans and restrictions, quarantines and shutdowns. These measures have impacted and may further impact our workforce and operations, the operations of our customers, and those of our respective vendors and suppliers. There is currently substantial medical uncertainty regarding COVID-19 and no government-certified treatment or vaccine is available yet. A rapid increase in severe cases of infections and subsequent deaths where measures taken by governments fail or are lifted prematurely, may cause significant economic disruption in India and in the rest of the world. The scope, duration and frequency of such measures and the adverse effects of COVID-19 remain uncertain and could be severe. Our ability to meet our ongoing disclosure obligations might be adversely affected, despite our best efforts. If any of our employees were suspected of contracting COVID-19 or any other epidemic disease, this could require us to quarantine some or all of these employees or disinfect the facilities used for our operations. In addition, our revenue and profitability could be impacted to the extent that a natural disaster, health epidemic or other outbreak harms the Indian and global economy in general. The outbreak has significantly increased economic uncertainty. It is likely that the current outbreak or continued spread of COVID-19 will cause an economic slowdown and it is possible that it could cause a global recession. The spread of COVID-19 has caused us to modify our business practices (including employee travel, employee work locations, and cancellation of physical participation in meetings, events and conferences), and we may take further actions as may be required by government authorities or steps on what we believe would be in the best interests of our employees, customers, partners, and suppliers. There is no certainty that such measures will be sufficient to mitigate the risks posed by the outbreak, and our ability to perform critical functions could be harmed. The extent to which the COVID-19 further impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including new information which may emerge concerning the severity of COVID-19 and the actions taken globally to contain COVID-19 or treat its impact, among others. Existing insurance coverage may not provide protection for all costs that may arise from all such possible events. We are still assessing our business operations and system supports and the impact COVID-19 may have on our results and financial condition, but there can be no assurance that this analysis will enable us to avoid part or all of any impact from the spread of COVID-19 or its consequences, including downturns in business sentiment generally or in our sector in particular. The degree to which COVID-19 impacts our results will depend on future developments, which are highly uncertain and cannot be predicted, including, but not limited to, the duration and spread of the outbreak, its severity, the actions taken to contain the outbreak or treat its impact, and how quickly and to what extent normal economic and operating conditions can resume. The above risks can threaten the safe operation of our facilities and cause disruption of operational activities, environmental harm, loss of life, injuries and impact the wellbeing of our people. Further, muted economic growth could give rise to a recessionary economic scenario, in India and globally, which could adversely affect the business, prospects, results of operations and financial condition of our Company.

RISKS RELATING TO THE EQUITY SHARES AND THE OFFER

85. Investors bear the risk of fluctuations in the price of Equity Shares and there can be no assurance that a liquid market for our Equity Shares will develop following the listing of our Equity Shares on the Stock Exchanges.

There has been no public market for our Equity Shares prior to the Offer. The purchase price of our Equity Shares in the Offer will be determined by our Company and the Selling Shareholder, in consultation with the BRLM, pursuant to the Book Building Process. This price will be based on numerous factors, as described under in “*Basis for Offer Price*” on page 87. This price may not necessarily be indicative of the market price of our Equity Shares after the Offer is completed. You may not be able to re-sell your Equity Shares at or above the Offer price and may as a result lose all or part of your investment.

Our Equity Shares are expected to trade on NSE and BSE after the Offer, but there can be no assurance that active trading in our Equity Shares will develop after the Offer, or if such trading develops that it will continue. Investors may not be able to sell our Equity Shares at the quoted price if there is no active trading in our Equity Shares.

The price at which our Equity Shares will trade at after the Offer will be determined by the marketplace and may be influenced by many factors, including:

- Our financial condition, results of operations and cash flows
- The history and prospects for our business
- An assessment of our management, our past and present operations and the prospects for as well as timing of our future revenues and cost structures
- The valuation of publicly traded companies that are engaged in business activities similar to ours
- quarterly variations in our results of operations
- results of operations that vary from the expectations of securities analysts and investors

- results of operations that vary from those of our competitors
- changes in expectations as to our future financial performance, including financial estimates by research analysts and investors
- a change in research analysts' recommendations
- announcements by us or our competitors of significant acquisitions, strategic alliances, joint operations or capital commitments
- announcements of significant claims or proceedings against us
- new laws and government regulations that directly or indirectly affecting our business
- additions or departures of Key Management Personnel
- changes in the interest rates
- fluctuations in stock market prices and volume
- general economic conditions

The Indian stock markets have, from time to time, experienced significant price and volume fluctuations that have affected market prices for the securities of Indian companies. As a result, investors in our Equity Shares may experience a decrease in the value of our Equity Shares regardless of our financial performance or prospects.

86. *Our Company will not receive any proceeds from the Offer for Sale portion.*

This Offer includes an offer for sale of up to 90,15,000 Equity Shares aggregating up to ₹ [●] million by Selling Shareholders. The proceeds from the Offer for Sale will be paid to the Selling shareholders and our Company will not receive any such proceeds. See “*Objects of the Offer*” on page 81.

87. *Any future issuance of Equity Shares by us or sales of Equity Shares by the Promoters could adversely affect the trading price of our Equity Shares and in the case of the issuance of Equity Shares by us result in the dilution of our then current shareholders.*

As disclosed in “*Capital Structure*” on page 67, an aggregate of 20% of our fully diluted post-Offer capital held by our Promoters shall be considered as minimum Promoters' Contribution and locked in for a period of three years and the balance Equity Shares held by the Promoters following the Offer (assuming all of the Offered Shares are sold in the Offer) will be locked-in for one year from the date of Allotment. Except for the customary lock-in on our ability to issue equity or equity-linked securities discussed in “*Capital Structure*” on page 67, there is no restriction on our ability to issue Equity Shares. As such, there can be no assurance that our Company will not issue additional Equity Shares after the lock-in period expires or that the Promoters will not sell, pledge or encumber their Equity Shares after the lock-in periods expire. Future issuances of Equity Shares or convertible securities and the sale of the underlying Equity Shares could dilute the holdings of our Shareholders and adversely affect the trading price of our Equity Shares. Such securities may also be issued at prices below the then trading price of our Equity Shares or the Offer Price. Sales of Equity Shares by the Promoters could also adversely affect the trading price of our Equity Shares.

88. *You will not be able to immediately sell any of the Equity Shares you purchase in this Issue on the Stock Exchanges.*

Under the SEBI ICDR Regulations, we are permitted to allot Equity Shares within four (4) Working Days of the Bid/Issue Closing Date. Consequently, the Equity Shares you purchase in the Issue may not be credited to your book or dematerialized account with the Depository Participants until fifth (5) Working Days after the Bid/Issue Closing Date. You can start trading in the Equity Shares only after they have been credited to your dematerialized account and listing and trading permissions are received from the Stock Exchanges.

89. *You may be subject to Indian taxes arising out of capital gains on the sale of our Equity Shares.*

Previously, any gain realized on the sale of listed equity shares on or before March 31, 2018 on a stock exchange held for more than 12 months was not subject to long term capital gains tax in India if Securities Transaction Tax (“STT”) was paid on the sale transaction and additionally, as stipulated by the Finance Act, 2017, STT had been paid at the time of acquisition of such equity shares on or after October 1, 2004, except in the case of such acquisitions of Equity Shares which are not subject to STT, as notified by the Central Government under notification no. 43/2017/F. No. 370142/09/2017-TPL on June 5, 2017. However, the Finance Act, 2018, now seeks to tax on such long-term capital gains exceeding ₹ 100,000 arising from sale of equity shares on or after April 1, 2018, while continuing to exempt the unrealised capital gains earned up to January 31, 2018 on such Equity Shares. Accordingly, you may be subject to payment of long-term capital gains tax in India, in addition to payment of STT, on the sale of any Equity Shares held

for more than 12 months. STT will be levied on and collected by a domestic stock exchange on which the Equity Shares are sold.

Further, any gain realized on the sale of listed equity shares held for a period of 12 months or less will be subject to short-term capital gains tax in India. Capital gains arising from the sale of the Equity Shares will be exempt from taxation in India in cases where the exemption from taxation in India is provided under a treaty between India and the country of which the seller is resident. Generally, Indian tax treaties do not limit India's ability to impose tax on capital gains. As a result, residents of other countries may be liable for tax in India as well as in their own jurisdiction on a gain upon the sale of the Equity Shares.

90. QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid.

Pursuant to the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not permitted to withdraw or lower their Bids (in terms of quantity of Equity Shares or the Bid Amount) at any stage after submitting a Bid. Retail Individual Bidders can revise their Bids during the Bid/Offer Period and withdraw their Bids until Bid/Offer Closing Date. While we are required to complete Allotment, listing and commencement of trading pursuant to the Offer within six (6) Working Days from the Bid/ Offer Closing Date, events affecting the Bidders' decision to invest in our Equity Shares, including adverse changes in international or national monetary policy, financial, political or economic conditions, our business, results of operations, cash flows and financial condition may arise between the date of submission of the Bid and Allotment, listing and commencement of trading. We may complete the Allotment, listing and commencement of trading of our Equity Shares even if such events occur and such events may limit the Bidders' ability to sell our Equity Shares Allotted pursuant to the Offer or may cause the trading price of our Equity Shares to decline on listing.

91. Foreign investors are subject to foreign investment restrictions under Indian laws which limit our ability to attract foreign investors, which may adversely affect the market price of the Equity Shares.

Under the foreign exchange regulations currently in force in India, transfers of shares between non-residents and residents are freely permitted (subject to certain restrictions) if they comply with the pricing guidelines and reporting requirements specified by the RBI. If the transfer of Equity Shares, which are sought to be transferred, is not in compliance with such pricing guidelines or reporting requirements or falls under any of the exceptions, then the prior approval of the RBI will be required. Additionally, shareholders who seek to convert the Rupee proceeds from a sale of the Equity Shares in India into foreign currency and repatriate that foreign currency from India will require a no objection/tax clearance certificate from the income tax authority. We cannot assure investors that any required approval from the RBI or any other Indian government agency can be obtained on any particular terms, or at all.

92. We cannot assure payment of dividends on the Equity Shares in the future.

The amount of future dividend payments by us, if any, will depend on several factors, including but not limited to our earnings, capital requirements, contractual obligations, applicable legal restrictions and overall financial position. We may decide to retain all our earnings to finance the development and expansion of our business and therefore, we may choose not to declare dividends on the Equity Shares. For details, see "Dividend Policy" on page 204.

For more details, see “*Capital Structure*” on page 67.

- 3) In the event of over-subscription, Allocation to all categories, except the Anchor Investor Portion, if any, shall be made on a proportionate basis, subject to valid Bids received at or above the Offer Price;
- 4) Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in any category except the QIB Portion, would be allowed to be met with spill over from any other category or combination of categories at the discretion of our Company and Selling Shareholders, in consultation with the BRLMs and the Designated Stock Exchange, subject to applicable laws. In the event of under-subscription in the Offer, the Equity Shares will be Allotted in the following order: (i) such number of Equity Shares will first be Allotted by the Company such that 90% of the Fresh Issue portion is subscribed; (ii) next, all the Equity Shares held by the Selling Shareholders and offered for sale in the Offer for Sale will be Allotted; and (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by the Company that the balance 10% of the Fresh Issue portion is also subscribed. For further details, including in relation to grounds for rejection of Bids, see “*Offer Procedure*” on page 320.
- 5) Our Company and Selling Shareholder in consultation with the BRLMs may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with SEBI ICDR Regulation. The QIB Portion will accordingly be reduced from the Equity Shares allocated to Anchor Investors. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the QIB Portion. 5% of the QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15.00% of the Net Offer will be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35.00% of the Net Offer will be available for allocation to Retail Individual Investors, in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids.

Allocation to all categories, except the Anchor Investor Portion and the Retail Portion, if any, shall be made on a proportionate basis, subject to valid Bids received at or above the Offer Price. The allocation to each Retail Individual Bidder shall not be less than the minimum Bid Lot, subject to availability of Equity Shares in Retail Portion, and the remaining available Equity Shares, if any, shall be Allocated on a proportionate basis. For further details, refer “*Offer Procedure*” on page 320. Further, for details in relation to the terms of the Offer, see “*Terms of the Offer*” on page 311. For details, including in relation to grounds for rejection of Bids, refer to “*Offer Structure*” and “*Offer Procedure*” on pages 317 and 320, respectively.

Book Building Process

Book building, with reference to the Offer, refers to the process of collection of Bids on the basis of the Red Herring Prospectus, the Bid-cum-Application Forms and the Revision Forms. The Price Band and minimum bid lot size shall be determined by our Company and the Selling shareholders in consultation with the BRLMs in accordance with the Book Building Process, which would be and advertised in all editions of [●], all editions of [●] and Gujarat edition of [●] which are widely circulated English, Hindi and Gujarati daily newspapers respectively (Gujarati being the regional language of Gujarat where our Registered Office is located), at least two Working Days prior to the Bid/Offer Opening Date, in accordance with SEBI ICDR Regulations, and shall be made available to the Stock Exchanges for the purpose of uploading on their respective websites. The Offer Price shall be determined by our Company and the Selling Shareholders, in consultation with the BRLMs after the Bid/ Offer Closing Date.

The principal parties involved in the Book Building Process are:

- Our Company;
- the Selling Shareholders;
- the BRLMs;
- the Syndicate Member(s);
- the Registrar to the Offer;
- the Escrow Collection Banks;
- the SCSBs;

- the CDPs;
- the RTAs; and
- the Registered Brokers.

All Bidders, except Anchor Investors, are mandatorily required to use the ASBA process for participating in the Offer by providing details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by SCSBs. In addition to this, the RIBs may participate through the ASBA process by either (a) providing the details of their respective ASBA Account in which the corresponding Bid Amount will be blocked by the SCSBs; or (b) through the UPI Mechanism. Anchor Investors are not permitted to participate in the Offer through the ASBA process.

In accordance with the SEBI ICDR Regulations, QIBs and Non-Institutional Bidders are not allowed to withdraw or lower the size of their Bids (in terms of the quantity of the Equity Shares or the Bid Amount) at any stage. Retail Individual Bidders can revise their Bids during the Bid/ Offer Period and withdraw their Bids on or before the Bid/ Offer Closing Date. Further, Anchor Investors cannot withdraw their Bids after the Anchor Investor Bid/ Offer Period. Allocation to the Anchor Investors will be on a discretionary basis.

Our Company will comply with the SEBI ICDR Regulations and any other directions issued by SEBI in relation to this Offer. In this regard, our Company along with the Selling Shareholders have appointed the BRLMs to manage this Offer and procure Bids for this Offer. For details, see “Terms of the Offer” and “Offer Procedure” on pages 311 and 320, respectively.

The process of book building under the SEBI ICDR Regulations is subject to change from time to time and the investors are advised to make their own judgment about investment through this process prior to submitting a Bid or application in the Offer.

Notwithstanding the foregoing, the Offer is also subject to obtaining (i) final approval of the RoC after the Prospectus is filed with the RoC; and (ii) final listing and trading approvals from the Stock Exchanges, which our Company shall apply for after Allotment.

Each Bidder, by submitting a Bid in the Offer, will be deemed to have acknowledged the above restrictions and the terms of the Offer.

[●]	[●]	[●]
Total	[●]	[●]

The abovementioned underwriting commitments are indicative and will be finalised after pricing of the Offer, the Basis of Allotment and actual allocation in accordance with provisions of the SEBI ICDR Regulations.

In the opinion of our Board (based on representations made to our Company by the Underwriters), the resources of the Underwriters are sufficient to enable them to discharge their respective underwriting obligations in full. The abovementioned Underwriters are registered with SEBI under Section 12(1) of the SEBI Act or registered as brokers with the Stock Exchange(s). Our Board/ IPO Committee, at its meeting held on [●], has accepted and entered into the Underwriting Agreement mentioned above on behalf of our Company.

Allocation among the Underwriters may not necessarily be in proportion to their underwriting commitment set forth in the table above.

Notwithstanding the above table, the Underwriters shall be severally responsible for ensuring payment with respect to the Equity Shares allocated to Bidders procured by them. In the event of any default in payment, the respective Underwriter, in addition to other obligations defined in the Underwriting Agreement, will also be required to procure subscribers for or subscribe to the Equity Shares to the extent of the defaulted amount in accordance with the Underwriting Agreement. The Underwriting Agreement has not been executed as on the date of this Draft Red Herring Prospectus and will be executed after the determination of the Offer Price and allocation of Equity Shares, but prior to the filing of the Prospectus with the RoC.

The extent of underwriting obligations and the Bids to be underwritten in the Offer shall be as per the Underwriting Agreement

13. There will be no further issue of capital, whether by way of issue of bonus shares, preferential allotment, rights issue or in any other manner during the period commencing from the date of this Draft Red Herring Prospectus until the Equity Shares have been listed. Further, our Company presently does not have any intention or proposal to alter our capital structure for a period of six months from the date of opening of this Offer, by way of split / consolidation of the denomination of Equity Shares or further issue of Equity Shares (including issue of securities convertible into exchangeable, directly or indirectly, for our Equity Shares) whether preferential or otherwise, except that if we enter into acquisition(s) or joint venture(s), we may consider additional capital to fund such activities or to use Equity Shares as a currency for acquisition or participation in such joint ventures.
14. There have been no financial arrangements whereby our Promoters, members of our Promoter Group, our Directors and their relatives have financed the purchase by any other person of securities of our Company, during a period of six months preceding the date of this Draft Red Herring Prospectus, other than in the normal course of business of the financing entity.
15. Our Company, our Promoters, our Directors and the BRLMs to this Offer have not entered into any buy-back and/or standby or similar arrangements with any person for purchase of our Equity Shares issued by our Company through this Draft Red Herring Prospectus.
16. As on the date of this Red Herring Prospectus, none of the Equity Shares held by the members of our Promote Group are pledged or otherwise encumbered. None of the Equity Shares being offered for sale through the Offer for Sale are pledged or otherwise encumbered.
17. An oversubscription to the extent of 10% of the Offer can be retained for the purposes of rounding off to the minimum allotment lot and multiple of one share thereafter, while finalizing the Basis of Allotment. Consequently, the actual allotment may go up by a maximum of 10% of the Offer as a result of which, the post-offer paid up capital after the Offer would also increase by the excess amount of allotment so made. In such an event, the Equity Shares

held by the Promoters and subject to lock- in shall be suitably increased so as to ensure that 20% of the Post Offer paid-up capital is locked in for 3 years.

18. Under-subscription in the Net Offer, if any, except in QIB Portion would be allowed to be met with spill over from any other category or a combination of categories at the discretion of our Company in consultation with the Selling shareholders and the BRLMs and the Stock Exchanges.
19. The Offer is being made for at least 25% of the post-Offer paid-up Equity Share capital of our Company wherein not more than 50.00% of the Net Offer shall be available for allocation on a proportionate basis to QIBs, provided that our Company, in consultation with the Selling shareholders and the BRLMs may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription in the Anchor Investor Portion, the remaining Equity Shares shall be added to the QIB Portion. 5% of the QIB Portion (excluding the Anchor Investor Portion) shall be available for allocation on a proportionate basis to Mutual Funds only, and the remainder of the QIB Portion (excluding Anchor Investor Portion) shall be available for allocation on a proportionate basis to all QIB Bidders, including Mutual Funds, subject to valid Bids being received at or above the Offer Price. In the event the aggregate demand from Mutual Funds is less than as specified above, the balance Equity Shares available for Allotment in the Mutual Fund Portion will be added to the QIB Portion and allocated proportionately to the QIB Bidders (other than Anchor Investors) in proportion to their Bids. Further not less than 15.00% of the Net Offer shall be available for allocation on a proportionate basis to Non Institutional Bidders and not less than 35.00% of the Net Offer shall be available for allocation on a proportionate basis to Retail Individual Bidders, subject to valid Bids being received at or above the Offer Price.
20. As on the date of filing of this Draft Red Herring Prospectus, there are no outstanding warrants, options or rights to convert debentures, loans or other financial instruments into our Equity Shares.
21. All the Equity Shares of our Company are fully paid up as on the date of this Draft Red Herring Prospectus. Further, since the entire money in respect of the Offer is being called on application, all the successful applicants will be issued fully paid-up equity shares.
22. There shall be only one denomination for our Equity Shares, unless otherwise permitted by law.
23. No payment, direct or indirect in the nature of discount, commission, allowances or otherwise shall be made either by us or our Promoters to the persons who receive allotments, if any, in this Offer.
24. Except for sale of its Equity Shares in the Offer for Sale, our Promoters and the members of our Promoter Group will not participate in this Offer.
25. Our Company has not made any public issue since its incorporation.
26. As on the date of this Draft Red Herring Prospectus, the BRLMs and their respective associates (determined as per the definition of ‘associate company’ under Section 2(6) of the Companies Act, 2013) do not hold any Equity Shares in our Company. The BRLMs and their respective affiliates may engage in transactions with and perform services for our Company in the ordinary course of business or may in the future engage in commercial banking and investment banking transactions with our Company, for which they may in the future receive customary compensation.
27. Our Company shall ensure that transactions in the Equity Shares by the Promoters and the members of our Promoter Group between the date of filing this Draft Red Herring Prospectus and the Offer Closing Date shall be reported to the Stock Exchange within 24 (twenty-four) hours of such transaction.

OBJECTS OF THE OFFER

The Offer comprises of the Fresh Issue of [●] Equity Shares aggregating to ₹600 million by our Company and the Offer for Sale of 90,15,000 Equity Shares aggregating to ₹[●] million by the Selling Shareholders.

Offer for Sale

The object of the Offer for Sale is to allow the Selling Shareholders to sell an aggregate 90,15,000 of Equity Shares subject to finalization of Basis of Allotment held by them. Our Company will not receive any proceeds from the Offer for Sale.

Fresh Issue

The net proceeds of the Fresh Issue, i.e. gross proceeds of the Fresh Issue less the Offer expenses apportioned to our Company (“Net Proceeds”) are proposed to be utilised in the following manner:

1. To fund working capital requirements;
2. To fund expenditures towards general corporate purposes; and
3. To meet public issue expenses.

The other Objects of the Issue also include creating a public trading market for the Equity Shares of our Company by listing them on BSE and NSE.

The main object clause of Memorandum of Association of our Company enables us to undertake the existing activities and the activities for which the funds are being raised by us through the present Issue.

Our Company has assumed trade receivables turnover ratio as 91 days for the Financial Years 2021.
Inventories	Inventories days derived from the Restated Financial Statements (Calculated as Inventory as on balance sheet date divided by COGS* over 365 days). We have anticipated that our Inventory days will reduce to 65 days and 58 days as on March 31, 2020 and March 31, 2021 respectively by focusing on rationalizing our inventory management to meet our future requirement while not carrying undue levels of inventory.
Short term loans & advances and other Current Assets	Short term loans & advances and other Current Assets days derived from the Restated Financial Statements (Calculated as Short term loans & advances and other Current Assets as on balance sheet date divided by total revenues over 365 days) Our Company has assumed Short term loans & advances and other Current Assets turnover ratio as 25 days and 20 days for the Financial Years 2020 and 2021, respectively.
Cash & Bank	Our Company is required to keep sufficient cash balance to address the growth in operations. We have assumed a certain level of safety cash required for our operations.
Trade Payables	This is based on the average standard payment terms of our vendors. Our Trade Payables days derived from the Restated Financial Statements (Calculated as Trade Payables as on balance sheet date divided by total expenses, excluding depreciation, finance cost and tax expense over 365 days 131 days, 120 days and 118 days for Financial Years 2018, 2019 and 2020, respectively. Our Company has assumed Trade Payables turnover ratio as 118 days and 113 days for the Financial Years 2020 and 2021, respectively.
Other Current Liabilities & Other financial liabilities	Our Other Current Liabilities & Other financial liabilities days derived from the Restated Financial Statements (Calculated as Other Current Liabilities & Other financial liabilities as on balance sheet date divided by total expenses, excluding depreciation, finance cost and tax expense over 365 days 7 days, 9 days, and 13 days Financial Years 2018, 2019 and 2020, respectively. Our Company has assumed Other Current Liabilities & Other financial liabilities turnover ratio as 13 days and 11 days for the Financial Years 2020 and 2021, respectively.
Short Term Provisions & Current tax Liabilities (Net)	Our Short Term Provisions & Current tax Liabilities (Net) days derived from the Restated Financial Statements (Calculated as Short Term Provisions & Current tax Liabilities (Net) as on balance sheet date divided by total expenses, excluding depreciation, finance cost and tax expense over 365 days 10 days, 6 days and 4 days for Financial Years 2018, 2019 and 2020, respectively. Our Company has assumed Short Term Provisions & Current tax Liabilities (Net) turnover ratio as 4 days and 4 days for the Financial Years 2020 and 2021, respectively.

Our Board pursuant to its resolution dated September 9, 2020 has approved the working capital requirements of our Company. N. S. Shetty & Co., Chartered Accountants by its certificate dated September 23, 2020, certified the working capital requirements of our Company. See “Material Contracts and Documents for Inspection–Material Documents” on page 365.

B. General Corporate Purposes

The Net Proceeds will first be utilized for the objects as set out above. Subject to this, our Company intends to deploy any balance left out of the Net Proceeds towards our general corporate purposes, as approved by our management, from time to time, subject to such utilization for general corporate purposes not exceeding 25% of the Fresh Issue, in compliance with the SEBI ICDR Regulations.

Such general corporate purpose including but not restricted to, maintenance and expansion of our manufacturing facilities, strengthening of the marketing capabilities, setting up and completion of the interior design at the new office purchased at Borivali, capital expenditure, including towards development/refurbishment/renovation of our assets and /or meeting ongoing general corporate purposes or contingencies, which the Company in the ordinary course of business may not foresee or any other purposes as approved by our Board of Directors, subject to compliance with the necessary provisions of the Companies Act.

Further, in accordance with the Regulation 32 of the SEBI Listing Regulations, our Company shall furnish to the Stock Exchanges on a quarterly basis, a statement indicating (i) deviations, if any, in the utilisation of the Net Proceeds from the objects of the Offer as stated above; and (ii) details of category wise variations in the utilisation of the Net Proceeds from the objects of the Offer as stated above. This information will also be published in newspapers simultaneously with the interim or annual financial results of our Company, after placing such information before our Audit Committee.

Interim Use of Proceed

Pending utilization for the purposes described above, we undertake to temporarily invest the funds from the Net Proceeds only with scheduled commercial banks. In accordance with Section 27 of the Companies Act 2013, our Company confirms that it shall not use the Net Proceeds and the for buying, trading or otherwise dealing in shares of any other listed company or for any investment in the equity markets.

Variation in Objects

In accordance with Sections 13(8) and 27 of the Companies Act 2013, our Company shall not vary the Objects of the Offer unless our Company is authorized to do so by way of a special resolution of its Shareholders and such variation will be in accordance with the applicable laws including the Companies Act, 2013 and the SEBI ICDR Regulations. In addition, the notice issued to the Shareholders in relation to the passing of such special resolution shall specify the prescribed details and be published in accordance with the Companies Act, 2013.

Other confirmations

No part of the Net Proceeds will be paid to our Promoters, Directors, our Group Companies or our Key Managerial Personnel, except in the ordinary course of business. Our Company has not entered into nor has planned to enter into any arrangement/ agreements with our Directors, our Key Management Personnel or our Group Companies in relation to the utilization of the Net Proceeds of the Offer.

BASIS FOR OFFER PRICE

The Offer Price will be determined by our Company and the Selling Shareholders in consultation with the Book Running Lead Managers on the basis of the Book Building Process and on the basis of quantitative and qualitative factors as described below. The face value of the Equity Shares is ₹10 each and the Offer Price is [●] times the face value at the lower end of the Price Band and [●] times the face value at the higher end of the Price Band. Investors should also refer to “Our Business”, “Risk Factors”, “Financial Information” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations” beginning on pages 129, 27, 205 and 262, respectively of this Draft Red Herring Prospectus, to have an informed view before making an investment decision.

Qualitative Factors

Some of the qualitative factors which form the basis for computing the Offer Price are:

- Presence in a wide range of products across the entire value chain of synthetic pyrethroids.
- Product registrations in the domestic and international markets enabling global outreach.
- Strong product portfolio and wide distribution network.
- Diversified and stable customer base.
- Experienced Promoters and Management Team.

For further details, see “Our Business – Our Competitive Strengths” beginning on page 129 of this Draft Red Herring Prospectus,

Quantitative Factors

The information presented below relating to our Company has been derived from the Restated Financial Statements of our Company. For further details, see “Financial Statements” beginning on page 205 of this Draft Red Herring Prospectus.

Some of the quantitative factors which may form the basis for calculating the Offer Price are as follows:

1. Basic & Diluted Earnings per share (EPS) (Face value of ₹10 each):

As per the Restated Financial Statements for the Fiscals 2020, 2019 and 2018,

7. The Offer price is [●] times of the face value of the Equity Shares.

The Offer Price of ₹ [●] has been determined by our Company and the Selling Shareholders in consultation with the BRLMs, on the basis of demand from investors for Equity Shares through the Book Building Process and, is justified in view of the above qualitative and quantitative parameters.

Investors should read the above mentioned information along with “*Risk Factors*”, “*Our Business*”, and “*Financial Information*” on pages 27, 129, and 205, respectively of this Draft Red Herring Prospectus, to have a more informed view. The trading price of the Equity Shares could decline due to the factors mentioned in the “*Risk Factors*” and you may lose all or part of your investments.

STATEMENT OF TAX BENEFITS

The Board of Directors
Heranba Industries Limited
Plot No 1504/1505/1506/1 GIDC,
Phase-III Vapi, Valsad -396 195,
Gujarat, India.

Dear Sirs,

Sub: Statement of possible special tax benefits (“the Statement”) available to Hernaba Industries Limited (“the Company”) and its shareholders prepared in accordance with the requirements in Schedule VIII-Clause (VII) (L) of the Securities Exchange Board of India (Issue of Capital Disclosure Requirements) Regulations 2009, as amended (“the Regulations”)

We report that the enclosed statement in the **Annexure**, states the possible special tax benefits under direct and indirect tax laws including the Income-tax Act 1961, Goods and Services Tax Act, 2017, Customs Act, 1962 and Foreign Trade Policy 2015-2020 relevant to the financial year 2020-2021 presently in force in India, available to the Company, and its shareholders for inclusion in the draft red herring prospectus (“DRHP”), red herring prospectus (“RHP”) and prospectus. Several of these benefits are dependent on the Company and its shareholders as the case may be, fulfilling the conditions prescribed under the relevant provisions of the statute. Hence, the ability of the Company or its shareholders to derive the special tax benefits is dependent upon their fulfilling such conditions, which based on business imperatives the Company and its shareholders faces in the future, the Company, and its shareholders may or may not choose to fulfill.

The benefits discussed in the enclosed **Annexure** are not exhaustive. This statement is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice. In view of the individual nature of the tax consequences and the changing tax laws, each investor is advised to consult his or her own tax consultant with respect to the specific tax implications arising out of their participation in the Offer. Neither we are suggesting nor advising the investor to invest in the Offer based on this statement.

We do not express any opinion or provide any assurance as to whether:

- (i) the Company and its shareholders will continue to obtain these benefits in future; or
- (ii) the conditions prescribed for availing the benefits have been/would be met with.

The contents of the enclosed statement are based on information, explanations and representations obtained from the Company and on the basis of our understanding of the business activities and operations of the Company.

Our views expressed in the statement enclosed are based on the facts and assumptions indicated above and in the statement. Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes. Reliance on the statement is on the express understanding that we do not assume responsibility towards the investors who may or may not invest in the proposed issue or to any third party relying on the statement.

This statement has been prepared solely in connection with the issue of Equity shares by the Company under the Securities and Exchange Board of India (“SEBI”) (Issue of Capital and Disclosure Requirements) Regulations, 2018.

STATEMENT OF POSSIBLE SPECIAL DIRECT TAX BENEFITS AVAILABLE TO THE COMPANY AND TO CERTAIN OF ITS SHAREHOLDERS

I. Special tax benefits available to the Company

Section 115BAA of the Act, as inserted vide The Taxation Laws (Amendment) Act, 2019, provides that domestic company can opt for a rate of tax of 22% (plus applicable surcharge and cess) for the financial year 2019-20 onwards, provided the total income of the company is computed without claiming certain specified incentives/deductions or set-off of losses, depreciation etc. and claiming depreciation determined in the prescribed manner. In case a company opts for section 115BAA of the Act, provisions of Minimum Alternate Tax [“MAT”] under section 115JB of the Act would not be applicable and MAT credit of the earlier year(s) will not be available for set-off. The option needs to be exercised on or before the due date of filing the tax return. Option once exercised, cannot be subsequently withdrawn for the same or any other tax year. The Company has represented to us that they will opt to apply section 115BAA of the Act for the assessment year 2020-2021.

II. Special tax benefits available to certain shareholders

1. Special tax benefits to Foreign Portfolio Investors (FPIs)

- Section 2(14) of the Act provides that any securities held by a FPI who has invested in such securities in accordance with the regulations made under Securities and Exchange Board of India Act, 1992 would be treated as a capital asset. Income arising from transfer of such security by a FPI would be treated to be in the nature of capital gains.
- Under Section 115AD (1) (ii) of the Act, income by way of Short-term Capital Gains arising to the FPI on transfer of shares shall be chargeable at a rate of 30% where such transactions are not subjected to Securities Transaction Tax (‘STT’), and at the rate of 15% if such transaction of sale is entered on a recognised stock exchange in India and is chargeable to STT. The above rates are to be increased by applicable surcharge and cess.
- Under Section 115AD (1) (iii) of the Act, income by way of Long-term Capital Gains (‘LTCG’) arising from the transfer of shares held in the company will be taxable at the rate of 10% (plus applicable surcharge and cess). In case STT is paid at the time of acquisition and transfer, income tax at 10% (plus applicable surcharge and cess) shall be calculated on LTCG exceeding INR one lakh. The benefits of indexation of cost and of foreign currency fluctuations are not available to FPIs.

2. Special tax benefits to Non-Resident Indians

- As per section 115C(e) of the Act, the term “non-resident Indians” means an individual, being a citizen of India or a person of Indian origin who is not a “resident”. A person shall be deemed to be of Indian origin if he, or either of his parents or any of his grandparents, was born in undivided India.
- As per section 115E of the Act, in the case of a shareholder being a non-resident Indian, and subscribing to the shares of the company in convertible foreign exchange, in accordance with and subject to the prescribed conditions, LTCG on transfer of the shares of the company will be subject to tax at the rate of 10% (plus applicable surcharge and cess), without any indexation benefit.
- As per section 115F of the Act and subject to the conditions specified therein, in the case of a shareholder being a non-resident Indian, gains arising on transfer of a long term capital asset being shares of the company will not be chargeable to tax if the entire net consideration received on such transfer is invested within the prescribed period of six months in any specified asset. If part of such net consideration is invested within the prescribed period of six months in any specified asset then this exemption would be allowable on a proportionate basis. Further, if the specified asset in which the investment has been made is transferred within a period of three years from the date of investment, the amount of capital gains tax exempted earlier would become chargeable to tax as LTCG in the year in which such specified asset are transferred.
- As per section 115I of the Act, a non-resident Indian may elect not to be governed by the provisions of Chapter XII-A for any assessment year by furnishing a declaration along with his return of income for that assessment

year under section 139 of the Act, that the provisions of Chapter XII-A shall not apply to him for that assessment year and accordingly his total income for that assessment year will be computed in accordance with the other provisions of the Act.

3. Special tax benefits available to Alternative Investment Funds (Category I and II)

- Under section 10(23FBA) of the Act, any income of an investment fund other than the income chargeable under the head "Profits and gains of business or profession" is exempt from income tax.
Investment fund means any fund established or incorporated in India in the form of a trust or a company or a limited liability partnership or a body corporate which has been granted a certificate of registration as a Category I or a Category II Alternative Investment Fund and is regulated under the Securities and Exchange Board of India (Alternative Investment Fund) Regulations, 2012, made under the Securities and Exchange Board of India Act, 1992 (15 of 1992).
- As per Section 115UB (1) of the Act, any income accruing/arising/received by a person from his investment in an investment fund would be taxable in the hands of the person making an investment in the same manner as if it were the income accruing/arising/received by such person had the investments by the investment fund been made directly by him. As per Section 115UB (6) of the Act, the income accruing or arising to or received by the investment fund if not paid or credited to a person (who has investments in the investment fund) shall be deemed to have been credited to the account of the said person on the last day of the previous year in the same proportion in which such person would have been entitled to receive the income had it been paid in the previous year.

4. Special tax benefits available to Mutual Funds

As per section 10(23D) of the Act, any income of:

- mutual funds registered under the Securities and Exchange Board of India Act, 1992 or Regulations made thereunder; or
- such other mutual funds set up by public sector banks or public financial institutions or authorised by the Reserve Bank of India, subject to such conditions as the central government may, by notification in the Official Gazette, specify in this behalf will be exempt from income tax.

NOTES:

1. The above benefits are as per the Income-tax Act, 1961 as amended by the Finance Act, 2020 and The Taxation Laws (Amendment) Act, 2019. The shareholders / investors are advised to consult their own Professional advisors regarding possible Income tax consequences that applies to them.

1. This statement does not discuss any tax consequences in any country outside India of an investment in the shares.

3. As per the Finance Act, 2020 surcharge is to be levied on individuals, Hindu undivided family, associations of persons, body of individuals or artificial juridical person at the rate of 10% if the total income exceeds INR fifty lakhs but does not exceed INR one crore, at the rate of 15% if the total income exceeds INR one crore but does not exceeds INR two crore, at the rate of 25% if the total income exceeds INR two crore but does not exceeds INR five crore and at the rate of 37% if the total income exceeds INR five crore. The enhanced surcharge, i.e., 25% or 37%, is not applicable on capital gains arising on sale of equity share in a company or a unit of an equity oriented fund or a unit of a business trust liable for securities transaction tax.

However, in case of FPI, the enhanced surcharge i.e., 25% or 37%, is not applicable on any capital gains.

4. Surcharge is to be levied on firm, co-operative society and local authorities at the rate of 12% if the total income exceeds INR one crore.

5. Generally surcharge is to be levied on domestic companies at the rate of 7% where the income exceeds INR one crore but does not exceed INR ten crores and at the rate of 12% where the income exceeds INR ten crores.

6. Surcharge is to be levied at the rate of 10% on domestic companies which have opted for the lower tax rate of 22% as per section 115BAA of the Act.

7. Surcharge is to be levied on every company other than domestic company at the rate of 2% where the income exceeds INR one crore but does not exceed INR ten crores and at the rate of 5% where the income exceeds INR ten crores.

8. Health and Education Cess at 4% on the tax and surcharge is payable by all categories of taxpayers.
9. The above statement of possible special direct tax benefits sets out the provisions of law in a summary manner only and is not a complete analysis or listing of all potential tax consequences of the purchase, ownership and disposal of shares.
10. In respect of non-residents, the tax rates and the consequent taxation mentioned above shall be further subject to any benefits available under the DTAA, if any, between India and the country of residence of the nonresident. As per the provisions of section 90(2) of the Act, the provisions of the Act would prevail over the provisions of the Tax Treaty to the extent they are more beneficial to the non-resident. As per section 90(4) of the Act, the non-residents shall not be entitled to claim relief under section 90(2) of the Act, unless a certificate of their being a resident in any country outside India is obtained by them from the government of that country or any specified territory. As per section 90(5) of the Act, the non-residents shall be required to provide such other information, as has been notified.

INDIRECT TAXATION

STATEMENT OF POSSIBLE SPECIAL TAX BENEFITS AVAILABLE TO THE COMPANY AND TO ITS SHAREHOLDERS

Based on the various documents and the evidences produced before us, we would like to certify that the Company is not availing any special tax benefit such as concessional tax rate or exemption from tax which is contingent upon fulfillment of conditions nor any other similar special tax benefits.

Notes:

1. This certificate is only intended to provide general information to the investors and is neither designed nor intended to be a substitute for professional tax advice.
2. The certificate covers only above-mentioned tax laws benefits which according to us are relevant for the Company and does not cover any other indirect tax law.
3. Our views expressed in this certificate are based on the facts and documents as presented by the Company. No assurance is given that the revenue authorities/courts will concur with the views expressed herein. Our views are based on the existing provisions of law and its interpretation, which are subject to change from time to time. We do not assume responsibility to update the views consequent to such changes

SECTION V: ABOUT THE COMPANY AND THE INDUSTRY

INDUSTRY OVERVIEW

Except as otherwise indicated, the information contained in this section is derived from a report titled “India Pyrethroids Market: Industry Trends, Share, Size, Growth, Opportunity and Forecast 2020-2025”, dated March 2020, prepared by International Market Analysis Research and Consulting Group (IMARC). Overview

Pyrethroids are synthetic chemical compounds that are procured from chrysanthemum cinerariaefolium flowers. They are volatile, soluble in water and have low mobility in soil. Owing to these properties, they are used to control pest insects in farms, homes, communities, restaurants, hospitals and schools. Apart from this, as they are less toxic to mammals and birds, they are widely utilized in the production of veterinary medicines. Pyrethroids are currently available in the form of emulsifying concentrates, wet powders, granules and ultra-low-volume (ULV) spray.

Pyrethroids were first developed in the 1950s. However, they gained popularity when photostable second-generation pyrethroids were introduced in the late 1970s and 1980s. With the phasing out of most acceptable uses of organophosphate insecticides (e.g., chlorpyrifos and diazinon), pyrethroids became the predominant class of insecticides that were available in the urban marketplace. In the early 2000s, the United States Environmental Protection Agency (USEPA) approved the sales of permethrin-treated mosquito-repellent clothing. Nowadays, pyrethroids are used both outdoors and indoors to control insects such as ants, fleas, termites, and bedbugs.

Key Industry Trends

Growing at a CAGR of nearly 7.4% during 2014-2019, the India Pyrethroids market is currently experiencing a positive growth. In 2019, the market reached a sales value of US\$ 110 Million. Pyrethroids are cost-effective alternatives for conventionally used insecticides. They exhibit biodegradable properties and are widely used as liquid powders, granules, concentrate emulsifiers, and ultra-low-volume (ULV) sprays. Additionally, they are relatively less poisonous for mammals or birds, owing to which they are used for killing bugs and flying insects in small quantities. Consequently, they are also replacing organophosphates, which were conventionally used on vegetables, such as carrots and lettuce.

Despite the presence of several driving forces, the Indian pyrethroids market faces some challenges as well. For instance, the rapid photodegradation and high susceptibility to moisture and heat are limiting the effectiveness of pyrethroids in agriculture and other open space applications. Moreover, although pyrethroids offer lower toxicity to human applicators and nontarget mammals and birds, they are highly toxic to invertebrates and fish. Furthermore, the behavioral and genetic changes in insects that result in resistance to pyrethroid treatment act as another major restraint to the market growth.

Overall, we expect the demand for pyrethroids in India to remain positive during 2020-2025, exhibiting a CAGR of 19.6% and reaching a sales value of US\$ 205 Million by 2025.

Market Trends

The global agrochemicals market reached a value of US\$ 65.59 Billion in 2019, growing at a CAGR of 0.87% during 2014-2019. Agrochemicals have gained popularity in the agriculture industry in recent years because they help farmers boost their crop quality as well as quantity. Considering the current global population scenario, rising crop production within the present arable land to feed the global population is of utmost importance, which is helping the agrochemicals market to grow further.

Market Breakup by Region

Asia Pacific represented the largest market for agrochemicals globally, accounting for 29.8% of the total market in 2019. Asia Pacific was followed by Latin America (28.9%), Europe (19.5%), North America (18.0%) and Middle East and Africa (3.9%).

Factors Driving the Global Consumption Growth of Agrochemicals

A significant increase in the global population, the escalating requirement to improve crop yields, and increasing demand for biologically based new products have catalyzed the demand for crop protection chemicals over the past few years.

Asia Pacific: The Asia-Pacific region accounts for the largest share in the global agrochemicals industry. Some of the major factors influencing the agrochemicals market growth in the region are as follows:

- **Increasing Demand:** Growing population in the region, especially in India and China, and the rising need for achieving food grain self-sufficiency have stimulated the agrochemicals market growth.
- **Farmland Availability:** Rapid urbanization has had a negative impact on land availability. The pressure to increase yield per hectare can be achieved through increased usage of productivity-enhancing inputs, such as crop protection products.
- **Off-patent Molecules:** The share of off-patent molecules compared to patented molecules and proprietary off-patent molecules have been increasing over the years. This provides improved export opportunities for Asian companies (especially India and China) that possess expertise in the off-patent segment.

Market Forecast

Looking forward, we expect the global agrochemicals market to grow at a CAGR of 4.11% during 2020-2025, reaching a value of US\$ 73.39 Billion by 2025.

Market Trends

The agrochemicals market in India reached a value of US\$ 2,760 Million in 2019, growing at a CAGR of 6.5% during 2014-2019. In India, the agrochemicals market is rising due to growing demand for food driven by an increasing population. Moreover, India's agrochemical market is expected to grow in the forecast period due to rising export opportunities for Indian suppliers owing to the shutdown of agrochemical plants in China due to green movements.

Factors Driving Agrochemical Consumption in India

India is the fourth-largest global producer of crop protection products, after the US, Japan and China. It has also emerged as one of the major exporters of crop protection products globally. With more mouths to feed, shrinking arable area and loss of yield due to increased pest attacks, the crop protection products industry in the country is growing significantly. Some of the major factors driving the Indian agrochemicals market growth are as follows:

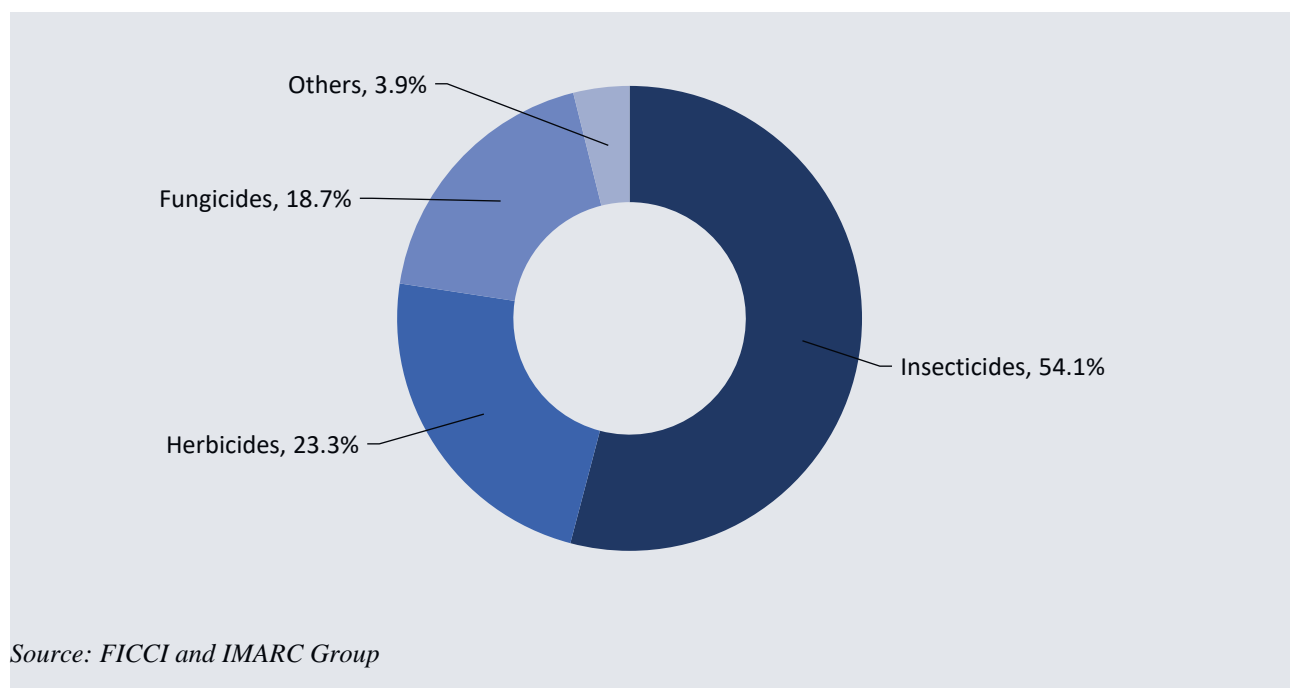

- Increasing Food Demand:** With the estimated growth of population to 1.7 Billion by 2050, Indian food grain demand is estimated to reach a volume of 355 Million Tons by 2030. On account of reducing arable land, small land holdings and low consumption of pesticides per hectare, the requirement for increasing farming productivity is being witnessed, which is crucial for improving the overall outputs. This can be further achieved through optimum usage of farm productivity-enhancing inputs like agrochemicals.
- Increasing demand for Horticulture and Floriculture:** Fruits and vegetables account for nearly 90% of total horticulture production in the country. Due to rapid urbanization and a shift towards nutritious and healthy diets, the demand for fruits and vegetables is likely to increase by 141% (from 268 Million Tons to 647 Million Tons in 2050). Hence, in order to reduce the post-harvest loss in fruits and vegetables, the demand for fungicides is expected to increase significantly.
- Off Patent Molecules:** Pesticides worth USD\$ 4.1 Billion are expected to go off-patent by 2020. This is anticipated to provide significant export opportunities for Indian companies to develop generic molecules. Further, the implementation of stringent regulations by the Chinese government pertaining to environmentally polluting industries is also projected to offer numerous opportunities for the Indian manufacturers in the form of off-patent molecules for effectively increasing exports from India.
- Increasing Export Potential:** The Indian exports of agrochemicals reached a value of US\$ 3.37 Billion in 2019, growing at a CAGR of 11.6% during 2014-2019. The Indian government has set an agricultural export policy to expand the exports to USD\$ 60 Billion by 2022. This is expected to boost the Indian export of agrochemicals in the coming years. Apart from this, the government is also targeting cluster-based developments, which will boost the competitiveness of exports and domestic sales by reducing logistics costs.
- Government Budgetary and Policy Support:** The growing adoption of institutional credit to provide credit facilities to farmers in rural areas is continuously increasing. Thus, the availability and low-interest rates of farm loans have encouraged farmers to use pesticides in order to improve their crop yields. The increasing MSP (Minimum Selling Price) has also invigorated farmers to improve their yield, which is anticipated to boost the use of agrochemicals.

- **Increasing Usage of Bio-pesticides:** Globally, the bio-pesticides market is growing at a CAGR of 10-15%, whereas the bio-pesticides segment in India constitutes only 3% of the Indian crop protection market. However, growing awareness regarding numerous eco-friendly approaches and the increasing use of integrated pest management (IPM) method for crop protection is providing lucrative opportunities for the growth of bio-pesticides in the Indian agrochemical industry.
- **Per Capita Consumption:** India has one of the lowest pesticide consuming country in the world. India's per hectare consumption of pesticide is 0.6 Kg is lower when compared to the US (5-7 Kg/ha) and Japan (11-12 Kg/ha). Thus, an immense potential for the growth of the agrochemical industry in India is anticipated. This lower per capita consumption of pesticides has positively impacted the agrochemicals market growth over the past few years.
- **Climatic Conditions:** Farms need an array of inputs to protect crops from the effects of erratic climatic conditions. Irregular monsoons, in confluence with lack of irrigation, results in low agricultural yields.

Market Breakup by Product Type

In 2019, Insecticides represented the most popular product type in the agrochemicals industry of India, accounting for 54.1% of the total market in India. The insecticides were followed by herbicides (23.3%), fungicides (18.7%) and others (3.9%).

Regulatory Aspects in India for Production and Consumption of Agrochemicals

Overview

India is one of the most dynamic generic pesticide manufacturers in the world and is the fourth largest pesticide manufacturer after China, the US and Japan.

Manufacture, Import, Registration, Sale, Transport, Distribution and use of agrochemicals in India is regulated by The Insecticides Act, 1968 and Insecticides Rules, 1971. All agrochemicals (Insecticides, Fungicides, Herbicides, Public health insecticides) must be registered with Central Insecticides Board & Registration Committee (CIB&RC), ministry of agriculture under various sections of Insecticides Act before they can be imported/manufactured for sale and distribution.

Once a crop protection product is approved by CIB & RC, it will be further approved by state governments of each state.

As per the Insecticides Act, pesticides are defined as those substances that are listed on the “Schedule” of the Insecticides Act, 1968. If there is any pesticide other than listed in schedule, then it must be included in schedule before it can be applied for registration with CIB & RC.

Registration Process

Registration is done under various sections of the Insecticides Act, 1968, including 9(3B) for pesticides being introduced first time in India, 9(3) for manufacturing/import of already existing pesticides with different impurities or higher purity and 9(4) for indigenous manufacturing of active ingredients and formulations under me too category. Each section has a different set of data requirements, and the application for the registration is prepared in Form -1 and submitted online along with the required data. Final approval from CIB&RC may take from 2 months to 1 year of time depending upon the category of requested registration.

Once a pesticide product is approved by CIB&RC it must be registered with government of the state where the product is supposed to be distributed or sold.

Stages in Pesticides Registrations

1. Study of guidelines displayed on official website of CIB&RC.
2. Generation of chemistry, toxicological, packaging, bio-efficacy data as per latest guidelines.
3. Submission of required data.
4. Preliminary scrutiny by CIB&RC for application and data completeness.
5. Sampling and verification of manufacturing site by government authorities.
6. Testing of collected samples if same are as per specifications.
7. Scrutiny of submitted data by concerned sections of CIB&RC.
8. Approval in CIB&RC monthly meeting.
9. Issuance of Registration certificate
10. Application for manufacturing license from state government
11. Issuance of manufacturing license
12. Application for stock and sale of Insecticides
13. Approval by state governments if to be sold and distributed in India.

Data requirement

Data requirement varies extensively depending upon the category of application. Least data (AMES test report) is required for registration under me too category under section 9(4); however, the 9(3)B and 9(3) applications may require physicochemical properties of adjuvants, analytical test report, identification & quantification of identifiable impurities, shelf-life data, establishment of chemical equivalence, acute six pack toxicology studies, sub-acute toxicity, neuro-toxicity, synergism & potentiation, teratogenicity, effect on reproduction, carcinogenicity, metabolism, mutagenicity, toxicity to birds, toxicity to fish, toxicity to honeybees, toxicity to live stock, bio-effectiveness, phytotoxicity, translocation in plants, metabolism in soil, metabolism in water, metabolism in plant, persistence in soil, persistence in water, persistence in plant, compatibility with other chemicals, residues in plant, residues in soil, Maximum Residue Limit (MRLs), transport worthiness test and container compatibility test.

Appeal Against Rejection/Cancellation of Approval

Application for registration may be rejected by CIB & RC if precaution claimed by applicant possess serious risk to human beings, animals or environment.

Any person aggrieved by a decision of the registration committee may appeal within a period of thirty days from the date on which the decision communicated to him, to the Central Government in the ministry of agriculture whose decision thereon shall be final. Central Government may entertain an appeal after the expiry of the said period, if it is satisfied that the appellant was prevented by enough cause from filling the appeal in time.

Pesticide Management Bill, 2020

The Pesticides Management Bill, 2020 has been approved by the Union Cabinet. The Bill will regulate the business of pesticides and compensate farmers in case of losses from the use of agrochemicals. Key Features of the bill are described below:

- **Pesticide Data:** It will empower farmers by providing them with all the information about the strength and weakness of pesticides, the risk and alternatives. All information will be available openly as data in digital format and in all languages.
- **Compensation:** The Bill has a unique feature in the form of a provision for compensations in case there is any loss because of the spurious or low quality of pesticides.
- **Organic Pesticides:** The bill also intends to promote organic pesticides.
- **Registration of Pesticide Manufacturers:** All pesticide manufacturers have to be registered and bound by the new Act, once it is passed. The advertisements of pesticides will be regulated so there should be no confusion or no cheating by the manufacturers.

Commentary on Key Raw Materials and Pricing Impact Due to Chinese Factors

The agrochemical industry has an extensive consumption of raw materials that are derived from crude-oil, chlorine, yellow phosphorus and bromine. As these materials are essential for the manufacturing of technical grades, any fluctuation in the pricing of these raw materials, directly impacts the overall production costs of agrochemicals.

Currently, China is the largest exporter of agrochemicals to India, accounting for a share of around 55% of the total agrochemical imports in India. The key Indian agrochemical companies import a significant part of their technical requirements from China as it sources most of the raw materials required to manufacture agrochemicals.

Recently, the coronavirus outbreak in China has hit the supply chains worldwide. Indian importers of raw materials are also facing problems as China factories remain shut for some time now. As a result, there has been a sudden surge in the prices, which were initially declining from past few months. The Indian agrochemical sector is closely monitoring the outbreak as it imports a noteworthy portion of its raw material from China. A prolonged trade barrier is expected to impact the profitability of the Indian firms.

Besides this, the recent trade tensions between the US and China has benefited the Indian agrochemical industry. China is the largest exporter of agrochemicals to the US, accounting for around 22% of the total US import in 2019. India stands at the second position with a share of 17%. The trade war between the US and China has provided a lucrative opportunity for Indian firms to increase their export potential in the long run.

Thus, Chinese factors such as these have a significant impact on the pricing and profitability of the Indian agrochemical firms.

R & D Expenditure: India vs Global

Research and development (R&D) includes various activities undertaken by the organizations to innovate and introduce new products and services. The R&D in the agrochemical sector involves a long gestation period and high capital requirement. In general, it takes an investment of \$100-350 Million, along with a period of 10 years, to develop a new market for agrochemicals. Owing to extensive R&D and innovation, product manufacturers are now able to screen potentially toxic traits in the active ingredients. This aids in ruling out the products at an early stage of the development process, which can have adverse effects on human health or the environment.

The world's leading manufacturers of agrochemicals invest more than \$3 Billion annually into the R&D of new products, while the overall R&D investment by the major research-based companies has remained consistently high at 7%-10% of annual sales every year. Even though the rate of new product approvals has decreased in the recent years, the industry still has been able to maintain a decent level of product innovation. Apart from this, investment also remains high, along with other developments such as integrated crop solutions, application technology and precision farming. These factors reflect a continually increasing R&D investments in this sector as compared to that of other sectors. The average R&D expenditure between the period 2010-14 was reported to be \$286 Million, which increased from \$256 Million in the previous period.

Although companies in Japan always had low R&D capabilities, they are now spending extensively in their R&D. However, Japan's previous status stands in contrast to the leading agrochemical companies in the European region and in the US, which have always maintained a relatively higher level, i.e., approximately 40% of their agricultural chemical products, in the R&D phase.

Several Indian agrochemical companies are building strategic partnerships with pesticide manufacturing companies based in the USA, Europe, Japan and China. In return, these companies provide a strong distribution network and sales infrastructure. As per the data, it is estimated that most Indian companies spend 1-2% of their sales in R&D. The Agrochemical industry has witnessed huge investments and mergers and acquisitions (M&A), which is helping the Indian companies to minimize their the costs of R&D and product development time, thereby improving the overall efficiency of the R&D process.

PI Industries Limited, an Indian chemical manufacturing company, has one dedicated unit for R&D among its manufacturing units, that focuses on improving the product quality in the agri-input industry. The constantly invest in the R&D and new product launches despite fluctuations in the prices of raw materials, which usually lead to depletion in the margins. As a result, the R&D expense has doubled in FY 2018 to INR 650 Million from INR 350 Million in FY 2017.

Government Policies and Initiatives

With the objective of increasing the production of agricultural products, the Government of India launched various policies and initiatives, which played a significant role in escalating the sales of agrochemicals across the country. Some of the major government policies and initiatives are described below:

Increasing MSP: The Government has fixed minimum selling prices (MSPs) of 22 mandated kharif and rabi crops and fair and remunerative prices (FRPs) for sugarcane. This has assured the farmers a minimum of 50% as margin of profit, which is one of the important and progressive steps towards doubling farmers' income by 2022 and improving their welfare substantively.

Pradhan Mantri Kisan Samman Nidhi (PM-KISAN): The PM-KISAN Yojana was introduced in the interim budget for the year 2019-2020. Based on this initiative, the small and marginal landholder farmer families with cultivable land holding up to 2 hectares were assured Rs 6000 per year across the country. Moreover, the Government of India has recently revised the scheme and it is now expected to cover around 2 crores more farmers, increasing the coverage of the Yojana to around 14.5 crore beneficiaries, with an estimated expenditure by the Central Government of INR 87,217 Crore for the year 2019-20.

Direct Benefit Transfer: Through the simpler and faster flow of information/funds, the direct benefit transfer initiative re-engineered the cash disbursement process in welfare schemes to ensure accurate targeting of beneficiaries, remove duplication and reduce fraud. In FY 2019-20 alone, this scheme is estimated to have transferred more than INR 231,927 Crore.

Pradhan Mantri Annadata Aay SanraksHan Abhiyan (PM-AASHA): This scheme aims to ensure that farmers get remunerative prices for their produce. It is expected to complement the increase in MSP, which will be translated into farmers income by way of robust procurement mechanism in coordination with the states. There are three components outlined under the scheme, namely:

- Price Support Scheme (PSS)
- Price Deficiency Payment Scheme (PDPS)
- Pilot of Private Procurement & Stockist Scheme (PPPS)

These components help in enhancing agricultural productivity, reducing the cost of cultivation that will boost and secure farmers income in the long run.

Make in India: The Government of India through its 'Make in India' initiative has been inviting several national and international organizations to manufacture and expand operations in the country. Most of the companies are currently looking for sourcing chemicals from India to de-risk their sourcing from China. Additionally, there are numerous other reasons for MNCs investing in India. Few among those are low capex, availability of skilled manpower at low cost, and infrastructural advancement.

National Agriculture Market (eNAM): National Agriculture Market (eNAM) is a pan-India electronic trading portal that networks the existing Agricultural Produce Market Committee (APMC) mandis to form a unified national market for agricultural commodities. Small Farmers Agribusiness Consortium (SFAC) is the lead agency, which implements eNAM under the aegis of Ministry of Agriculture and Farmers' Welfare (Government of India). The scheme aims to encourage uniformity in agriculture marketing by streamlining of procedures through the integrated markets, removing information asymmetry between buyers and sellers, and promoting real time price discovery on the basis of actual demand and supply.

National Horticulture Mission: National Horticulture Mission (NHM) refers to a centrally sponsored scheme that was launched in 2005-06. It helps in improving the horticulture production and enhancing nutritional security and income support to farm households and others through area-based regionally differentiated strategies. After its launch, significant progress has been made in area expansion under horticulture crops, which resulted in higher production. Over the last decade, the area under horticulture grew at an average rate of 2.7% per annum and annual production increase at an average rate of 7.0% per annum.

Market Performance

The global Pyrethroids market reached a value of US\$ 3,235 Million in 2019, growing at a CAGR of 4.50% during 2014-2019. Pyrethroids are a family of more than a dozen similar synthetic chemical compounds based on the chemical structure of pyrethrins, the naturally occurring botanical insecticides derived from chrysanthemum flowers. Pyrethroids are widely used in agricultural and urban areas. With the growing population and declining farmland, farmers around the world are adopting new farming practices for improved yield. Pyrethroids, when compared with organophosphates, are safer for humans because mammals, unlike other classes of organisms, have more extensive enzyme systems that are capable of metabolizing and detoxifying the pyrethroid.

Figure 13: Global: Pyrethroids Market: Sales Value (in Million US\$), 2014-2019

Market Breakup by End Use

Agriculture represented the largest end-use segment, accounting for 75.5% of global Pyrethroids market in 2019. Agriculture was followed by public health (18.7%), and animal health (5.8%).

Market Breakup by Product Type

Cypermethrin represented the most popular type in the global Pyrethroids market, accounting for 24.3% of total market in 2019. Cypermethrin was followed by lambda-cyhalothrin (21.9%), deltamethrin (11.8%), bifenthrin (10.2%), permethrin (7.0%) and others (24.9%). Growth of lambda-cyhalothrin market is driven by the rise in concerns toward diseases transferable by insects, awareness about disease prevention and rapid growth of commercial pest management services. The development of advanced and efficient technologies, a rise in the demand for home pest control, increasing government initiatives to enhance agriculture yield are among the key the factors driving the growth of deltamethrin market. Cypermethrin used in long-lasting insecticidal nets is widely used to protect people from mosquitoes that carry malaria, dengue, and yellow fever diseases. Permethrin, cypermethrin, and deltamethrin are mainly used as active ingredients in nets. DDT and pyrethroids have the same mode of action. Bifenthrin is the type of synthetic pyrethroid used in the control of pests and insects, such as mosquitoes, ticks, fleas, termites, and cockroaches. It is available in different forms, such as sprays and granules. It is included in one of the recommendations from the CDC to fight mosquito-borne diseases such as malaria, West Nile, and Zika. With the increase in the production of food crops, the demand for insecticides such as bifenthrin has increased. The factor driving the permethrin market is the toxicity of permethrin for mites, and other insects are triggering its demand from various insecticidal applications. The pharmaceutical use of permethrin which includes head lice treatment is also increasing its demand. The pharmaceutical applications of permethrin are increasing, owing to growing health awareness among consumers.

Market Breakup by Crop Type

In 2019, fruit & vegetables represented the largest crop type in the global Pyrethroids market, accounting for 26.3% of the total market. Fruit & vegetables were followed by cotton (22.8%), rice (15.7%), soybean (9.9%) cereals (7.2%), maize (6.1%) and others (12.0%). In some countries, several programmes have been initiated for public health nutrition and promoting a balanced diet to reduce diet-related disease costs. These factors have led to significant growth in the fruit and vegetable industry. When vegetables are produced, pesticides are applied or prospectively applied at each growth stage of the crop to enhance agriculture productivity. Pyrethroids have been especially useful in Bt cotton since larvae that survived the Bt are smaller and slower to develop. The development of photostable synthetic pyrethroid insecticides has particular significance in cotton pest control while being much more acceptable environmentally. There may be potential short-term uncertainties in the cotton market. But higher productivity driven by technological progress, including greater adoption of biotech cotton, creates a substantial potential for cotton production to expand in the next decade. Pyrethroid insecticides (permethrin and cypermethrin) are generally used in rice farms and for household pest control. Rice is one of the major food staples and also the mainstay for the rural population and their food security, owing to which the rice industry is experiencing significant growth. By eradicating weeds, pyrethroids deliver broad-spectrum control and long-lasting activity to improve crop production. Soybeans are the fourth leading crop produced globally (by volume). While some of the crops are used directly, more than 85% is further processed through crushing into soybean meal and oil. Soybeans and its derivatives are the most traded agricultural commodity, thus boosting demand for soy products for feed use, especially for poultry. Pyrethroid insecticides are widely used to control cereal aphids, favored for their rapid knockdown effect, low cost and low environmental risk. Aphids, as the foremost cereal pest, have been the key target of pyrethroid applications. The global cereal demand shift in favor of maize reflects rising incomes in many developing countries with consequent growth in meat consumption, which drives the demand for maize as feed for poultry and swine. As maize is used for animal feed, fast-expanding livestock sectors in developing countries have led to its increased consumption. Application of pyrethroids in all these sectors, coupled with the continually growing human population, is expected to contribute to the extensive growth of the global pyrethroid industry in the near future.

Market Breakup by Region

Asia Pacific represented the largest market for Pyrethroids, accounting for 39.5% of the total market in 2019. Asia Pacific was followed by Latin America (24.6%), North America (17.7%), Europe (11.9%), and Middle East and Africa (6.3%). The market for pyrethroids in Asia Pacific is driven by the rising demand for hygiene products and pyrethroid insecticides, owing to increasing disposable income levels and growing awareness regarding the importance of maintaining hygiene. Along with this, owing to increasing population and food security, Asia Pacific has emerged as the region with maximum potential for growth. The emerging economies, including China, India, Vietnam, and Thailand are the significant consumers of pyrethroid insecticides for application on various cereal and grain crops. The use of pyrethroids has been increasing in North America, owing to the increasing replacement of organophosphates with pyrethroids. Canada, which is one of the largest agricultural producers and exporters in the world, significantly uses pyrethroids-based insecticides. Several vegetables and fruits, which are grown in the country, get treated by the domestically registered pyrethroids. The use of pesticides and insecticides is expected to increase with an expanding agricultural base and export-oriented growth. The market demand for insecticides is expected to further grow due to strong government support for responsible and environmentally friendly agricultural practices. The market growth in Latin America is propelled by the increasing demand for hygienic household products, along with the rising population and changing lifestyle. The market in the Middle East and Africa region is mainly driven by various factors such as high potency and effectiveness of pyrethroids, which has made them the preferred ingredient to be used in the household and industrial insecticides.

Market Forecast

Looking forward, we expect global Pyrethroids market to grow at a CAGR of 6.38% in terms of value, during 2020-2025, reaching a value of US\$ 4,068 Million by 2025. Pyrethroids serve as a cost-effective alternative to the conventionally used insecticides. Some insecticides are also known for their high potency and extreme efficacy. As a result, there is a growing demand for pyrethroids not only for crops but also for the treatment of clothes and mosquito control across residential and industrial sectors. All these factors are expected to catalyze global pyrethroids market growth further.

Key Players

In 2019, FMC Corporation dominated the global pyrethroids market, accounting for the share of 17.0% of the total market. FMC Corporation was followed by Syngenta (13.1%), Bayer Crop Science (10.9%), Corteva Agriscience (10.3%), Sumitomo Chemical (7.2%), BASF (5.4%), UPL Limited (5.3%), Nufarm (2.7%) and others (28.1%).

India Pyrethroids Market

Overview

Pyrethroids serve as an economical and safe alternative for increasing crop yields for combating hunger, as well as eliminating vector borne diseases like malaria. Today pyrethroids find usage in significant applications across pest protection, environmental health and crop care as well as animal health. Since pyrethroids are significantly more effective against a broader range of insects, they are considered highly economical and beneficial by most farmers. Pyrethroids are extremely useful and fast-acting against chewing insects and have low water solubility. This implies pyrethroids are less likely to develop to environmentally hazardous levels. They are low in mammal and bird toxicity and require very low dosage as compared to organophosphate pesticides to kill insects. They maintain insecticidal activity over a prolonged period which helps to control overlapping pest generations. Finally, they are naturally readily biodegradable. Pyrethroids are safe chemistry, they have a broad spectrum of usage and are cost-effective when considering agriculture economy per hectare. There has always been a significant application of pyrethroids in the cotton industry which brought higher returns on investment. The pyrethroids market growth declined with the launch of Bt cotton in India in the early 2000s and the subsequent reduction was experienced in the need for pesticides to be sprayed onto a crop. The region under Bt cotton cultivation, which was barely 0.29 lakh ha (0.38%) out of 76.70 lakh, in 2002-03, increased to 119.40 lakh ha out of 128.19 lakh hectares in 2014-15, showing more than 93.14% adoption over a span of 13 years. The demand for pyrethroids remained stagnant until manufacturers started to look for their applications in other sectors, such as rice, fruit, and vegetables, around 2015.

Throughout 2016, the pyrethroid industry was experiencing a resurgent demand mainly caused by the need to substitute certain organophosphates (OP) and carbamates that were being investigated for their high toxicity risks. Pyrethroids, on the other hand, being safer for the environment, became an automatic option as they balanced environmental concerns and costs of production. India has emerged as the largest pyrethroid manufacturer over the years. More than half of the global demand for pyrethroids comes from China, after importing intermediates from India, which is used to produce pyrethroid. Yet China's adoption of the 'Blue Sky' program to realize green GDP has led to the shutdown of several chemical plants. This, in turn, is expected to result in higher volumes of pyrethroids being exported out of India.

Market Performance

The Pyrethroids market in India reached a production volume of 17,747 tons in 2019, growing at a CAGR of 7.2% during 2014-2019. In terms of production value and consumption value, the market reached a value of US\$ 313 Million and US\$ 110 Million in 2019, exhibiting a CAGR of 7.7% and 7.4% during 2014-2019 respectively.

Market Forecast

Looking forward, we expect the Pyrethroids market in India to grow at a CAGR of 8.5% during 2020-2025, reaching a production volume of 25,398 Tons by 2025. Moreover, the production and consumption value are expected to reach a value of US\$ 462 Million and US\$ 205 Million by 2025, exhibiting a CAGR of 12.5% and 19.6% respectively.

Value Chain Analysis

The value chain of the pyrethroid industry involves- Research & development, technical grade manufacturer, formulators, distributors/exporter and the end users. A detailed value chain has been illustrated below

Research and Development – For a new pyrethroid, the discovery or research process involves the synthesis of candidate molecules. These candidate molecules are subsequently subjected to a series of biological research tests or screens which are designed to demonstrate the biological activity of the new molecule. The screening process is likely to involve several increasingly complex stages to ensure that the new chemical has a suitable biological activity to merit further development.

After research comes the development stage. Pyrethroid development encompasses a broad range of processes which are all aimed at developing the product for subsequent commercialization. Chemical development processes include the establishment of a pilot plant to produce suitable quantities of material for further biological and safety testing. Studies on optimizing the manufacturing process for commercial production are subsequently undertaken with the aim of arriving at a suitably cost-effective manufacturing process.

Technical Grade Manufacturer: After the successful synthesizing of the active ingredient in the lab, the production begins in the factory. Synthesizing a pyrethroid is a complex chemical procedure that requires trained chemists and a large, sophisticated laboratory. Once synthesized, the active ingredient is packaged and sent to a formulator.

Formulators: A formulator accepts the active ingredient, measures out the proper amount, mixes it with carrier if it is to be a liquid or with inert powders if it is to be a dust pesticide, then bottles or packages it. Liquid pyrethroids are usually packaged in 200-liter drums if a large-scale farmer is the anticipated customer or 20-liter jugs for small-scale operations. Dry formulations can be packaged in 5 to 10 kg plastic or plastic-lined bags. An emulsified formulation is usually concentrated to render transport easier (the active ingredient typically makes up 50 percent of the emulsified concentrate), but granulated and dry pesticides are ready to use.

Distributor: The distributor of pyrethroid procures pyrethroids in various formulations from the formulators and distribute them to various end users. They are responsible for distributing and selling commercial pyrethroid products across the country. Many of these are regional players who have tie ups with one or more agrochemical companies for distribution and sale of their products.

Exporter: Like the distributors, the exporters of agrochemicals procure them from the formulators and supply it to the end users based in other countries.

End-user: The agrochemicals are then provided to various end users including farmers and households.

OUR BUSINESS

We are a crop protection chemical manufacturer, exporter and marketing company based out of Vapi, Gujarat. We manufacture Intermediates, Technicals and Formulations. We are one of the leading domestic producers of synthetic pyrethroids like cypermethrin, alphacypermethrin, deltamethrin, permitherin, lambda cyhalothrin etc. Our Pesticides range includes insecticides, herbicides, fungicides and public health products for pest control. Our business verticals include (a) *Domestic Institutional sales of Technicals*: manufacturing and selling of Technicals in bulk to domestic companies; (b) *Technicals Exports*: Exports of Technicals in bulk to customers outside India; (c) *Branded Formulations*: Manufacturing and selling of Formulations under our own brands through our own distribution network in India; (d) *Formulations Exports*: Export of Formulations in bulk and customer specified packaging outside India; and (e) *Public Health*: Manufacturing and selling of general insect control chemicals by participating in public health tenders issued by governmental authorities and selling to pest management companies.

We started our manufacturing activity in the year 1996 with production of an Intermediate product CMAC. By the FY 2001-2002, we forward integrated our Company into the manufacturing of various Technicals like metametron, cypermethrin, alpha, permethrin and deltamethrin. By the end of the FY 2004-2005, we further expanded our product range to Formulations, which are final products sold to farmers as Pesticides, Herbicides, Fungicides for crop protection and into public health products in the FY 2010-11. Our Company is present in the entire product value chain of the agrochemicals industry i.e. Intermediates, Technicals and Formulations and holds registrations for eighteen (18) Technicals for manufacture and sale in India, ninety-three (93) Technicals & Formulations for manufacture and sale in the export markets and one hundred and sixty seven (167) Formulations registered for manufacturing and sale in India. Applications for registration of thirteen (13) Technicals & Formulations for manufacture & sale in India and two (2) Technicals to manufacture for the export markets have been filed with the CIB&RC and are in the process of evaluation. We have diversified our business from manufacturing and selling of Intermediates to manufacturing, marketing and selling of Technicals and Formulations. Majority of our current Intermediates production is utilized for captive consumption for the manufacturing of Technicals Products. Formulations are produced and packaged in powder and liquid forms and sold to distributors for further sales to farmers.

Our manufacturing process mainly includes chemical reactions of ammonolysis, esterification, hydrolysis, condensation, favorski reaction, isomerisation, cyanation, friedel crafts, methoxylation, cyclisation and halogenation. We have our in-house R&D team for product development and improvisation which is well supported by our product registration team. Our R&D facilities at Unit I and II are recognized by the Department of Scientific and Industrial Research, Ministry of Science & Technology, Government of India (DSIR). Our new R&D facility at Unit III, Sarigam will become operational from December, 2020.

We exported our products to more than sixty (60) countries in Latin America, CIS, Middle East, Africa, Asia and South East Asia in FY 2020. As of August 31, 2020, our International Distribution Partners have successfully obtained three hundred and sixty-one (361) registrations of our Technicals and Formulations in forty (40) countries across countries in Middle East, CIS, Asia, South East Asia and Africa. Our International Distribution Partners have presently filed one hundred sixty nine (169) registration applications for our Technicals and Formulations products which are pending before the regulatory authorities in twenty five (25) countries. Our International Distribution Partner in Europe has already received registration for Deltamethrin Technical and applications for registration of Lambda Cyhalothrin Technical, Alpha Cypermethrin Technical and Metribuzin Technical are in process before the relevant authority in EU. Our International Distribution Partner in the USA has also applied for registration of Lambda Cyhalothrin Technical manufactured by our Company as another source of supply to their existing registration for this product. We are in process of developing two (2) products of Fungicides, two (2) products of Herbicides and one (1) product of Insecticides, for which research and development tests have been initiated, for exclusive sale to the European markets after registration with the regulatory authority in EU. India has emerged as the largest pyrethroid manufacturer over the years. More than half of the global demand for Pyrethroids comes from China, after importing intermediates from India, which is used to produce pyrethroid. Yet China's adoption of the 'Blue Sky' program to realize green GDP has led to the shutdown of several chemical plants. This, in turn, is expected to result in higher volumes of Pyrethroids being exported out of India. For further information, please see "*Industry Overview*" beginning from page 95.

We have an extensive distribution network in India supported by a skilled sales force. We have more than eight thousand six hundred (8,600) dealers having access to twenty-one (21) depots of our Company across sixteen (16) states and one (1) union territory in India supporting the distribution of our products. We participate in various international & domestic agrochemical exhibitions and industry conferences to market our products. Our sales & marketing teams travel extensively to maintain and strengthen existing relationships with customers and exploring new relationships with potential customers. We also educate farmers regarding the benefits of using our products by conducting farmer training camps, participating in village level programmes and exhibitions to establish a direct relationship with farmer communities all over India. Some of our Branded Formulations sold to farmers in the domestic markets are "Jayam", "Progress Plus", "Param", "Cyraplus",

“Dyken”, “Mantra”, “Astron”, “Signor”, “Prompt”, “Cypra”, “Heraban”, “Sarag”, “Alpha Shakti”, “Henox[a]”, “Glory”, “Chakde”, “Heraquat”, “Zinta”, “Glory 71%”, “Shera”, “Pendant”, “Atria”, “Macamba”, “Sulphy”, “Mask”, “Silicon Plus”, “Propizole”, “Vintage”, “Exort”, “Tulip”, “Mandy”, “Silicon”, “Shado”, “Heraphon”, “Temper” and “Rat Kill” among others.

We have three (3) manufacturing and packaging facilities in and around the industrial belt of Vapi, Gujarat having one hundred seventy-two (172) reactors with an aggregate manufacturing capacity of 14,024 MTPA. These facilities will manufacture Intermediates like cypermethric acid chloride, cypermethric acid, MPBD and MPBAL and Technicals like Cypermethrin, Alphacypermethrin, Deltamethrin, Permethrin and Lambda cyhalothrin amongst others and a range of Insecticides, Herbicides and Fungicides Formulations. From four (4) facilities earlier, we have now integrated a facility with Unit I for operational purposes which will exclusively manufacture Intermediates and Technicals and Unit II will continue to manufacture Intermediates and Technicals. Facilities which has been mainly producing Formulations in liquid and powder forms, which are then packed in various sizes as per the required dosage for each crop on a per acre basis dismantled and shifted to Unit III at Sarigam. As a part of our expansion plans, we have in the year 2018 acquired on lease from GIDC around 55,000 sq. mtrs. of land at Sarigam, near Vapi, Gujarat out of which around 22,300 sq. mtrs. is being used for Formulations facility, which will streamline our production by some new reactors and establishing an automated facility for packaging the Formulations. Our new R&D facility at Unit III Sarigam shall become operational from December, 2020. The remaining land shall be utilized at a later stage for manufacturing Intermediates, Technicals and for establishing other administrative facilities. The Sarigam Unit III also has a rooftop solar plant generating 2,66,590 units-kWh per annum for captive consumption. Our manufacturing facilities have been/are being installed with well-balanced effluent treatment systems for solid, liquid and gaseous effluents and emission generated from our processes.

Our Promoters Mr. Sadashiv K. Shetty and Mr. Raghuram K. Shetty are first generation entrepreneurs and have more than three (3) decades of experience in the agrochemicals industry. They have been instrumental in the growth and management of our Company.

Some of our financial details for Fiscal 2020, Fiscal 2019 and Fiscal 2018 are set out below:

(₹ in million)

Particulars	As at March 31, 2020	As at March 31, 2019	As at March 31, 2018
Sales	9513.74	10044.44	7450.95
EBITDA	1458.82	1388.07	931.25
EBITDA Margin	15.33	13.82	12.50
PAT	977.50	754.02	468.76
PAT Margin	10.27	7.51	6.29

Out of our aggregate revenues for the Fiscal 2020, 2019 and 2018, revenues from (a) Domestic Institutional sales of Technicals was ₹3,010.04 million, ₹3,314.59 million and ₹1,963.62 million representing 31.64%, 33.00% and 26.35%; (b) Technicals exports was ₹3,470.90 million, ₹3,965.69 million and ₹3,007.77 million representing 36.48%, 39.48% and 40.37%; (c) Formulations Exports was ₹1,220.62 million, ₹951.58 million and ₹667.38 million representing 12.83%, 9.48% and 8.96%. (d) Branded Formulations was ₹1,205.78 million, ₹1,458.51 million and ₹1,670.72 million representing 12.67%, 14.52% and 22.42%; and (d) Public Health was ₹606.40 million, ₹353.67 million and ₹141.46 million representing 6.37%, 3.52% and 1.90%.

Our Strengths

1. Presence in a wide range of products across the entire value chain of synthetic pyrethroids.

We manufacture Intermediates, Technicals and Formulations which form part of the entire value chain of synthetic pyrethroids and other active ingredients in the agrochemicals business. We are one of the leading domestic producers of synthetic pyrethroids like cypermethrin, alphacypermethrin, deltamethrin, permethrin, lambda cyhalothrin etc. We started manufacturing of Cypermethric Acid Chloride (CMAC) which is a key pre-cursor required to produce pyrethroids in the FY 1995-96 at our facility at Vapi, Gujarat. By the FY 2001-2002, we forward integrated our operations to manufacture Technicals like Metameton, Cypermethrin, Alphacypermethrin, Permethrin and Deltamethrin. In the FY 2004-05 we further expanded our product line to include Formulations to then move on to

launch Formulations under our own brands in the FY 2005-06. This capability of manufacturing Intermediates, Technicals and Formulations and our presence in the entire value chain of synthetic pyrethroids provides us the flexibility to shift between products depending on the demand-supply and pricing dynamics of the domestic and international agrochemicals industry. The range of our business activities i.e. from the manufacturing of Intermediates to the sale of branded Formulations, both in the domestic and international markets, offers ample opportunities to enhance revenue and profitability of our Company. Our product pipeline will further expand once we receive necessary approvals from the CIB&RC for the manufacture and sale in India of thirteen (13) Technicals and Formulations, two (2) Technicals for the export markets and one hundred sixty nine (169) Technicals and Formulations filed for registration by our International Distribution Partners before regulatory authorities in overseas jurisdictions, excluding Europe.

2. Product registrations in the domestic and international markets enabling global outreach.

Our International Distribution Partners, with our product and technical support, have obtained registrations for three hundred and sixty-one (361) Technicals and Formulations in forty (40) countries across the Middle East, CIS, Asia, South East Asia and Africa. Further, one hundred sixty nine (169) of our Technicals and Formulations have been filed by our overseas customers which are pending registration before the regulatory authorities of twenty five (25) countries in various regions across the world, excluding Europe. Our core strength lies in the R&D of Active Ingredients for creating new Formulations, preparing dossiers for national and international registrations of these new Formulations. Our in-house registration team is led by qualified personnel who facilitate the registration process in India with the CIB&RC and our dealers/customers in overseas jurisdictions, including some highly regulated markets like Europe enabling the manufacture and export of a range of Technicals and Formulations in the international markets.

3. Strong product portfolio and wide distribution network.

We manufacture and supply Technicals to leading domestic and multinational agrochemical companies operating in and outside India which are used by them for manufacturing their own products. We supply Technicals like cypermethrin, alphacypermethrin, deltamethrin, permitherin and lambda cyhalothrin to other agrochemical companies in India. Our end customer for our Formulations are the farmers who use our products for crop protection and crop care. We have more than eight thousand six hundred (8600) dealers/distributors supported by our twenty-one (21) stock depots spread across sixteen (16) states and one (1) union territory in the country in order to meet the demand of our products from farmers. We participate in various international and domestic agrochemical exhibitions & industry conferences to market our products. Our sales & marketing teams travel extensively to maintain and strengthen existing relationships with customers and to explore new relationships with potential customers. We educate farmers on the care and protection extended by our products over their crops by conducting farmer training camps, participating in village level programmes and district exhibitions to establish a direct relationship with farmer communities all over India.

4. Diversified and stable customer base

Various domestic and multinational agrochemical companies operating in and outside India are our customers for the Technicals manufactured by us. These include companies like Sumitomo Chemical India Limited, Sulphur Mills Limited, Biostadt India Limited, Crystal Crop Protection Limited, NACL Limited (Formerly Nagajuna Agrichem Limited), Sharda Cropchem Limited, Meghmani Organics Limited, PI Industries Limited, Krishi Rasayan Group, Agro Life Science Corporation and Shanghai Agricare Chemical Co. Limited, China amongst others who use our products to manufacture their own Formulations and other products. We also procure certain Technicals and Formulations from other companies depending on demand and supply and pricing dynamics. This diverse and stable base of customers provide the necessary revenue stability to our Company as not more than 20.85% of our aggregate sales come from our top ten (10) customers.

5. Experienced Promoters and Management Team.

Our Promoters have more than thirty (30) years of individual experience in the agrochemicals sector and are adequately qualified to manage the operations of our Company from manufacturing, exports and marketing. Our Promoters are completely involved in the day to day affairs of our Company and future business strategies. They are also instrumental in the development of new products and markets, both domestic and international. The second generation of our Promoters are also fully involved and taking active interest in the business activities of our Company and have become a part of our management and operations. With the right mix of youth and experience we believe that our Company is poised for growth and evolution in the near future.

Our Strategies

1. Enhancing and streamlining production capacities and operations.

We have three (3) manufacturing and packaging facilities in and around the industrial belt of Vapi, Gujarat with one hundred seventy-two (172) reactors having an aggregate manufacturing capacity of 14024 MTPA. These facilities manufacture Intermediates like cypermethric acid chloride, cypermethric acid, MPBD and MPBAL and Technicals like cypermethrin, alphacypermethrin, deltamethrin, permitherin and lambda cyhalothrin amongst others and a range of Insecticides, Herbicides and Fungicides Formulations. From four (4) facilities earlier, we have now integrated a facility with Unit I for operational purposes which will now exclusively manufacture Intermediates and Technicals and Unit II will continue to manufacture Intermediates and Technicals. Unit III at Sarigam mainly produces Formulations in liquid and powder forms, which are then packed in various sizes as per the required dosage for each crop on a per acre basis. We acquired this land parcel of around 55,000 sq. mtrs. in the year 2018 on lease basis from GIDC, out of which around 22,300 sq. mtrs. has been presently used the Formulations facility being Unit III. We have streamlined our production by adding some new reactors and establishing an automated facility for packaging the Formulations at Unit III. Our new R&D facility at Unit III Sarigam shall become operational from December, 2020. The remaining land shall be utilized at a later stage for manufacturing Intermediates, Technicals and for other establishing administrative facilities. We now have Unit I which is a dedicated facility for manufacturing Technicals, Unit II for derivatives of CMAC and Unit III for liquid and powder Formulations and packaging of Formulations in various sizes and materials.

Our Unit III land parcel of around 55,000 sq. mtrs. is more than three (3) times the land parcel of around 17,500 sq. mtrs. at Vapi, Gujarat. The availability of land for expansion and streamlining of operations will further enhance our revenues and profitability in the near future. In addition to the Sarigam land, we have another parcel of land admeasuring around 34,600 square metres at Saykha, at GIDC – Dahej extension, Gujarat which can be used for further expansion, when required.

The Pyrethroids market in India to grow at a CAGR of 8.5% during 2020-2025, reaching a production volume of 25,398 Tons by 2025. Moreover, the production and consumption value are expected to reach a value of US\$ 462 Million and US\$ 205 Million by 2025, exhibiting a CAGR of 12.5% and 19.6% respectively. For further information, please see “*Industry Overview*” beginning from page95. We believe that our infrastructure and facilities, present and future growth plans will be in line with the growth of the pesticides industry.

2. Developing a new R&D facility at Unit III (Sarigam Unit) for new product development.

In order to enter the highly regulated markets of USA and Europe our Company will have to further enhance its R&D facilities and capabilities. We are establishing a 2,000 sq. ft. R&D facility at Unit III (Sarigam Unit) which will become operational from December, 2020. The new R&D facility will have the latest technology and processes required to conduct research on Active Ingredients and Formulations, mainly of the molecules going off-patent in the near future with some of them going off-patent in 2020 itself. We have also initiated R&D efforts in this direction and 3-4 such new molecules are undergoing R&D tests out of which two (2) products are fungicides which will be effective on rice and wheat crops, two (2) are herbicides and one (1) is an insecticide which will be effective on wheat, rice, cotton and sugarcane, for exclusive sale in the European and USA markets. Once these tests and processes are successfully established, these will be documented in a dossier to be then filed for the purpose of registration in USA, Europe and other overseas jurisdictions through our International Distribution Partners. Registration in USA and EU of a new product generally takes 2-4 years and involves a lengthy and tedious process of submissions, representations and reports with the respective regulatory authorities before approval is finally received from them. We have our in-house R&D team for product development and improvisation which is well supported by our product registration team.

3. Entering the highly regulated markets of USA and Europe.

Various Technicals will be going off-patent in the near future and some of them are going off-patent in the year 2020 itself, which may lead to a good demand for the generic versions of these molecules across the world, especially in the highly regulated markets of USA and Europe. To exploit these opportunities, we will have to enhance our ability and capabilities with respect to R&D and registrations of the generic versions of these molecules and related formulations in USA and Europe. We believe there is significant growth potential in these markets with higher margins for our existing and new line of products. We believe that our knowledge of the generic agrochemical markets, existing dossiers and registrations across the world will enable new registrations in these highly regulated markets. Our International Distribution Partner in Europe has already received registration for Deltamethrin Technical and applications for registration of Lambda Cyhalothrin Technical, Alpha Cypermethrin Technical and Metribuzin Technical is in process before the relevant authority in EU. Our International Distribution Partner in the USA has also applied for registration of Lambda Cyhalothrin Technical manufactured by our Company as another source of supply to their existing registration for this product.

4. Enhancing Formulations & Technicals business in the international markets.

Sales in the international markets require registrations of our Formulations with the respective regulatory authorities in various overseas jurisdictions. Our International Distribution Partners are required to file the application along with various details of the Formulations with the respective regulatory authority. Our Company is named in the application as the manufacturer of the Formulation and are required to provide the chemical composition details and documents to the local dealer/customer to support the process of registration. We intend to leverage our existing relationships in the international markets where we are already present for new products and develop new relationships in the markets where we are not yet present on the strength of the quality and range of our products. Wider range of Formulations and higher number of registrations is the mantra for increased international sales. Typically, sales of Formulations in the international markets is undertaken by way of tie-ups with International Distribution Partners who import our Formulations, in bulk or final packages, after registration with the local regulatory authority, and sell them mostly under their own brands in their markets. The name of our Company appears on the label of the package of the product as the “source” or “manufacturer” of these products meant for sale in a country. We are required to comply with the local packaging disclosure requirements for the direct export and sale of our Formulations. The manufacture and supply of Technicals is mostly based on demand and supply dynamics in the international markets. Our International Distribution Partners present in these markets regularly provide us the information on the demand and supply situation and place orders accordingly. Company officials are in regular contact with them and extensively travel to these countries and regions to understand the demand and supply patterns which are different for each region depending upon the rainfall and agriculture seasons across the world. With a total product profile of ninety-three (93) Technicals for export and total product profile of one hundred sixty seven (167) of Technicals and Formulations registered in the international markets by our International Distribution Partners, we are well placed for growth in the international markets. We expect the global Pyrethroids market to grow at a CAGR of 6.38% in terms of value, during 2020-2025, reaching a value of US\$ 4,068 Million by 2025. Pyrethroids serve as a cost-effective alternative to the conventionally used insecticides. For further information, please see “*Industry Overview*” beginning from page 95.

5. Branded Formulations and Public Health products segment.

As part of our further growth strategy we intend to focus on manufacturing and sales of Formulations under our won brands in India and the manufacturing and marketing of Public Health products. Some of our Branded Formulations have already established themselves and have a high recall value amongst farmers. Some of our known brands “Jayam”, “Progress Plus”, “Param”, “Cypraplus”, “Dyken”, “Mantra”, “Astron”, “Signor”, “Prompt”, “Cypra”, “Heraban”, “Sarag”, “Alpha Shakti”, “Henoxa”, “Glory”, “Chakde”, “Heraquat”, “Zinta”, “Glory 71%”, “Shera”, “Pendant”, “Atria”, “Macamba”, “Sulphy”, “Mask”, “Silicon Plus”, “Propizole”, “Vintage”, “Exort”, “Tulip”, “Mandy”, “Silicon” among others.

On the Public Health side, our products include general insect control, termiticide, larvicide, indoor residual spray, rodenticide and cockroach gels which are Formulations of synthetic pyrethroids. Public Health products are supplied to municipal corporations and government bodies/agencies through the bidding process of tenders issued by them for public health purposes like controlling the spread of malaria, filaria, dengue and such other parasitic diseases. These products are also supplied to pest control companies which spray them at residential and commercial premises like warehouses and godowns. Our Company has been able to successfully bid for government tenders issued by central and state governments agencies and municipal corporations as we meet their eligibility criteria viz. quality of products, capability of supplying large volumes and track record. We normally supply these products under our own brands like “Temper” and “Rat Kill” or in bulk form as maybe required by them.

Our key business segments

Our business verticals include (a) *Domestic Institutional sales of Technicals*: manufacturing and selling of Technicals in bulk to domestic companies; (b) *Technicals exports*: Exports of Technicals in bulk to customers outside India; (c) *Branded Formulations*: Manufacturing and selling of Formulations under our own brand through distribution network presence in India; (d) *Formulations Exports*: Export of Formulations in bulk and customer specified packaging outside India; and (e) *Public Health*: Manufacturing and selling of general insect control chemicals by participating in the public health tenders issued by governmental authorities and selling to pest management companies.

- a) **Domestic Institutional Sales of Technicals**: Our Company manufactures and sells Technicals to companies, both domestic and multinational, based out of India. We manufacture and supply Technicals to leading domestic and multinational agrochemical companies operating in India which are used by them for manufacturing their own products. We supply Technicals like cypermethrin, alphacypermethrin, deltamethrin, permitherin and lambda cyhalothrin to other agrochemical companies in India. Some of the companies to whom we supply Technicals in India are Sumitomo Chemical India Limited, Biostadt India Limited, Sulphur Mills Limited, Crystal Crop Protection Limited, NACL Limited (*Formerly Nagajuna Agrichem Limited*), Sharda Cropchem Limited, Meghmani Organics Limited, PI Industries Limited, Agro Life Science Corporation, Krishi Rasayan Group amongst others. Our total Domestic Institutional Sales of Technicals for FY 2020, FY 2019 and FY 2018 was ₹3,010.04 million, ₹3,314.59 million and ₹1,963.62 million representing 31.64%, 33.00% and 26.35%, respectively.
- b) **Technicals Exports**: We export Technicals in bulk to customers outside India to various agrochemical companies across the world. We exclusively manufacture ninety-three (93) Technicals for export purposes only and have received necessary approvals from the CIB&RC in relation to the same. We export Technicals to certain multinational companies like Shanghai Agricare Chemical Co. Limited, China amongst others. We have filed applications before the CIB&RC for registration of two (2) Technicals for the export markets. Our total exports of Technicals for FY 2020, FY 2019 and FY 2018 was ₹3,470.90 million, ₹3,965.69 million and ₹3,007.77 million representing 36.48%, 39.48% and 40.37%, respectively.
- c) **Branded Formulations**: We manufacture and sell various Formulations of Insecticides, Fungicide, Herbicides and Public Health under our own brand through our distribution network present across India. We have more than eight thousand six hundred (8,600) dealers having access to twenty-one (21) depots of our Company across 16 states and 1 union territory in India supporting the distribution of our products. Some of the known Branded Formulations for Insecticides are “Jayam”, “Progress Plus”, “Param”, “Cyraplus”, “Dyken”, “Mantra”, “Astron”, “Signor”, “Prompt”, “Cypra”, “Heraban”, “Sarag”, “Alpha Shakti”, “Henoxa” “Glory”, “Chakde”, “Heraquat”, “Zinta”, “Glory 71”, “Shera”, “Pendant”, “Atria”, “Macamba”, “Sulphy”, “Mask”, “Silicon Plus”, “Propizole”, “Vintage”, “Exort”, “Tulip”, “Mandy”, “Silicon”, “Shado”, “Heraphon”, “Temper” and “Rat Kill” among others. Our total exports of Branded Formulations for FY 2020, FY 2019 and FY 2018 was ₹1,205.78 million, ₹1,458.51 million and ₹1,670.72 million representing 12.67%, 14.52% and 22.42%, respectively.
- d) **Formulations Exports**: Our Company exports Formulations in bulk and in customer specified packaging outside India. Sales of Formulations in the international markets is generally undertaken by way of tie-ups with our International Distribution Partners who import our Formulations, in bulk or final packages, after a prolonged and detailed registration process in their respective country’s regulatory authority. Our Formulations are mostly sold by our International Distribution Partners under their local brands in these markets. The name of our Company appears on the label of the package of the product as the “source” or “manufacturer” of these products meant for sale in a particular country. We are required to comply with the local packaging disclosure requirements for the export and sale of these Formulations. Our total exports of Formulations for FY 2020, FY 2019 and FY 2018 was ₹1,220.62 million, ₹951.98 million and ₹667.38 million representing 12.83%, 9.48% and 8.96%, respectively.
- e) **Public Health**: We also manufacture and sell general insect control chemicals to governmental authorities like municipalities by participating in public health tenders issued by them and to pest management companies. We entered this business segment in the FY 2010-11. We normally supply these products under our own brands like Alpha Shakti-5WP, Temper EC, Deltaflow or in bulk form as maybe required by them. Our total exports of Public Health for FY 2020, FY 2019 and FY 2018 was ₹606.40 million, ₹353.67 million and ₹141.46 million representing 6.37%, 3.52% and 1.90%, respectively.

Our Journey

In the year 1996 we started manufacturing the Intermediate CMAC. By FY 2002 we had forward integrated into the manufacturing of Technicals, primarily made from the raw material CMAC and other Intermediates like cypermethric acid, metaphenoxy benzaldehyde and metaphenoxy benzyl alcohol. We developed a product portfolio of synthetic pyrethroids

like cypermethrin, alphacypermethrin, deltamethrin, permethrin, lambda cyhalothrin etc. which are used for captive consumption to manufacture Formulations and are sold in bulk to domestic and international customers. Synthetic pyrethroids are Pesticides derived from naturally occurring pyrethrins and is synthetically made by industrial methods. These Technicals are highly concentrated solutions and cannot be used directly for agricultural purposes. These Technicals are usually formulated with inert Ingredients like emulsifier and petroleum-based solvents and then sold for use to farmers for crop protection and crop care by way of further dilution at the time of use. Formulations improve the properties of a chemical for handling, storage, application and may substantially influence effectiveness and safety. We forward integrated into the manufacturing of Formulations by the FY 2004-05 and into our own Branded Formulations in the FY 2005-06. Formulations are sold in three forms of variant solid, liquid and powders. Presently, we sell our Branded Formulations through our own distribution network managed by a skilled sales force. We have more than eight thousand six hundred (8,600) dealers and twenty-one (21) depots in sixteen (16) states and one (1) union territory across India that support us in the distribution of our Formulations to the farmers. In the FY 2020, we exported Technicals and Formulations to more than sixty (60) countries in the international markets. Technicals are sold in bulk packaging and Formulations are sold both in bulk packaging and customer specified packaging.

Intermediates manufactured are for our own captive consumption for manufacturing various Technicals and Formulations. We now manufacture Intermediates, Technicals and Formulations i.e. the entire value chain of the agrochemicals industry.

Our Major Products

Technical Grade Pesticides/Technicals:

Insecticides:

Insecticides are substances used to kill insects. They include ovicides and larvicides used against insect eggs and larvae, respectively. Insecticides are majorly used in agriculture. We manufacture the following insecticides:

Cypermethrin, Deltamethrin, Alpha Cypermethrin, Acephate, Dichlorvos, Lambda Cyhalothrin, Methamidophos, Permethrin, Profenophos, Temephos, Theta Cypermethrin, Thiamethoxam and Imidacloprid.

Fungicide:

Fungicides are biocidal chemical compounds or biological organisms used to kill parasitic fungi or their spores. A fungistatic inhibits their growth. Fungi can cause serious damage to crops, resulting in critical losses of yield, quality and profit. We manufacture the following Fungicides:

Tricyclazole and Hexaconazole

Herbicides:

Herbicides also commonly known as weed killers, are substances used to control unwanted plants while leaving the crop relatively unharmed. We manufacture the following Herbicide:

Glyphosate, Metribuzin & Clodinafop.

Intermediates:

An intermediate is a molecule that is formed from two or more reactants and then reacts further to give products. Most chemical reactions require more than one step and an intermediate is the product of each step, except for the last one, after which the final products are produced. We manufacture the following Intermediates:

Cypermethric Acid Chloride (CMAC), High CIS CMA, High CIS CMAC, High Trans CMA, High Trans CMAC, Bromobenzenes, Metaphenoxy Benzaldehyde (MPBD) and Metaphenoxy Benzyl Alcohol (MPBAL).

Formulations:

A pesticide formulation is a mixture of chemicals which effectively control a pest. Formulating a pesticide involves processing it to improve its storage, handling, safety, application, or effectiveness. Formulations and branding of formulations is a forward integration to our Technicals business.

Our major Branded Formulations include:

i. Insecticides:

Jayam, Progress Plus, Param, Cyraplus, Dyken, Mantra, Astron, Signor, Prompt, Cypra, Heraban, Sarag, Alpha Shakti and Henoxa.

Name of the Product	Indicative Use on Crops
Jayam	Non systemic insecticide with contact and stomach action, and repellent properties.
Progress plus	Broad spectrum insecticide with contact and stomach action with quick knockdown effect.
Param	Broad spectrum insecticide with contact and stomach action with quick knockdown effect.
Cyraplus	Non systemic insecticide with contact and stomach action.
Dyken	Systemic insecticide with contact and stomach action
Mantra	Systemic insecticide with translaminar activity with contact and stomach action.
Astron	Broad spectrum fungicide with good preventive & curative properties which provides flexibility & broad window of application.
Signor	Non systemic insecticide with contact and stomach action, having a slight repellent effect.
Prompt	Broad spectrum systemic insecticide with contact and stomach action.
Cypra	Non systemic insecticide with contact and stomach action.
Heraban	Non systemic insecticide with contact and stomach and respiratory action
Sarag	Systemic insecticide and acaricide with contact and stomach action.
Alphashakti	Non systemic insecticide with contact and stomach action
Henoxa	Insecticide active by contact and ingestion. Affected insects cease feeding, with poor coordination, paralysis and ultimately death.

ii. Herbicides:

Glory, Chakde, Heraquat, Zinta, Glory 71, Shera, Pendant, and Atria.

Name of the Product	Indicative Use on Crops
Chakde	Post emergence, systemic grass herbicide. Phytotoxic symptoms appear within 1-2 weeks, effecting meristematic tissue.
Heraquat	Non-selective contact herbicide, absorbed by the foliage with some translocation in the xylem.
Zinta	Selective pre emergence broad spectrum herbicide with excellent action against annual grasses, sedges and broad leaves weeds.
Glory 71	Non- selective systemic herbicide, absorbed by the foliage, with rapid translocation throughout the plant.
Shera	Systemic herbicide, absorbed by the roots and foliage.
Pendant	Selective herbicide absorbed by roots and leaves.
Atria	Selective systemic herbicide, absorbed principally through the roots and foliage

iii. Fungicides

Macamba, Sulphy, Mask, Silicon Plus, Propizole, Vintage, Exort, Tulip, Mandy and Silicon.

Name of the Product	Indicative Use on Crops
Macamba	Broad spectrum, systemic and contact fungicide with protective and curative action.
Sulphy	Non systemic protective fungicide with contact and vapour action.
Mask	Systemic fungicide absorbed rapidly by the roots and foliage and translocated in the xylem and apoplast within the plant.
Silicon plus	Systemic fungicide with protective and curative action.
Propizole	Systemic foliar fungicide with protective and curative action, with translocation acropetally in the xylem.
Vintage	Broad spectrum, systemic and contact fungicide with protective and curative action.
Exort	Non systemic antibiotic with fungistatic action
Tulip	Systemic fungicide with protective and curative action.
Mandy	Broad spectrum, systemic and contact fungicide with protective and curative action.
Silicon	Systemic fungicide with protective and curative action.

iv. Public Health

These products include general insect control, termiticide, larvicide, indoor residual spray, rodenticide and cockroach gels which are formulations of certain generic active ingredients like synthetic pyrethroids. Our Branded Formulations in this space are:

Temper and Rat Kill.

Name of the Product	Indicative Use
Temper	Organophosphate Insecticide in control of Mosquito larvae
Rat kill	Anticoagulant Rodenticide

- v. **Plant Growth Regulator (PGR):** A small but growing segment of our business is PGR which is a natural or synthetic chemical that is sprayed or otherwise applied to a seed or plant to alter its characteristics. They are sometimes referred to as plant hormones. PGRs can be used on crops to achieve a desirable goal, ranging from increasing insect and disease resistance to increasing root strength. Some PGRs also are used to stunt growth. Not all plant growth regulators are designed to foster faster growth. Some are designed to slow down growth and keep young plants compact for easier transplantation for longer periods. We have two Branded Formulations of PGRs mentioned below:

Name of the Product	Indicative Use
Shado	Supplement for healthy plant growth
Heraphon	Plant Growth Regulator

Usage of our Key Technicals:

1. *Cypermethrin:* This is a wide spectrum insecticide to control crop damaging insects in all range of fruits, vegetables, cotton and other crops. It is also used to control flies and other insects in animal houses. It has application in public health against mosquitoes, cockroaches, houseflies, etc.
2. *Alphacypermethrin:* This is non systemic insecticide used for the control of a wide range of chewing and sucking insects in agricultural crops like cotton rice, potatoes, oilseeds, etc. used in public health for the control of harmful insects.
3. *Permethrin:* An insecticide effective against broad range of pests. Used as preservation against insects and pests.
4. *Deltamethrin:* This is a highly effective insecticide used in low dosages. It has both crop protective usages like the above and also effective in the Public Health segment. It is used as a preservative in grain storage and is effective against wood pests.
5. *Lambda Cyhalothrin:* A wide range pesticide used in agricultural crops.

Plant & Machinery

We have three (3) manufacturing and packaging facilities in and around the industrial belt of Vapi, Gujarat having one hundred seventy-two (172) reactors with an aggregate manufacturing capacity of 14024 MTPA. These facilities will manufacture Intermediates like cypermethric acid chloride, cypermethric acid, MPBD and MPBAL and Technicals like Cypermethrin, Alphacypermethrin, Deltamethrin, Permethrin and Lambda cyhalothrin amongst others and a range of Insecticides, Herbicides and Fungicides Formulations.

Various machinery and equipment have been installed at our Units I, II and III. Some of the equipment that has been installed is set out below:

Number of Equipment	Equipment	Capacity
77	Glass lined reactors	3000 to 20,000 (In Ltrs.)
83	S.S 306 and 316 Reactors	3000 to 17,000 (In Ltrs.)
12	MS Reactors, MS Tile Lined Reactors and HDPE Reactors	4,000 to 25,000 (In Ltrs.)

Number of Equipment	Equipment	Capacity
67	Storage Tanks	5000 to 50,000 (In Ltrs.)
89	Day Tanks	500 to 70,000 (In Ltrs.)
108	Receivers	630 to 20,000 (In Ltrs.)
15	Receiver type filters	2,500 to 5,000 (In Ltrs.)
130	Condensers	10M ³ to 50M ³
196	Pumps	2 m ³ /per hr to 260 m ³ /per hr
50	Ejectors (Steam, Water and Four Stage Steam jet)	1670 m ³ /hr at 2 TR
7	Air Compressors	40 (6 kg/cm ²) to 260 (9 kg/cm ²)
3	N ² Plants	10 Nm ³ /hr to 30 Nm ³ /hr
3	Boilers	2 Ton/hr to 5 Ton/hr
11	Boiler Accessories	Various capacities
14	Utility Compressors	40 TR to 150 TR
23	Utility Cooling Towers	100 TR to 999 TR
7	RO Plant	6KL/hr
17	MEE Plant	200 kl/per day
23	ETP	5 KL per day
53	Heat Exchangers	2m ² to 30m ²
22	ETP Equipment	2,000 to 22,000
14	Electrical Equipment	250A to 1500 KVA
40	Other Equipment	Various capacities
19	Laboratory Equipment	Various capacities
27	Powder Packing Machines	5 gm to 5 kg
21	Weighing Balance (Powder)	1kg to 100 kg
57	Liquid Formulations (Packing Machines)	0.50 to 1 (In Ltrs.)
3	Weighing Balance (Liquid)	1 kg to 500 kg

Technology

Our Company uses technology in most of its functions and operations for achieving efficiency in the production, management, and administrative processes. We have installed one hundred seventy-two (172) reactors (*glass lined, S.S.*

306 & 316 and various MS Reactors, MS Tile Lined Reactors and HDPE Reactors) which is the primary equipment for the production process of Intermediates, Technicals and Formulations. These reactors are carefully designed by third party manufacturers considering process intricacies and safety parameters, including pollution control requirements. Our R&D laboratory is fully equipped with modern equipment to ensure that our R&D team is well supported by technology to develop new products. Technology is further required in sampling and quality control tests before the final product is taken up for production on the floor. We also have testing facilities and application equipment to evaluate the product's performance.

ERP System:

We have installed Microsoft Navision 2013 ERP platform since the year 2015 for accounting and other operational systems. This ERP system integrates the following operations:

- All manufacturing facilities Units, Corporate Office, Administration Office and depots are connected online
- On this platform all manufacturing facilities, Corporate Office, Administration Office and depots work as separate operational segments
- At the FY or whenever required all trial balances are merged and consolidated accounts are prepared

Even though the ERP Navision has system driven authorisation modules, at present except for the credit control measures, all other authorisations are done manually. We will be activating the system-based authorisations for other activities as well.

We have not entered into any technology agreement as the technology used by us in manufacturing our products is generic or standard industry technology and widely used by the agrochemicals industry in India and the international markets.

Collaborations

We have not entered into any technical or other collaborations with any entity.

Process

Manufacturing process

We manufacture a wide range of products and each product has its own unique manufacturing process. For example, liquid formulations have a completely different process whereas, powder and prills have their own unique way of processing. Manufacturing of agrochemicals requires high degree of knowledge about key chemical reactions that need to be executed on a commercial scale for mass production. Our manufacturing process for Pesticides mainly includes:

- Ammonolysis
- Esterification
- Hydrolysis
- Condensation
- Favorski Reaction
- Isomerisation
- Cyanation
- Friedel Crafts
- Methoxylation
- Cyclisation
- Halogenation

We started our manufacturing activity with production of an intermediate product CMAC. By FY 2001-02 we gradually started manufacturing Technicals like, cypermethrin, alphacypermethrin, deltamethrin, permithrin, lambda cyhalothrin etc. in which CMAC was the main raw material. Over the years we have scaled up the manufacturing of Intermediates, Technicals and Formulations which form part of the entire value chain of the agrochemicals industry.

Generic Active Ingredients

The process of manufacturing can be classified broadly into three (3) stages viz., reaction, purification and final blending and packing.

Reaction: This is the stage at which the Bromine Source or other elements are introduced into the molecule. This chemical reaction is known as halogenation. Bromine is a highly corrosive element and, accordingly, the process of halogenation

takes place in a glass lined reactor. The size of reactors used in different manufacturing processes range from 5000 litres to 12,500 litres depending on the desired batch volume.

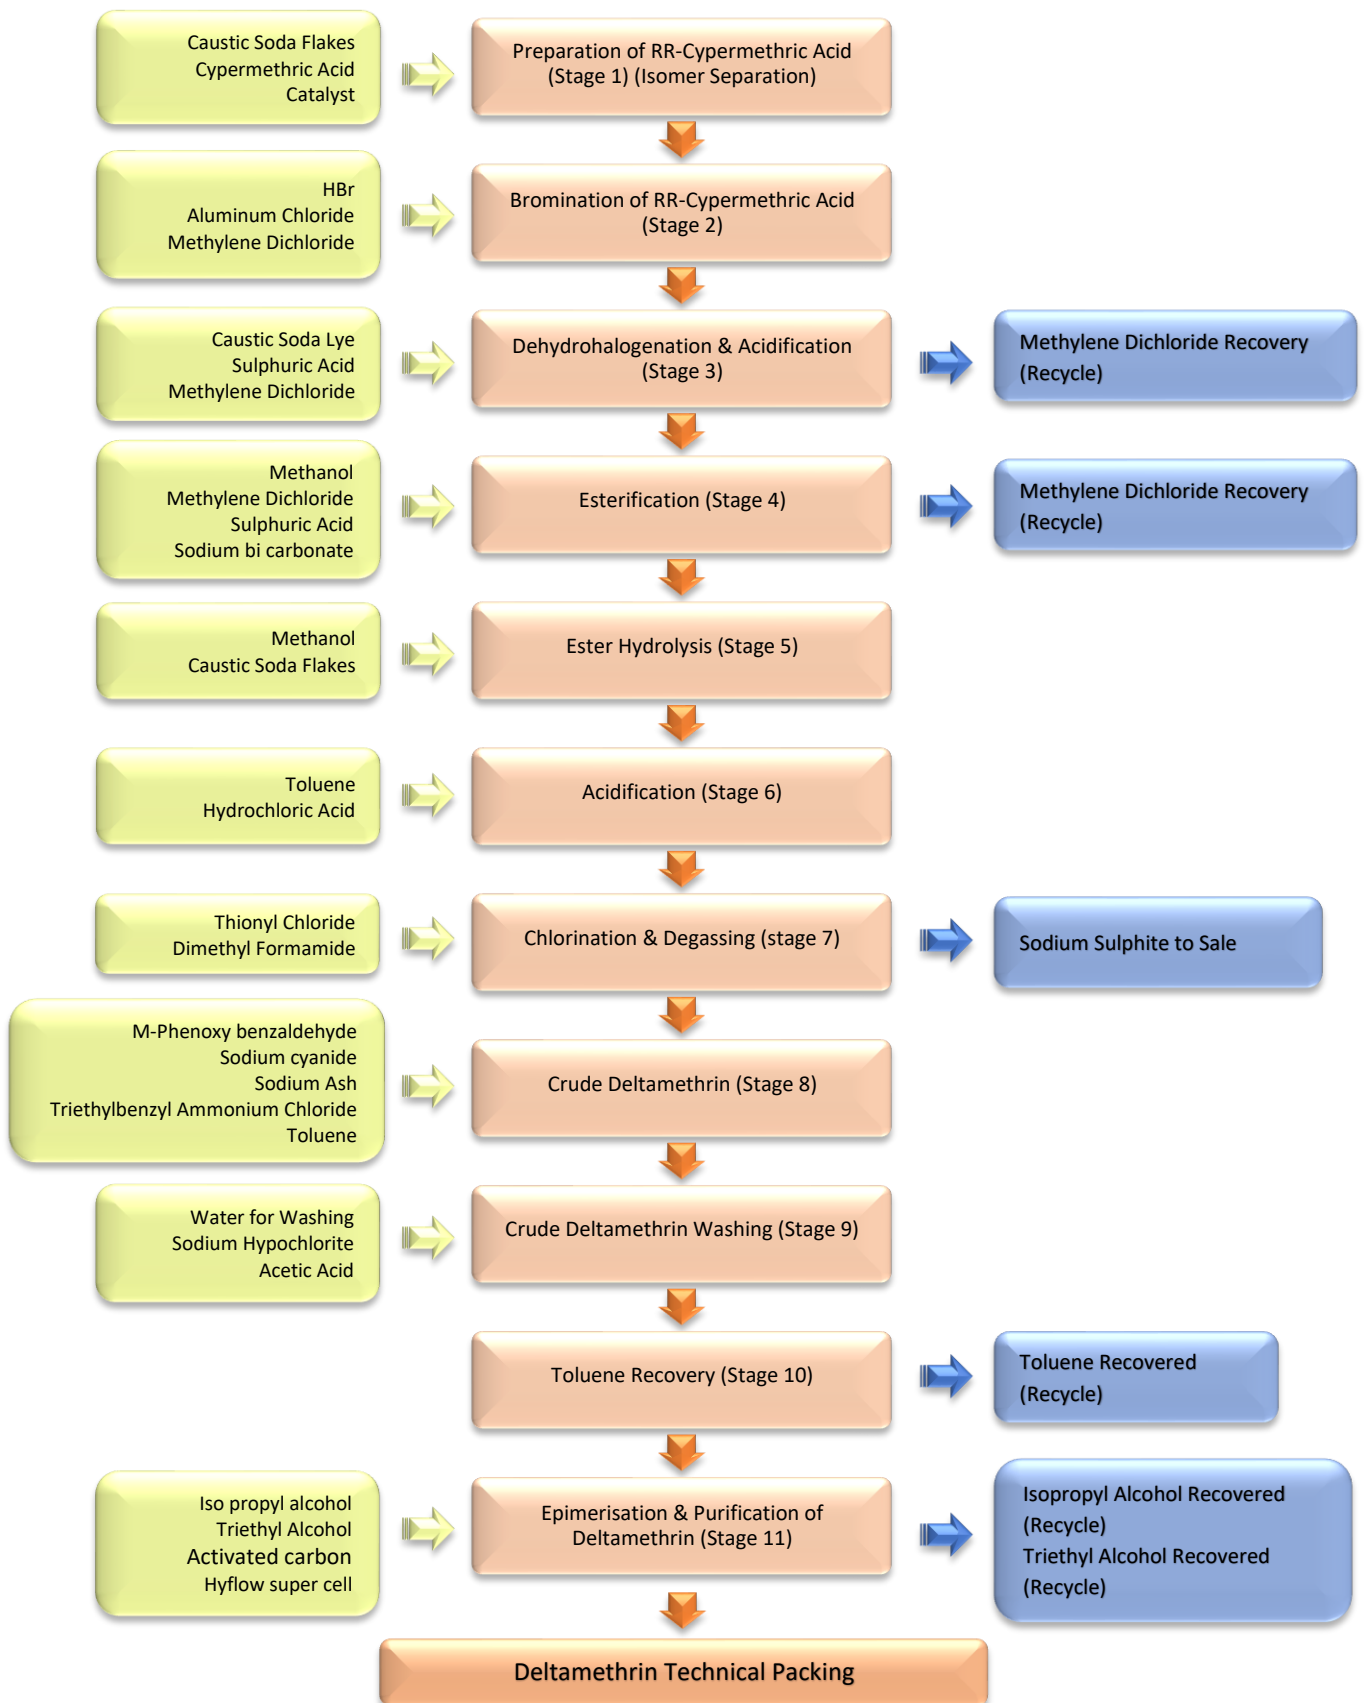

Purification: The process of purification varies depending on the nature of the product. In case of liquid products, the purification process involves vacuum distillation, atmospheric distillation, water wash etc. whereas where the product is solid in nature, the process of purification involves crystallisation, filtration, centrifuge, drying etc.

Final blending and packing: The purified material is blended in glass lined or stainless-steel reactor to make a uniform homogeneous batch and then packed into drums or IBCs suitable for storing final product.

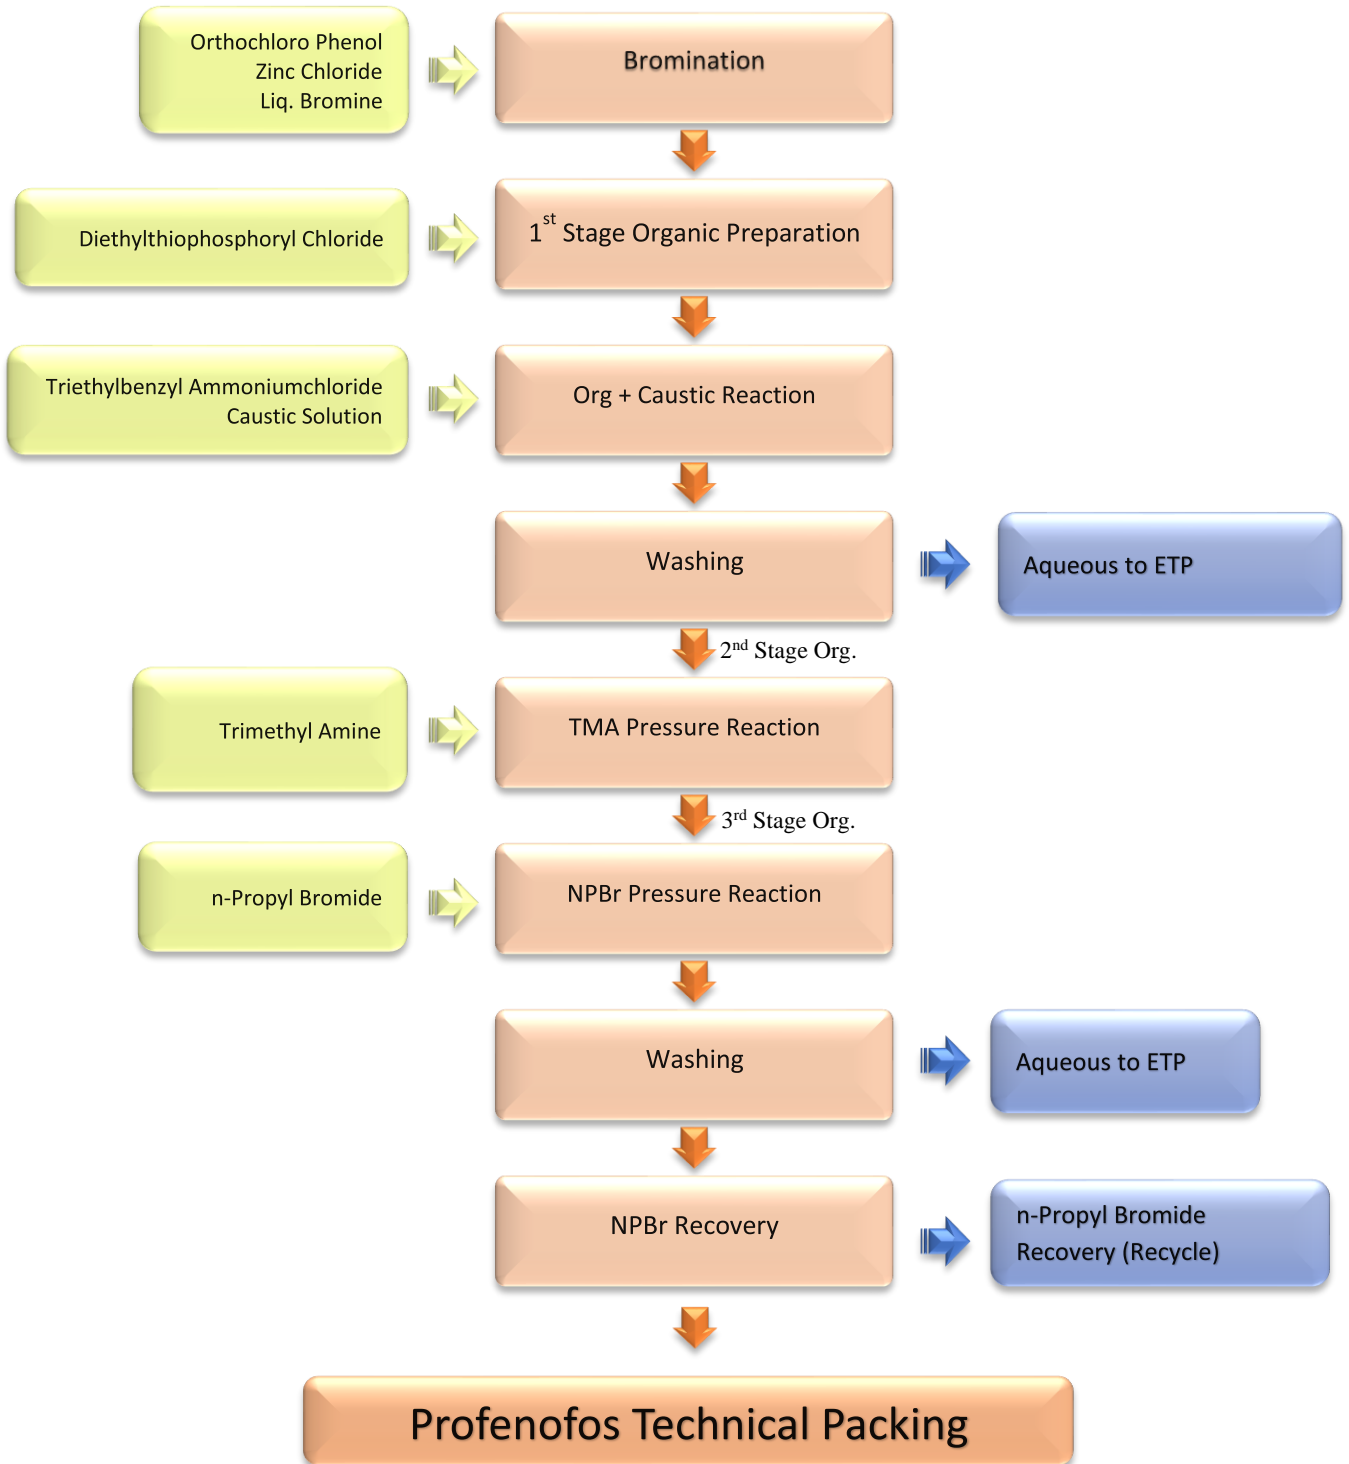

A majority of the products manufactured by us are liquid in nature. Accordingly, a generic manufacturing process flow for the manufacture of a liquid product involving in a 2-stage reaction followed by purification of a product is graphically represented below.

The process flow chart of the major products is set out below:

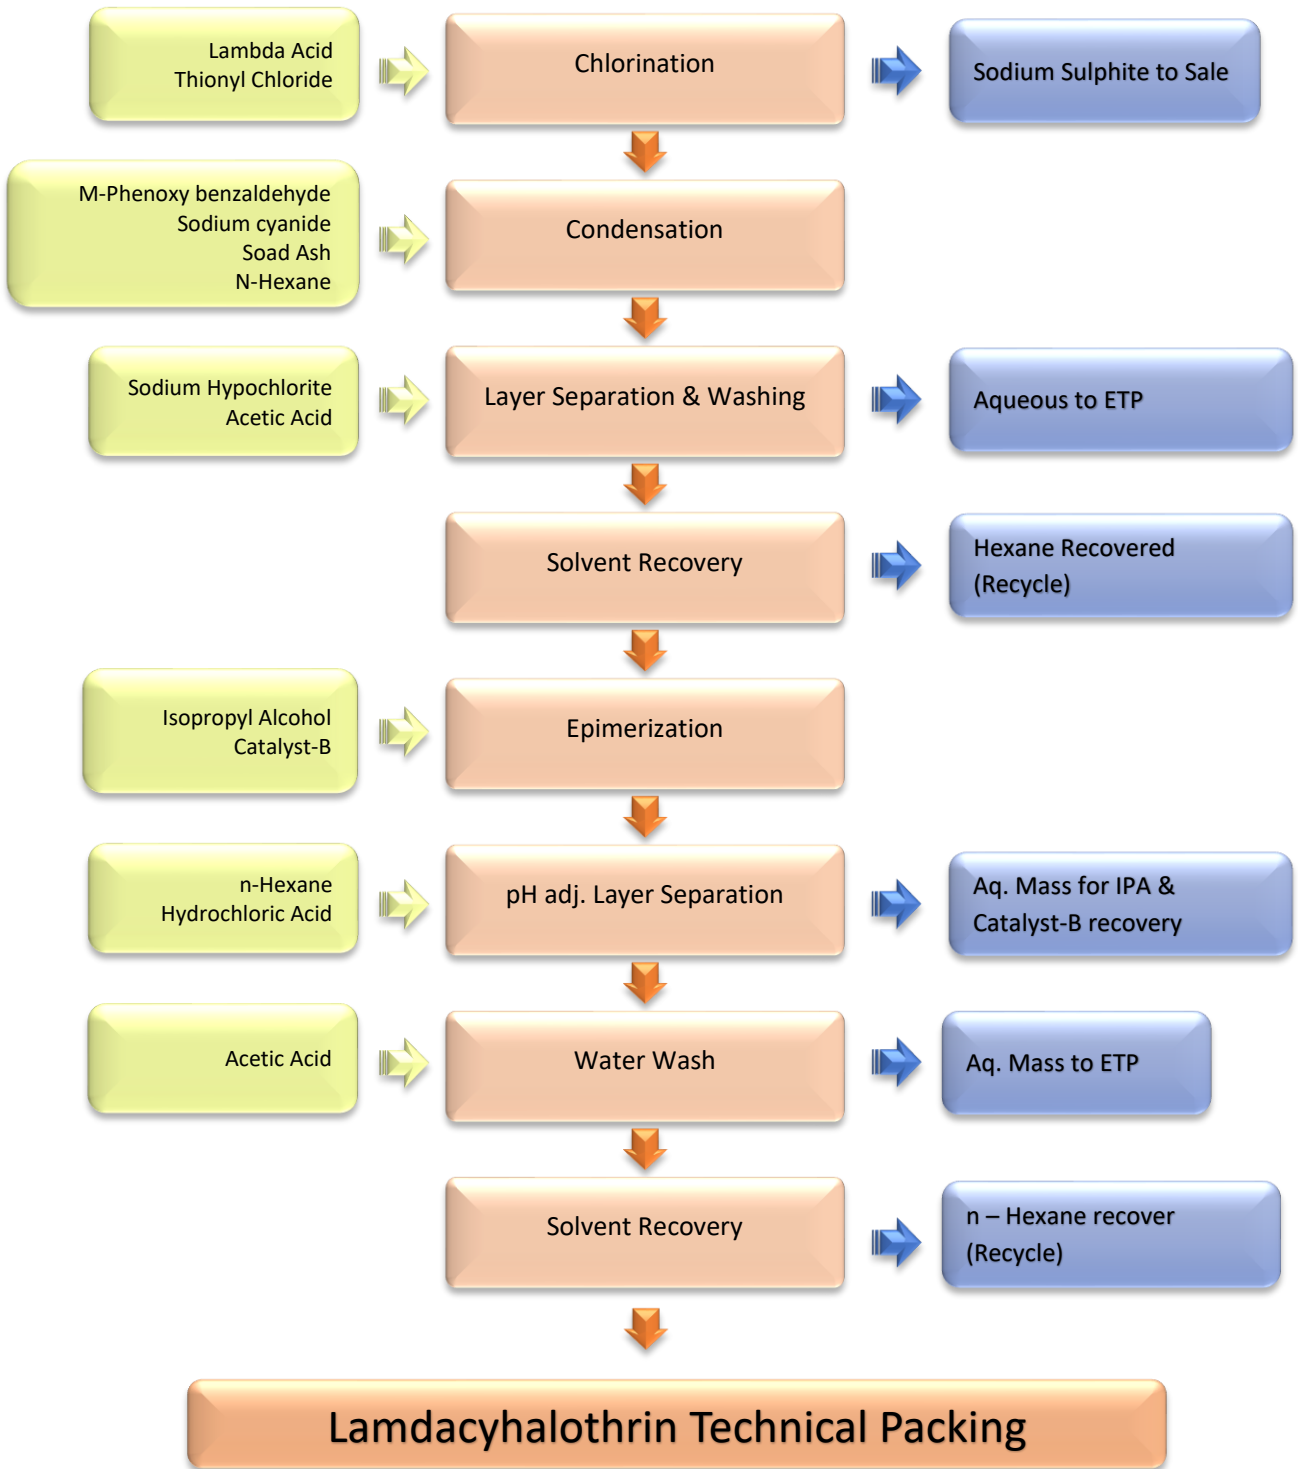

Deltamethrin Technical Process Flow

Raw Materials:

Our Company uses many chemicals as raw materials for manufacturing their products. The key raw materials are sourced from domestic companies, local suppliers and some of them are imported by our Company mainly from China. Our key domestic suppliers are SRF Limited, Crescent Organics Private Limited, Gujarat Flourochemicals Limited, Gujarat Alkalies and Chemicals Limited, Sanjay Chemicals (India) Private Limited, Haresh Petrochem Private Limited, M.B. Sales Corporation and Akin Chemicals Private Limited amongst others. We set out below our costs of raw materials compared with our aggregate revenue for FY 2020, FY 2019 and FY 2018:

Particulars	FY 2020	FY 2019	FY 2018
Total Revenue	9,679.06	10,118.38	7,504.10
Cost of materials consumed	6,397.80	7,083.55	4,970.07
% of Total Revenue	66.10%	70.01%	66.23%

The main raw materials imported and domestically procured by us are:

Raw Material (Import)	
CCMT - 2-CHLORO-5-CHLORO METHYL THIAZOLE 98% MIN	OCP -Ortho Chlorophenol
Methyl-4-Nitroimino perhydro 1,3,5-Oxadiazine 98.5%	4HMBT - 2-Hydrazine-4-Methyl-Benzothiazole
Triazione -4-Amino-6-(Tert-Butyl)-3-Mercapto-1,2,4-Triazin-5(4H)-one 97.0% min	Dippi -13-DIISOPROPYL-2-ISOTHIOCYAN-5-PHENOXYBENZEN
Bifenthrin Alcohol	Imidacloprid Tech 95%
Lambda-cyhalothrin	Formic Acid
RHPPA - (R)-(+)-2(4-Hydroxyphenoxy) propionic 99% min	TFP Acid - Lambda Cyhalothric Acid 99%
CDFP - 5-Chloro-2,3-difluoropyridine 96% min	DETCL - O, O-Diethylthiophosphoryl Chloride
Dimethyl Sulfide	Epoxiconazole Tech 97%
Paraquate Dichloride	Bromine
Sodium Salt of Tri Chloropyridinol	Sodium Salt of Trichloro Pyridinol (NATCP)87% min
DMPAT (DIMETHYL PHOSPHORO AMIDO THIOATE)	Benzaldehyde
Sodium Cyanide 98%	

Raw Material (Domestic)	
4-Methyl-2 -Hydrazino Benzothiazole (4hmbt)	Imidachloprid Technical
Acetamiprid Techncl	Iso Butylene
Acetic Anhydride	Iso Propyl Alcohol
Acrylonitrile	Lactose

Raw Material (Domestic)	
Alluminium Chloride	Liquid Bromine
Benzene	Liquor Ammonia
Butachlor Technical	Mancozeb
Carbendaziam	Meta Phenoxy Benzyl Alcohol (Mpbal)
Carbon Tetra Chloride	Meta Phenoxy Benzaldehyde (Mpbd)
Cartap Technical	Monocrotophos Technical
Caustic Soda Lye	N-Methyl Pyrrolidone
China Clay	Ortho Chloro Phenol
Chloral	Pendimethalin Technical
Chlorpyriphos Tech	Profenofos
Cyclohexanone	Phosphoric Acid
Di Iso Propylamine (Dipa)	Pmida
Di Methyl Sulphoxide	Polyvinyl Pyrrol Idone (Pvpk)
Diethyl Thiophosphoryl Chloride	Precipated Silica
Dimethyl Cyclopropas Carboxylic Acid (Tfp Acid)	Pretilaclor Tech
Dimethyl Sulphate	Propiconazole Tech
Dmpat	Quinolphos Tech
Emulsifiers, Surfactants, Excepients For Ec's, Wp's, Sc's, Granules, Formulations	Sodium Cyanide
Endosulfan Tech	Solvent C9
Ethion Tech	Sulfosulfuron
Ethyl Acetate	Sulphur 80 Wdg
Formic Acid	Temephos Tech
Hexaconazole Tech	Thionyl Chloride
Hexane	Toluene
Hydrogen Peroxide	Tri Methyl Phosphite
Triazophos Tech	Trimethylamine
Triethylamine	Zinc Phosphide
	Solvent C9

The raw materials are required to undergo a quality check before they are accepted for use in our manufacturing facilities. The raw materials are stored under conducive conditions, depending upon the nature of the product. To reduce material handling, damage and easy accessibility raw materials are mainly stored and consumed by us in FIFO system.

Our raw materials are generally available from various domestic and international suppliers and are procured on a need basis, depending on the orders on hand and the estimations of the production and marketing team. We have not entered into any long-term contracts in relation to the sourcing of raw materials and supply is generally based on an estimate of 2-3 months of manufacturing schedules. We have adequate storage facilities at our Units to store of various chemicals, raw materials and finished products.

Packaging Material:

Depending on the product that needs to be packed, the destination of delivery and the mode of transport viz. road, rail, air or water, our products are usually packed in the following materials:

Alluminium Bottles	HDPE Bottles
Bi-Laminate & Tri Laminate Flexible Pouches	HM Hdpe Drums
Composite Barrels	Labels
Corrugated Boxes	Lacquered Barrels
Duplex Cartoons	Leaflets
Fibre Drums	Pet Bottles

Packaging of our products is an important function in our business cycle as most of our products fall under the purview of “hazardous chemicals” and need to be packed appropriately to avoid any pilferage and damage to the products. Since most of our products, especially the Technicals are in liquid form, various types of HDPE, HM HDPE drums, composite barrels and fibre drums are used for packaging. Formulations that are sold in the domestic markets through our dealers/distributors to the farmers are generally packed in aluminum bottles, pouches, boxes and pet bottles. Our Public Health products are generally supplied in bulk and are appropriately packed in bottles and drums. These packages generally include a leaflet or is set out of the package itself the method of using the product in both local and national languages.

Utilities

Our Company mainly requires the following utilities:

Power

We draw power from GEB for running our Units. Each of our Units has been allocated a power connection from the GEB which is adequately supplied as per our requirement.

Unit I

DGVCL power connection - 3300 KVA

Unit II

DGVCL Power Connection: 1300 KVA

Unit III, Sarigam

GEB Power Connection: 750 KVA

DG Power – In addition to the power supplied by GEB, we have also installed diesel generator sets as a back-up source for power. We have installed DG sets with the following capacity at our Units:

Unit I & II – 1000 KVA

Solar Power:

Our new facility at Unit III, Sarigam has a rooftop solar plant generating 185 KW/2,66,590 units-kWh per annum for captive consumption.

Water

Water for all our facilities is provided by the GIDC authorities and is adequately supplied for our operations. At our Unit I – 10KL/per hour of water is first used in the Multi Effect Evaporator (MEE) Plant which is then recycled to be used in the ETP Plant. In Unit II 6kl/per hour of water first goes into the MEE Plant of Unit I and then diverted into the Reverse Osmosis (RO) Plant for recycling to be then provided to the Effluent Treatment Plant (ETP). This facility has not yet been established at Unit III, Sarigam.

R&D Facility

We presently have R&D facilities at each of our manufacturing units which are equipped with the required laboratory equipment. Our R&D facilities at Unit I and II are recognized by the Department of Scientific and Industrial Research, Ministry of Science & Technology, Government of India (DSIR). We are setting up a new R&D facility at Unit III Sarigam which will become operational from December, 2020.

Our R&D is well supported by an analytical team equipped with required instruments and experienced analysts to check the results of our tests and experiments and prepare new formulations. We have a team of nine (9) R&D personnel who are qualified and experienced to undertake various R&D initiatives of our Company.

In order to enter the highly regulated markets of USA and Europe our Company will have to further enhance its R&D facilities and capabilities. Our advanced R&D facility at Unit III, Sarigam has the latest technology and processes required to conduct research on Active Ingredients and Formulations, mainly of the molecules going off-patent in the near future with some of them going off-patent in 2020 itself. We have already initiated R&D efforts in this direction and 3-4 such new molecules are already undergoing R&D tests out of which two (2) products are fungicides which will be effective on rice and wheat crops, two (2) are herbicides and one (1) is an insecticide which will be effective on wheat, rice, cotton and sugarcane, for exclusive sale in the European markets. Once these tests and processes are successfully established, these will be documented in a dossier to be then filed for the purpose of registration in USA, EU and other overseas jurisdictions through our International Distribution Partners. Registration in USA and EU of a new product generally takes 2-4 years and involves a lengthy and tedious process of submissions, representations and reports with the respective regulatory authorities before approval is finally received from them.

Registration of Products

Presently, for manufacture and sale in India we have eighteen (18) Technicals and one hundred and sixty seven (167) Formulations registered with the CIB&RC. Our product pipeline will further diversify once we receive necessary approvals from the CIB&RC for the manufacture and sale in India of thirteen (13) Technicals and Formulations and two (2) Technicals to manufacture for the export markets In India, depending on the product for registration, the time taken for registration by the CIB&RC varies from 6 months to 2 years.

Our International Distribution Partners have presently filed one hundred sixty nine (169) registration applications for our Technicals and Formulations products which are pending before the regulatory authorities in twenty five (25) countries. Our International Distribution Partner in Europe has already received registration for Deltamethrin Technical and applications for registration of Lambda Cyhalothrin Technical, Alpha Cypermethrin Technical and Metribuzin Technical are in process before the relevant authority in EU. Our International Distribution Partner in the USA has also applied for registration of Lambda Cyhalothrin Technical manufactured by our Company as another source of supply to their existing registration for this product. Depending on the kind product applied for registration, the time taken for registration by the regulatory authorities in highly developed markets of USA and EU varies from 2 years to 4 years and other overseas jurisdictions from 1 year to 3 years.

Region wise depiction of our product registrations by our International Distribution Partners across the world is set out in the map below:

Environment

Our Company is committed to preserve the environment and minimise emissions and effluents. We have installed necessary equipment including ETPs at all our facilities for controlling the pollution levels in the water/sludge discharged, in accordance with the rules framed by the Gujarat Pollution Control Board (GPCB). All licences issued by GPCB are valid and subsisting, and our effluent treatment systems are periodically inspected by them to ensure compliance.

Many pollutants, both natural and synthetic, are gaseous in nature and require specific technology to effectively remove the pollutant from an exhaust or process gas stream. Gaseous industrial pollutants can include:

- Acid Gases (hydrochloric acid, sulfuric acid, hydrogen sulfide, and many others)
- Inorganic Gases (Sulfur Oxides, Nitrogen Oxides, Ammonia, etc.)
- Organic Vapours (Ethylene, Benzene, Ethanol, and many other volatile organic compounds [VOCs] or hazardous air pollutants [HAPs])

In order to enhance our compliance and further minimize emissions, our integrated facility Unit I will also involve the installation of the condensation process technology. Condensation is a process that has been majorly used throughout our industry to convert a gas or vapor to liquid. Any gas can be reduced to a liquid by sufficiently lowering the temperature (or increasing the pressure). Condensation can be used to remove a pollutant from a gas stream if the dew point of the pollutant is higher than the carrier gas (or non-pollutant gas). If this is true, the total gas stream can be reduced in temperature below the pollutant's dew point, which will then separate the pollutant from the remaining gas stream as a liquid.

The most common form of condensing is by lowering temperature. While increasing pressure can be equally effective, a pressure condensing technique is usually more expensive. Condensers are simple and relatively inexpensive devices that normally use water or air as the coolant. In other, more sophisticated condensers, a cryogenic method is used to reduce gas stream temperatures below zero degree. In modern applications for air pollution control, condensers are commonly used as pre-treatment devices. Condensers can be used in front of absorbers and oxidizers to reduce the total gas volume treated or to selectively remove certain organic compounds from the gas stream for re-use in the process or some form of beneficial use recovery.

Condensers work when the warmer vapor stream contacts a cooling medium. The heat from the warm gases is transferred to the cooler medium. Then, as the warm gas stream begins to cool, the kinetic energy of the gas is reduced. Condensation occurs because the pollutant molecules are slowed and crowded so close together that the attractive forces between the molecules cause them to condense into a liquid.

Waste Management:

Our Company has an arrangement with certain third parties who have the experience and expertise in hazardous waste management. These third parties are registered with the GPCB and dispose of the hazardous waste as per GPCB requirements and norms.

Manpower

Our Company's human resource policy revolves around our commitment to create an organization that nurtures talent. We provide our employees with an open environment for learning, growth and development and we continuously recognize meritorious performance as a policy. We have no employee unions in our Company.

The following is a department wise break-up of our employees as on August 31, 2020:

No.	Department	No. of Employees
1.	Sales and Marketing (Domestic & International)	174
2.	Finance, accounts and administration	22
3.	Factory workers and factory management team	374
4.	R&D and Quality Control Team	12
5.	Other support services like supply chain, sourcing etc.	26
	Total	608

In addition to the above employees, we also employ contract labour for our manufacturing operations.

Safety Procedures

Some of our products and raw materials are considered hazardous and/or poisonous. We have adopted safety procedures at our manufacturing facilities, particularly in relation to the import, storage, transportation and sale of such hazardous and/or poisonous substances. In addition, our staff is trained for safety at work and manuals for various activities. This includes knowledge about storage, handling and disposal of raw materials and products, which they handle. They are provided with personal protection equipment such as safety shoes, gloves, goggles and aprons.

We have prepared safety manuals and established measures to prevent and control hazards and risks, new strategies and solutions to be applied both for well-known hazards and risks such as those arising from hazardous chemicals, reaction as well as storage vessels, machineries, tools and manual handling. As a part of the safety procedures training programmes, safe operating procedures, emergency preparedness, risk identification and elimination are undertaken for our employees working at our Units. Our EHS (Environment, Health and Safety) Department undertakes the above activities as per the safety procedures and manuals prepared by our Company.

Quality Control

We focus significantly on the quality of the raw materials that enter our manufacturing process and the quality of our output i.e. finished products at all our manufacturing facilities to ensure the desired quality is attained and maintained. Quality forms the crux of our consistent drive towards perfection. Our adherence to total quality management systems using modern infrastructure and methodologies has enabled our Company to develop products that ensure customer and user satisfaction. We on a continuous basis analyse the raw materials being processed as well as the finished goods. We also conduct analytical tests in our laboratories, in order to analyse certain characteristics of our products, which include classical analysis on the melting and boiling point of certain products and their chemical analysis. Our quality assurance laboratories of Unit I and II have been accredited with ISO/IEC 17025:2005 certification by NABL.

Competition

The Indian agrochemicals market is highly fragmented in nature with many formulators. The competition is fierce with large number of organized sector players and spurious pesticide manufacturers. In 2019, our Company dominated the India pyrethroids market, accounting for a share of 19.5% of the total Indian Pyrethroids production values. Our Company was

followed by Tagros Chemicals India Limited (14.8%), Hemani Industries Limited (9.9%), Dhanuka Agritech Limited (8.7%), Insecticides (India) Limited (7.9%), Syngenta India Limited (6.2%), Sumitomo Chemical India Limited (5.8%), UPL Limited (4.2%), Bayer CropScience Limited (3.9%), Rallis India Limited (3.6%), Sumitomo Chemical India Limited (3.4%) and others (12.1%).

Sales & Distribution of our Products:

We have divided our marketing activities on the basis of states in which our products are distributed. Our products are distributed in sixteen (16) states and one (1) union territory across the country and are supported by twenty-one (21) depots across the country to ensure adequate supply of our products. At the ground level we have a sales officer who interacts with the sales head of the state for new products, educational material and guidance to market the products to the farmers of the state. Region wise depiction of our distribution network across the country is set out in the map below:

Our state-wise Sales from the sale of formulations for FY 2020 as as under:

No.	Name of the State	Sales for FY 2020 (₹ in million)	Percentage of Total Sales
1.	Maharashtra	300.03	15.60%
2.	Andhra Pradesh	255.28	13.27%
3.	Uttar Pradesh	159.51	8.29%

Our sales officers interact with farmers and dealers/distributors directly. They are instrumental with respect to the interactions with farmers and providing them with our recommendations. They also provide us with useful intelligence with respect to the farmers requirements. An important element of our marketing is farmer support and education. We hold education programs for farmers to educate them on the advantages of using crop protection products and the safe and sustainable use of crop protection products. We believe these programs have helped the farmer increase their productivity, while also preserving the long-term sustainability of their land. We not only educate farmers on how to use our products, but we also pay special attention to inform them to avoid misuse of our products and to use in the right quantity and mix with other products.

Our distribution network enables us to launch our products quickly and effectively and to exploit our range of existing products. Our dedicated marketing activities are directed towards dealers/distributors and retailers, agricultural consultants and farmers. They consist of a broad range of promotional tools such as meetings with farmers and dealers/distributors, field demonstrations and direct marketing activities.

Farmer training programs

We recognize the importance of educating farmers with the latest information on crop management. We focus on issues such as correct and judicious use of plant protection chemicals. Our sales officers are trained in the features of our products and they educate farmers through a range of initiatives, including:

Village meetings. We arrange village meetings in various farming villages across India to educate the farmer about the pest and disease problems affecting their crops. We also provide on the spot recommendations and solutions to address any immediate concerns.

Yield demonstrations. Demonstrations are undertaken at target villages on the fields of selected farmers. The objective of these demonstrations is to show the efficacy of the products and the impact on yield. Farmers' meetings are conducted at the demonstration sites to discuss the results of the demonstrations throughout the village. Our teams are trained to undertake this activity in an effective manner and to record the results for sharing with other farmers and teams.

Focus on discussions and deliberations. We also engage in post and pre-season discussions with farmers to understand their challenges during the cropping season as well as their cropping plans and techniques.

We have more than eight thousand six hundred (8600) dealers/distributors supported by our twenty-one (21) stock depots spread across 16 states and 1 union territory in the country in order to meet the demand of our products from farmers. We set-out below our state-wise dealer network:

No.	Name of the State/Union Territory	No. of Dealers
1.	Andhra Pradesh	1,596
2.	Maharashtra	1,212
3.	Telangana	802

Our Manufacturing Facilities/Units

We have three (3) manufacturing and packaging facilities in and around the industrial belt of Vapi, Gujarat having one hundred seventy-two (172) reactors (*glass lined, S.S. 306 & 316 and various MS Reactors, MS Tile Lined Reactors and HDPE Reactors*) with an aggregate manufacturing capacity of 14024 MTPA. These facilities will manufacture Intermediates like cypermethric acid chloride, cypermethric acid, MPBD and MPBAL and Technicals like cypermethrin, alphacypermethrin, deltamethrin, permitherin and lambda cyhalothrin amongst others and a range of Insecticides, Herbicides and Fungicides Formulations. From four (4) facilities, we have now integrated a facility with Unit I which will exclusively manufacture Intermediates and Technicals and Unit II will continue to manufacture Intermediates and Technicals. Facilities which has been mainly producing Formulations in liquid and powder forms, which are then packed in various sizes as per the required dosage for each crop on a per acre basis, has been dismantled and shifted to Unit III at Sarigam. As a part of our expansion plans, we have in the year 2018 acquired on lease from GIDC around 14.5 acres of land at Sarigam, near Vapi, Gujarat at a total cost of ₹ 219.40 million. Out of the 14.5 acres, around 5.5 acres is being used for the Unit III Formulations facility. We are also developing a new R&D facility at Unit III Sarigam which shall become operational from December, 2020. The remaining land shall be utilized at a later stage for manufacturing Intermediates, Technicals and for establishing other administrative facilities.

Further, we maintain insurance policies for our employees such as employee’s compensation liability policy, mediclaim insurance policy and group gratuity policy.

KEY INDUSTRIAL REGULATIONS AND POLICIES IN INDIA

The following description is a summary of the relevant regulations and policies that are applicable to our business, as prescribed by the Government of India and other regulatory bodies. The information detailed below has been obtained from various legislations, including rules and regulations promulgated by the regulatory bodies and the bye laws of the respective local authorities that are available in the public domain. The regulations set below may not be exhaustive, are intended only to provide general information to the investors and are neither designed nor intended to substitute for professional legal advice. For details of government approvals obtained by us, refer "Government and Other Approvals" on page 298 of this Draft Red Herring Prospectus.

Except as otherwise specified in this Draft Red Herring Prospectus, taxation statutes including the Income Tax Act, 1961 and other miscellaneous regulations and statutes may apply to us as they do to any other Indian company. With effect from July 1, 2017, Goods and Services Tax Laws (including Central Goods and Services Tax Act, 2017, Integrated Goods and Services Tax Act, 2017, States Goods and Services Tax Act, 2017 and Union Territory Goods and Services Tax Act, 2017) are applicable to our Company. The statements below are based on the current provisions of Indian law and the judicial and administrative interpretations thereof, which are subject to change or modification by subsequent legislative, regulatory, administrative or judicial decisions. Set forth below are certain significant Indian legislations and regulations which are generally adhered to by the industry that we operate in.

Set forth below are certain significant Indian legislations and regulations which are generally adhered to by the industry that we operate in.

Industry specific Regulations

1. The Insecticides Act, 1968 (the "Insecticides Act")

The Insecticides Act regulates the (i) registration; (ii) licensing; and (iii) quality-control of insecticides.

Registration: The definition of insecticides includes fungicides and weedicides. Any person who desires to import or manufacture any insecticide is required to apply to the registration committee under the Insecticides Act, for the registration of such an insecticide. The functions of the registration committee include registering insecticides after scrutinizing their formulae and verifying claims made by the importer or the manufacturer, as the case may be, as regards their efficacy and safety to human beings and animals. The registration is granted by a central authority and is effective throughout India.

Licensing: Any person who desires to manufacture or sell, stock or exhibit for sale or distribute any insecticide, or to undertake commercial pest control operations with the use of any insecticide may make an application to the licensing officer for the grant of a license under the Insecticides Act. Our Company is required to obtain a separate license for each place in which we manufacture, sell or distribute our products. The license granted may be revoked, suspended or amended, *inter alia*, for misrepresentation of an essential fact and failure to comply with the conditions subject to which the license was granted. The validity of the license is for a period of two years and every such license is required to be renewed within three months from the date of its expiry on payment of late fees.

Quality control: If based on inspection and analyses by the concerned statutory authority, the use of an insecticide or a batch thereof is likely to lead to such risk to human beings or animals, the Central Government or the State Government of such insecticides may prohibit its sale, distribution or use, by notification, for a specified period.

Penalties: Contravention of the Insecticides Act is punishable with imprisonment or fine or both, with enhanced punishment for repeat offences. Similarly, a person may be imprisoned for a period of six months to three years depending upon the nature of the offence. Further, the prescribed officer under the Insecticide Act has the power to stop the distribution, sale or use of an insecticide for a specified period which he has reason to believe is being distributed, sold or used in contravention of the Insecticides Act. Additionally, if any person is convicted under the Insecticide Act, the stock of insecticide in respect of which the contravention has been made is liable to be confiscated.

We are also required to comply with the guidelines, regulations and rules issued by the Central Insecticides Board and Registration Committee ("*CIB&RC*") including the Insecticides Rules, 1971. The functions of the CIB include to advise the Central Government and State Governments on technical matters such as the risk to human beings or animals involved in the use of insecticides and the safety measures necessary to prevent such risk and the

manufacture, sale, storage, transport and distribution of insecticides with a view to ensure safety to human beings or animals and to carry out the other function assigned to it by or under the Insecticides Act.

2. **The Insecticides Rules, 1971 (the "*Insecticides Rules*")**

The Central Government, in exercise of the powers conferred by Section 36 of the Insecticides Act, and upon consultation with the CIB, promulgated the Insecticides Rules. The Insecticides Rules assign functions to the CIB in addition to those assigned under the Insecticides Act, including specifying the uses of the classification of insecticides on the basis of their toxicity as well as their being suitable for aerial application; advising on the tolerance limits for insecticides, residues and an establishment of minimum intervals between the application of insecticides and harvest in respect of various commodities; and specifying the shelf-life of insecticides. Further, the Insecticides Rules assign additional functions to the registration committee. These include specifying the precautions to be taken against poisoning through the use or handling of insecticides and carrying out such other incidental or consequential matters necessary for carrying out the functions assigned to it under the Insecticides Act or Insecticides Rules. In terms of the Insecticides Rules, the functions of the Central Insecticides Laboratory, established under the Insecticides Act, include analysing samples of insecticides and insecticide residues and determining the efficacy and toxicity of insecticides. The Insecticides Rules make detailed provisions for manufacture and/or sale of insecticides, *inter alia*, the registration of insecticides, grant of license to manufacture insecticides and specifications relating to packaging, transportation and labeling of insecticides, the appointment, powers, duties and functions of insecticide analysts and inspectors.

3. **Industrial (Development and Regulation) Act, 1951 (the "*Industrial Act*")**

The Industrial (Development and Regulation) Act, 1951 has been liberalized under the New Industrial Policy dated July 24, 1991, and all industrial undertakings are exempt from licensing except for certain industries such as distillation and brewing of alcoholic drinks, cigars and cigarettes of tobacco and manufactured tobacco substitutes, all types of electronic aerospace and defence equipment, industrial explosives including detonating fuses, safety fuses, gun powder, nitrocellulose and matches and hazardous chemicals and those reserved for the small scale sector. An industrial undertaking, which is exempt from licensing, is required to file an Industrial Entrepreneurs Memorandum ("*IEM*") with the Secretariat for Industrial Assistance, Department of Industrial Policy and Promotion, Ministry of Commerce and Industry, Government of India, and no further approvals are required.

4. **The Draft Pesticides Management Bill, 2017 (the "*Draft Pesticide Management Bill*")**

The draft Pesticides Management Bill seeks to regulate the import, manufacture, export, storage, sale, transport, distribution, quality and use of pesticides with a view to (i) control pests; (ii) ensure availability of quality pesticides; (iii) allow its use only after assessing its efficacy and safety; (iv) minimize the contamination of agricultural commodities by pesticide residues; and (v) create awareness among users regarding safe and judicious use of pesticides. The draft Pesticides Management Bill has been introduced to take necessary measures to continue, restrict or prohibit the use of pesticides with a view to prevent its risk on human beings, animals or environment. The Ministry of Agriculture and Farmers Welfare, Government of India, had recently sought comments on the Draft Pesticides Management Bill from various stakeholders.

5. **The Petroleum Act, 1934 (the "*Petroleum Act*")**

The Petroleum Act was passed to consolidate and amend the laws relating to the import, transport, storage, production, refining and blending of petroleum. Under the Petroleum Rules, 2002, any person intending to store furnace oil/petroleum, of such class and in such quantities, otherwise than under a license shall take the approval of the Chief Controller before commencing storage.

6. **The Explosives Act, 1884 ("*Explosives Act*")**

This is a comprehensive law which regulates by licensing for the manufacturing possession, sale, transportation, export and import of explosives. As per the definition of 'explosives' under the Act, any substance, whether a single chemical compound or a mixture of substances, whether solid or liquid or gaseous, used or manufactured with a view to produce a practical effect by explosion or pyrotechnic effect shall fall under the Act. The Central Government may, for any part of India, make rules consistent with this Act to regulate or prohibit, except under and in accordance with the conditions of a licence granted as provided by those rules, the manufacture, possession, use sale, transport, import and export of explosives, or any specified class of explosives. Extensive penalty provisions have been provided for manufacture, import or export, possession, usage, selling or transportation of explosives in contravention of the Act.

7. **The Indian Boilers Act, 1923 ("Boilers Act")**

The Boilers Act pertains to regulation of possession of steam-boilers. Every person owning a boiler has to register it with specifications concerning its capacity, design etc. The Boilers Act further provides for the conditions precedent for setting up of boilers, inspection procedure and reporting requirements, and prescribes penalties for the illegal or improper usage of boilers.

8. **The Solvent Raffinate and Slop (Acquisition, Sale, Storage and Prevention of Use in Automobiles) Order, 2000 (the "Solvent Order")**

The Solvent Order has been issued under the ECA and provides that no person shall either acquire, store or sell solvents, raffinates and slops or their equivalent, without a licence, issued by the State Government or the district magistrate or any other officer authorised by the Central Government or the State Government.

9. **Legal Metrology Act, 2009 (the "Legal Metrology Act") and Legal Metrology (Packaged Commodities) Rules, 2011 (the "Packaged Commodities Rule")**

The Legal Metrology Act, repeals and replaces the Standard of Weights and Measures Act, 1976 and the Standards of weights and Measures (Enforcement) Act, 1985. The Legal Metrology Act seeks to establish and enforce standards of weights and measures, regulate trade and commerce in weights, measures and other goods which are sold or distributed by weight, measure or number and formatters' incidental thereto. The Legal Metrology Act, inter alia, provides for: (a) approval of model of weight or measure; (b) verification of prescribed weight or measure by Government approved Test Centre; (c) exempting regulation of weight or measure or other goods meant for export; (d) nomination of a Director by a company who will be responsible for complying with the provisions of the enactment; (e) empowering the Central Government to make rules for enforcing the provisions of the enactment; and (f) penalty for offences and compounding of offences. The Packaged Commodities Rule were framed under section 52(2) (j) and (q) of the Legal Metrology Act which lays down specific provisions applicable to packages intended for retail sale, whole sale and for export and import and also regulate pre-packaged commodities in India, inter alia mandating certain labelling requirements prior to sale of such commodities. Legal Metrology (Packaged Commodities) (Amendment) Rules issued on June 23, 2017 have introduced important amendments to the Packaged Commodity Rules. The key provisions of the Packaged Commodity Amendment Rules are regarding the size of declarations on the label, declaration on e-commerce platforms, declaration of name and address of the manufacturer and fine for contravention.

10. **The Export (Quality Control and Inspection) Act, 1963 (the "Export Act")**

The Export Act empowers the Government of India to establish, a council called the Export Inspection Council, which would advise the Central Government regarding measures for the enforcement of quality control and inspection in relation to commodities intended for export and to formulate programmes in connection therewith, to make, with the concurrence of the Central Government, grants-in-aid to various agencies involved in foreign trade.

11. **Consumer Protection Act, 2019 (the "Consumer Protection Act")**

The Consumer Protection Act provides a mechanism for the consumer to file a complaint against a manufacturers, traders and service providers in cases of unfair trade practices, restrictive trade practices, deficiency in services, unlawful pricing and serving of food that may be hazardous to life. It provides for a three tier consumer grievance redressal mechanism at the national, state and district levels. It places liability on a product manufacturer / product service provider / product seller to compensate for the harm caused due to a defective product or deficiency in services. The Consumer Protection Act also enables the Central Government to take measures for preventing unfair trade practices in e-commerce. Non-compliance of the orders of the redressal commissions attract criminal penalties or imprisonment or both.

12. **Bureau of Indian Standards Act, 2016 (the "BIS Act")**

The BIS Act has been brought into force with effect from October 12, 2017, repealing and replacing the Bureau of Indian Standards Act, 1986. The BIS Act establishes Bureau of Indian Standards (BIS) as the National Standards Body of India. The BIS Act has enabling provisions for the Government to bring under compulsory certification regime any goods or article of any scheduled industry, process, system or service which it considers necessary in the public interest or for the protection of human, animal or plant health, safety of the environment, or prevention of unfair trade practices, or national security. The BIS Act also allows multiple type of simplified conformity assessment schemes including self-declaration of conformity against a standard which will give simplified options

to manufacturers to adhere to the standards and get certificate of conformity Further, the BIS Act also provides for repair or recall, including product liability of the products bearing a standard mark but not conforming to the relevant Indian Standard.

Environmental Laws

The major statutes in India which seek to regulate and protect the environment against pollution related activities in India are the Water (Prevention and Control of Pollution) Act 1974, the Air (Prevention and Control of Pollution) Act, 1981 and the Environment Protection Act, 1986 and the rules and regulations thereunder and The Hazardous Wastes (Management, Handling and Transboundary Movement) Rules, 2008. Pollution Control Boards ("**PCBs**"), which are vested with diverse powers to deal with water and air pollution, have been set up in each state to control and prevent pollution. The PCBs are responsible for setting the standards for the maintenance of clean air and water, directing the installation of pollution control devices in industries and undertaking investigations to ensure that industries are functioning in compliance with the standards prescribed. All industries and factories are required to obtain consent orders from the PCBs, and these orders are required to be renewed annually.

1. Environment Protection Act, 1986 (the "*Environment Act*")

The EPA has been enacted with an objective of protection and improvement of the environment and for matters connected therewith. As per this Act, the Central Government has been given the power to take all such measures for the purpose of protecting and improving the quality of the environment and to prevent environmental pollution. Further, the Central Government has been given the power to give directions in writing to any person or officer or any authority for any of the purposes of the Act, including the power to direct the closure, prohibition or regulation of any industry, operation or process.

2. Environment (Protection) Rules, 1986 (the "*Environment Rules*")

In exercise of powers conferred under the Environment Act, the Central Government notified the Environment Rules. Pursuant to Environment Rules, every person who carries on an industry, operation or process requiring consent under Water (Prevention and Control of Pollution) Act, 1974 or Air (Prevention and Control of Pollution) Act, 1981 or shall submit to the concerned Pollution Control Board ("**PCB**") an environmental statement for that financial year in the prescribed form.

3. Air (Prevention and Control of Pollution) Act, 1981 (the "*Air Act*")

The Air Act requires that any individual, industry or institution responsible for emitting smoke or gases by way of use as fuel or chemical reactions must apply in a prescribed form and obtain consent from the State PCB prior to commencing any activity. The consent may contain conditions relating to specifications of pollution control equipment to be installed. Within a period of four (4) months after the receipt of the application for consent the State PCB shall, by order in writing and for reasons to be recorded in the order, grant the consent applied for subject to such conditions and for such period as may be specified in the order, or refuse consent.

4. Water (Prevention and Control of Pollution) Act, 1974 (the "*Water Act*")

The Water Act prohibits the use of any stream or well for the disposal of polluting matter, in violation of the standards set down by the State Pollution Control Board ("**State PCB**"). The Water Act also provides that the consent of the State PCB must be obtained prior to opening of any new outlets or discharges, which are likely to discharge sewage or effluent.

5. Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016 (the "*Hazardous Wastes Rules*")

The Hazardous Waste Rules define the term "hazardous waste" and any person who has control over the affairs of a factory or premises or any person in possession of the hazardous or other waste is classified as an "occupier". In terms of the Hazardous Waste Rules, occupiers have been, *inter alia*, made responsible for safe and environmentally sound handling of hazardous wastes generated in their establishments and are required to obtain license/authorisation from the respective State PCB for generation, processing, treatment, package, storage, transportation, use, collection, destruction, conversion, offering for sale, transfer or similar activities in relation to hazardous waste. The Hazardous Waste Rules also prescribe the hierarchy in the sequence of priority of prevention, minimization, reuse, recycling, recovery and co-processing. Further, State PCBs are mandated to prepare an inventory of the waste generated, waste recycled, recovered and utilized including co-processed, re-exported and disposed, based on annual

returns received from occupiers and operators, and submit it to the Central Pollution Control Board on an annual basis.

6. **Water (Prevention & Control of Pollution) Cess Act, 1977 ("Water Cess Act") and Water (Prevention & Control of Pollution) Cess Rules, 1978 ("Water Cess Rules")**

The Water Cess Act has been enacted to provide for the levy and collection of a cess on water consumed by persons carrying on certain industries and by local authorities, with a view to augment the resources of the central and State PCB for the prevention and control of water pollution constituted under the Water Act. The Water Cess Rules have been notified under Section 17 of the Water Cess Act and provide, *inter alia*, for the standards of the meters and places where they are to be affixed and the furnishing of returns by consumers.

7. **Manufacture, Storage and Import of Hazardous Chemical Rules, 1989 ("Hazardous Chemical Rules")**

The Hazardous Chemical Rules, as amended, were framed under the Environment Protection Act, 1986. These Hazardous Chemical Rules apply to workplaces in which certain hazardous chemicals are manufactured or stored. An occupier who has control of an industrial activity is required to provide evidence to show that it has, identified the major accident hazards; and taken adequate steps to prevent such major accidents and to limit their consequences to persons and the environment. Further, the occupier is required to provide to persons working on the site with the information, training and equipment including antidotes necessary to ensure their safety. Under the Hazardous Chemical Rules, the occupier is required to submit safety report as specified in Schedule 8 of the Hazardous Chemical Rules. Among other things, the occupier is required to prepare and keep updated on site emergency plan as per Schedule 11 of the Hazardous Chemical Rules, detailing how a major accident will be dealt in the industry on the site.

8. **The Chemical Accidents (Emergency Planning, Preparedness and Response) Rules, 1996 (the "Chemical Accidents Rules")**

The Chemical Accidents Rules, formulated pursuant to the provisions of the EPA, seek to manage the occurrence of chemical accidents, by *inter alia*, setting up a central crisis group and a central crisis alert system. The functions of the central crisis group *inter alia* include, (i) conducting post-accident analysis of major chemical accidents; (ii) rendering infrastructural help in the event of a chemical accident; and (iii) review district off site emergency plans. The Manufacture, Storage and Import of Hazardous Chemical Rules, 1989 ("HCR Rules") The HCR Rules are formulated under the Environment (Protection) Act, 1986. The HCR Rules are applicable to an industrial activity in which a hazardous chemical which satisfies certain criteria as listed in the schedule thereto, and to an industrial activity in which there is involved a threshold quantity of hazardous chemicals as specified in the schedule thereto. The occupier of a facility where such industrial activity is undertaken has to provide evidence to the prescribed authorities that he has identified the major accident hazards and that he has taken steps to prevent the occurrence of such accident and to provide to the persons working on the site with the information, training and equipment including antidotes necessary to ensure their safety. Where a major accident occurs on a site or in a pipeline, the occupier shall forthwith notify the concerned authority and submit reports of the accident to the said authority. Furthermore, an occupier shall not undertake any industrial activity unless he has submitted a written report to the concerned authority containing the particulars specified in the schedule to the HCR Rules at least three months before commencing that activity or before such shorter time as the concerned authority may agree.

9. **Public Liability Insurance Act, 1991 ("Public Liability Act")**

The Public Liability Act, as amended, imposes liability on the owner or controller of hazardous substances for any damage arising out of an accident involving such hazardous substance. A list of hazardous substances covered by the Public Liability Act has been enumerated by the Government by way of a notification. The owner or handler is also required to take out an insurance policy insuring against liability under the legislation. The rules made under the Public Liability Act mandate that the employer has to contribute towards the environment relief fund, a sum equal to the premium paid on the insurance policies. This amount is payable to the insurer.

Intellectual Property Laws

1. **Trade Marks Act, 1999**

The Indian law on trademark is enshrined in the Trade Marks Act of 1999. Under the existing Act, a trademark is a mark used in relation to goods and/or services so as to indicate a connection between the goods or services being

provided and the proprietor or user of the mark. A ‘Mark’ may consist of a word or invented word, signature, device, letter, numeral, brand, heading, label, name written in a particular style, the shape of goods other than those for which a mark is proposed to be used, or any combination thereof or a combination of colours and so forth. The trademark once it is applied for is advertised in the trademarks journal, oppositions, if any, are invited and after satisfactory adjudication of the same, is given a certificate of registration. The right to use a mark can be exercised either by the registered proprietor or a registered user. The present term of registration of a trademark is ten years, which may be renewed for similar periods on payment of prescribed renewal fees.

Industrial and Labour Laws

Factories Act, 1948 ("*Factories Act*")

Factories Act defines a 'factory' to cover any premises which employs ten or more workers on any day of the preceding twelve months and in which manufacturing process is carried on with the aid of power or any premises where at least twenty workers are employed in a manufacturing process.

Each state government has enacted rules in respect of the prior submission of plans and their approval for the establishment of factories and registration and licensing of factories. The Factories Act provides that an occupier of a factory i.e. the person who has ultimate control over the affairs of the factory and in the case of a company, any one of the directors, must ensure the health, safety and welfare of all workers. There is a prohibition on employing children below the age of fourteen years in a factory. The Factories Act also provides for imposition of fines and imprisonment of the manager and occupier of the factory in case of any contravention of the provisions of the Factories Act.

In addition to the Factories Act, the employment of workers, depending on the nature of activity, is regulated by a wide variety of generally applicable labour laws. The following is an indicative list of labour laws which may be applicable to our Company due to the nature of our business activities:

1. Contract Labour (Regulation and Abolition) Act, 1970
2. Employees' Compensation Act, 1923
3. Employees' Provident Funds and Miscellaneous Provisions Act, 1952
4. Employees' State Insurance Act, 1948
5. Industrial Disputes Act, 1947
6. Industrial Employment (Standing orders) Act, 1946
7. Child Labour and Adolescent (Prohibition and Regulation) Act, 1986
8. The Code on Wages, 2019
9. Maternity Benefit Act, 1961
10. Apprentices Act, 1961
11. Payment of Gratuity Act, 1972

Shops and establishments legislations are state legislations that seek to govern and regulate the working conditions of workers and employees employed in commercial establishments or shops or other establishments, as the case may be, within that state. Every such establishment is required to register itself under the relevant state's shops and establishments legislation in accordance with the procedure laid down therein.

Regulations Related to Foreign Trade

The foreign policy of India is governed and regulated by the Foreign Trade (Development and Regulation) Act, 1992 (the "Foreign Trade Act"). The Foreign Trade Act has empowered the Central Government to make provisions for the development as well as regulation of foreign trade by the way of facilitating imports into as well as augmenting exports from the country and in all the other matters related to foreign trade. It authorizes the government to formulate as well as announce the export and import policy and to keep amending the same on a timely basis. The government has also been given a wide power to prohibit, restrict and regulate the exports and imports in general as well as specified cases of foreign trade. The Foreign Trade Act provides for certain appointments especially that of the Director-General to advise the Central Government in formulating import and export policy and to implement the same. Further, the act commands every importer as well as exporter to obtain a code number called the Importer Exporter Code Number (IEC) from the Director-General or the authorized officer. The act provides the balancing of all the budgetary targets in terms of imports and exports. The principal objectives here include the facilitation of sustain growth as to the exports of the country, the distribution of quality goods and services to the domestic consumer at internationally competitive prices, stimulation of sustained economic growth by providing access to essential raw materials as well as enhancement of technological strength, industry as well as services and improvement of their competitiveness to meet all kinds of requirement of the global markets.

Other Laws and Regulations

In addition to the above, our Company is also required to comply with the provisions of the Companies Act, 2013 and the rules framed thereunder and other applicable statutes promulgated by the relevant Central and State Governments including the central and state tax laws.

Significant Notes by Auditors

There are no modifications or qualifications in the report(s) of the auditor(s) in relation to the above-mentioned financial statements for the specified last three Fiscals except as follows:

1. M/s. Rahul Drolia & Associates, Chartered Accountants, have given Qualified Opinion in their audit report for the financial year ended on March 31, 2019 as follows:

Qualified Opinion – In our opinion and to the best of our information and according to the explanations given to us except for the effects of the matters described in the Basis for Qualified Opinion Paragraph, the aforesaid financial statements give the information required by the Act in the manner so required, subject to no provision having been made in respect of accrued gratuity liability, give true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the balance sheet, of the state of affairs of the company as at March 31, 2019;
- b) In the case of the Statement of Profit and Loss, of the loss for the year ended on the that date; and
- c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Basis of Qualified Opinion –

- a. **With regard to preparations of financial statements on going concern basis** - The Financial Statements of the SBSL have been prepared on a going concern, notwithstanding the fact that its net worth has fully eroded due to high losses during the F.Y.2013-2014, F.Y.2014-2015, F.Y.2015-2016, F.Y. 2016-17, F.Y. 2017-18 and also for the year ended 31st March 2019. The appropriateness of the said basis is inter alia dependent on the SBSL's ability to infuse requisite funds for meeting its obligations, rescheduling of debt and resuming normal operations;
 - b. **With regard to Cash Credit Facility & LC Facility availed from Cosmos Co-op Bank Ltd** - SBSL has submitted Consent terms to the Bank on 27.03.2018 for the settlement of the loan accounts. Post discussion both the parties agreed to settle both account and SBSL will have to repay ₹36.79 Crs. to the bank as per mutually agreed terms; and
 - c. **With regard to statutory payments** - The SBSL has not made the statutory payment on time to the respective statutory department. The amount of interest and penalty cannot be quantified as the SBSL is not in possession of necessary evidence for verification.
2. M/s. Rahul Drolia & Associates, Chartered Accountants, have given Qualified Opinion in their audit report for the financial year ended on March 31, 2018 as follows:

Qualified Opinion – In our opinion and to the best of our information and according to the explanations given to us except for the effects of the matters described in the Basis for Qualified Opinion Paragraph, the aforesaid financial statements give the information required by the Act in the manner so required, subject to no provision having been made in respect of accrued gratuity liability, give true and fair view in conformity with the accounting principles generally accepted in India:

Basis of Qualified Opinion –

- a. **With regard to preparations of financial statements on going concern basis** - The Financial Statements of SBSL have been prepared on a going concern, notwithstanding the fact that its net worth has fully eroded due to high losses during the F.Y.2013-2014, F.Y.2014-2015, F.Y.2015-2016, F.Y. 2016-17 and also for the year ended 31st March 2018. The appropriateness of the said basis is inter alia dependent on SBSL's ability to infuse requisite funds for meeting its obligations, rescheduling of debt and resuming normal operations;
 - b. **With regard to Cash Credit Facility & LC Facility availed from Cosmos Co-op Bank Ltd** - SBSLhas submitted Consent terms to the Bank on 27.03.2018 for the settlement of the loan accounts. Post discussion both the parties agreed to settle both account and SBSLwill have to repay ₹36.79 Crs. to the bank as per mutually agreed terms; and
 - c. **With regard to statutory payments** - The SBSLhas not made the statutory payment on time to the respective statutory department. The amount of interest and penalty cannot be quantified as the SBSLis not in possession of necessary evidence for verification.
3. M/s. Dalal Kala & Associates, Chartered Accountants, have given Qualified Opinion in their audit report for the financial year ended on March 31, 2017 as follows:

Qualified Opinion – In our opinion and to the best of our information and according to the explanations given to us except for the effects of the matters described in the Basis for Qualified Opinion Paragraph, the aforesaid financial statements give the information required by the Act in the manner so required, subject to no provision having been made in respect of accrued gratuity liability, give true and fair view in conformity with the accounting principles generally accepted in India:

- a) In the case of the balance sheet, of the state of affairs of the company as at March 31, 2017;
- b) In the case of the Statement of Profit and Loss, of the loss for the year ended on the that date; and
- c) In the case of the Cash Flow Statement, of the cash flows for the year ended on that date.

Basis of Qualified Opinion –

- a. **With regard to Sales and Purchases effected in the current year** – During the year, SBSLhas made Sales of ₹76,73,449/- & Purchase of ₹22,02,815/.
- b. **With regard to pending confirmation of balances** –SBSL has sent letters to customers, supplier, Loans & Advances (Assets), Loans & Advances (Liabilities) in respect of trade receivables, trade payables, Loans & Advances (Assets), Loans & Advances (Liabilities) for confirming balances outstanding as at March 31, 2017 but in most of the cases the customers, supplier, Loans & Advances (Assets), Loans & Advances (Liabilities) have not sent written confirmation confirming the balance outstanding as at March 31, 2017. In the absence of confirmation any provision to be made for adverse variation in the carrying amounts of trade receivables, trade payable Loans & Advances (Assets) Loans & Advances (Liabilities) is not quantified.
- c. **With regard to preparations of financial statements on going concern basis** - The Financial Statements of SBSL have been prepared on a going concern, notwithstanding the fact that its net worth has fully eroded due to high losses during the F.Y.2013-2014, F.Y.2014-2015, F.Y.2015-2016 and also for the year ended 31st

March 2017. The appropriateness of the said basis is inter alia dependent on SBSL’s ability to infuse requisite funds for meeting its obligations, rescheduling of debt and resuming normal operations;

- d. **With regard to Cash Credit Facility & LC Facility availed from Cosmos Co-op Bank Ltd** - SBSL has not provided for interest payable to Cosmos Co-op Bank Ltd from the F.Y.2015-2016. SBSL has also not made any provisions for penal interest claimed by the bank. As a result, the loss for the year ended 31st March 2017 interest and penal interest cannot be quantified as the details have not been received from them; and
- e. **With regard to statutory payments** - SBSL has not made the statutory payment on time to the respective statutory department. The amount of Interest and penalty cannot be quantified as SBSL is not in possession of necessary evidence for verification.

Note 1: Company Overview

HERANBA INDUSTRIES LIMITED is a public limited company domiciled in India, incorporated in 1992 under the Companies Act, 1956. The Company is principally engaged in the business of manufacturing and sale of agro chemical products. The registered office of the company is located at Vapi, Gujarat.

The Restated Financial Information have been approved for issue by the Company’s Board of Directors on 09th September, 2020

Note 2: Basis of preparation and significant accounting policies

2.1 Basis of preparation and presentation of Financial Statements:

The Restated financial statements of Assets and Liabilities as at 31st March 2020, 31st March 2019 and 31st March 2018 and Restated Statement of Profit and Loss, Restated Cash Flow Statement and the Restated Statement of Changes in Equity for the years ended 31st March 2020, 31st March 2019 and 31st March 2018 (together referred to as “Restated Financial Information”) have been compiled by the Company from the Audited Financial Statements to which further adjustments are made to comply in all material aspects with the requirements of the Securities and Exchange Board of India (Issue of Disclosure and Capital Requirements) Regulations, 2018, as amended (the “ICDR Regulations”). Accordingly, these Restated Financial Information have been prepared after incorporating adjustments for the material amounts in the respective financial years to which they relate. There were no exceptional items that needed to be disclosed separately for the respective years under consideration.

The restated financial statements have been prepared and presented in accordance with the Indian Accounting Standards (“Ind AS”) notified under Section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and other relevant provisions of the Act.

This Restated Financial Information has been prepared for inclusion in the Draft Red Herring Prospectus to be filed by the Company with the Securities and Exchange Board of India (“SEBI”) in connection with proposed Initial Public Offering (“IPO”) of its equity shares, in accordance with the requirements of:

- a) Section 26 of Part 1 of Chapter III of the Companies Act, 2013 (“Act”);
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“ICDR Regulations”); and
- c) The Guidance Note on Reports in Company Prospectus (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended from time to time (the “Guidance Note”).

This Restated Financial Information has been extracted by the Management from:

Audited financial statements of the Company as at and for the year ended March 31, 2020, March 31, 2019, and March 31, 2018 are prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India, which have been approved by the Board of Directors at their meetings held on August 21, 2020, September 06, 2019 and July 31, 2018 respectively and this Restated Financial Information do not reflect the effects of events that occurred subsequent to the respective dates of approval by the Board of Directors

2.2 Significant accounting judgements, estimates and assumptions:

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised. The said estimates are

based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

The areas involving critical estimates or judgments are:
 Estimation of defined benefit obligation
 Impairment of financial asset such as trade receivables
 Impairment of Non- financial Assets
 Estimation of Tax Expense and Liability

2.3 Summary of Significant Accounting Policies

A. Revenue Recognition

The Company recognizes revenue when control over the promised goods or services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

The specific recognition criteria described below must also be met before revenue is recognised

a. Sale of goods:

The Company recognises revenue generally at the point in time when the products are delivered to customer or when it is delivered to a carrier for export sale, which is when the control over product is transferred to the customer. In contracts where freight is arranged by the Company and recovered from the customers, the same is treated as a separate performance obligation and revenue is recognized when such freight services are rendered.

Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives, or other similar items in a contract when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.

b. Interest and dividend:

Interest income including income arising on other instruments are recognised on time proportion basis using the effective interest rate method.

Dividend income is recognized when the right to receive dividend is established.

B. Export Benefits:

The benefit accrued under the Duty Drawback, Merchandise Export Incentive Scheme and other schemes as per the Import and Export Policy in respect of exports made under the said schemes is included as 'Export Incentives' under the head 'Other operating revenue'.

C. Property Plant and Equipment, Investment Property and Depreciation / Amortisation:

- a. Items of Property, plant and equipment including Capital-work in-progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable of bringing the asset to its working condition for its intended use. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.
- b. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to assets or on sale/disposal of assets is calculated pro-rata from the month of such addition, or up to the month of such sale/disposal, as the case may be.

Asset Category	Estimated useful life (in Years)
Plant & Machinery	20
Servers and networks	6
Computer desktops and laptops	3
Laboratory Equipment's	10
Office Equipment's	5
Plumbing and Piping	20
Electrical Installation	10
Factory Building	30

Asset Category	Estimated useful life (in Years)
Non-Factory Buildings	60
Vehicles	8
Furniture and Fixture	10
Leasehold Land	Over Primary Lease period

The residual values, useful lives and methods of depreciation of property plant equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

D. Financial Instruments: -

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial Assets: -

i) Recognition and initial measurement: -

Trade Receivables are initially recognised when they are originated. All other financial assets are initially recognised when the Company becomes party to the contractual provisions of the instrument. All financial assets other than those measured subsequently at fair value through profit and loss, are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

ii) Classification and Subsequent measurement: -

For purposes of subsequent measurement, financial assets are classified in following categories:

a. Financial Assets at Amortised Cost: -

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate method (EIR). Amortized cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit & loss. The losses arising from impairment are recognized in the statement of profit and loss.

b. Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI): -

Financial assets are measured at fair value through Other Comprehensive Income (OCI) if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these assets are subsequently measured at Fair Value. Interest Income under Effective Interest method, foreign exchange gains and losses and impairment losses are recognized in the statement of profit and Loss. Other net gains and losses are recognized in OCI.

c. Financial asset not measured at amortised cost or at fair value through OCI is carried at Fair Value through Profit and Loss.

d. Equity Investments: -

All Equity investments within the scope of Ind AS 109 are measured at Fair Value. Such equity instruments which are held for trading are classified as FVTPL. For all other such equity instruments, the company decides to classify the same either as FVOCI or FVTPL. The company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

For Equity instruments classified as FVOCI, all fair value changes in the instrument excluding dividends are recognized in OCI. Dividends on such equity instruments are recognized in the statement of Profit or loss

iii. De-recognition of Financial Assets: -

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or

The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On de-recognition, any gains or losses on all debt instruments (other than debt instruments measured at FVOCI) and equity instruments (measured at FVTP) are recognised in the statement of Profit and Loss. Gains and losses in respect of debt instrument measured at FVOCI and that are accumulated in OCI are reclassified to Profit and Loss on de-recognition. Gains or losses on equity instruments measured at FVOCI that are recognised and accumulated in OCI are not reclassified to Profit or Loss on de-recognition.

2. Financial Liabilities: -

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

i. Recognition and Initial Measurement

Financial liabilities are initially recognized when the company becomes a party to the contractual provisions of the instrument. Financial Liability is initially measured at fair value plus, for an item not at fair value through profit and loss, net of transaction costs that are directly attributable to its acquisition or issue.

ii. Classification and Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

a. Financial liabilities at fair value through Profit or Loss (FVTPL)

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial Liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in Statement of Profit and Loss.

b. Financial liabilities at amortised cost

After initial recognition, financial liabilities other than those which are classified as FVTPL are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

iii. De-recognition of Financial Liabilities: -

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

3. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

E. Impairment: -**a. Financial assets: -**

In accordance with Ind AS 109, the company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial asset measured at amortized cost.

Loss allowances on trade receivables are measured following the 'Simplified Approach' at an amount equal to the Life time ECL at each reporting date. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

In respect of other financial asset, the loss allowance is measured at 12-month ECL only, if there is no significant deterioration in the credit risk since initial recognition of an asset or asset is determined to have a low credit risk at the reporting date.

b. Non-financial assets: -

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicator

c. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet and adjusted to reflect the current best estimates.

F. Taxation: -**i. Current Tax: -**

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using rates that have been enacted or substantively enacted by the end of the reporting period.

ii. Deferred Tax: -

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

iii. Minimum Alternate Tax (MAT): -

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Company will pay normal income tax during the specified period. Deferred tax assets on such tax credit are recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

G. Inventories: -

All inventories are stated at lower of 'Cost or Net Realizable Value'.

- A. Stores and spares, packing materials and raw materials are valued at lower of cost or net realisable value and for this purpose, cost is determined on First in First Out (FIFO) basis. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. However, the aforesaid items are not valued below cost if the finished products in which they are to be incorporated are expected to be sold at or above cost.
- B. Finished products and Work in Progress are valued at lower of cost or net realisable value and for this purpose, cost is determined on standard cost basis which approximates the actual cost. Cost of finished goods and work in progress includes direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.
- C. Traded goods are valued at lower of cost and net realizable value. Cost is determined on a weighted average basis.
- D. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

H. Employee benefits: -

a. Defined Contribution Plan: -

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plan and the contributions are recognised as employee benefit expense when they are due.

b. Defined Benefit Plan: -

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income.

Changes in present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

c. Leave Entitlement: -

Leave entitlement are provided based on an actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the period in which they occur.

d. Short-term Benefits: -

Short-term employee benefits such as salaries, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered.

I. Borrowings and Borrowing costs: -

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

J. Earnings per Share: -

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

K. Cash Flow Statement: -

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the company are segregated.

L. Cash and Cash Equivalents: -

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered an integral part of the Company's cash management.

M. Foreign currency transactions: -

A. All transactions in foreign currency are recorded in the reporting currency, based on closing rates of exchange prevalent on the dates of the relevant transactions,

B. Monetary assets and liabilities in foreign currency, outstanding as on the Balance Sheet date, are converted in reporting currency at the closing rates of exchange prevailing on the said date. Resultant gain or loss is recognized during the year in the Statement of Profit and Loss,

C. Non-monetary assets and liabilities denominated in foreign currencies are carried at the exchange rate prevalent on the date of the transaction, and

D. Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expenses in the year in which they arise.

N. Segment reporting: -

Based on " Management Approach "as defined in Ind AS 108 - Operating Segments the chief operating decision maker regularly monitors and reviews the operating results of the whole company as one segment of "Agro - Chemicals". Thus, as defined in Ind AS 108, the Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Balance Sheet and the Statement of Profit and Loss. The analysis of geographical segments is based on the areas in which customers of the company are located.

O. Provisions, contingent liabilities and contingent assets: -

A provision is recognized when the company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent liabilities are also present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability. Contingent Liabilities are not recognized in the financial statements but are disclosed separately.

Contingent assets are not recognised unless it becomes virtually certain that an inflow of economic benefits will arise.

P. Leases: -

Transition

Effective from April 1, 2019, the company adopted Ind AS 116 “Leases” and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but discounted at the Company’s incremental borrowing rate at the date of initial application. Comparatives as at end of the year, ended March 31, 2019 have not been retrospectively adjusted.

Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payments discounted using the Company’s incremental cost of borrowing and directly attributable costs. Subsequently, the lease liability is –

- 1) increased by interest on lease liability;
- 2) reduced by lease payments made; and
- 3) remeasured to reflect any reassessment or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.

Measurement of Right-of-use assets

At the time of initial recognition, the Company measures 'Right-of-use assets' as present value of all lease payments discounted using the Company’s incremental cost of borrowing w.r.t said lease contract. Subsequently, 'Right-of-use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re measurement of the lease liability specified in Ind AS 116 'Leases'.

Depreciation on 'Right-of-use assets' is provided on straight line basis over the lease period.

The exception permitted in Ind AS 116 for low value assets and short-term leases has been adopted by Company.

Securities premium

Security Premium represents the premium received on issue of shares. It can be utilised to pay-off equity related expenses or for issuance of bonus shares and its related issue expenses.

General reserve

Under the erstwhile Companies Act 1956, general reserve was created through an annual transfer of net income at a specified percentage in accordance with applicable regulations. The purpose of these transfers was to ensure that if a dividend distribution in a given year is more than 10% of the paid up share capital of the Company for that year, then the total dividend distribution is less than total distributable reserve for that year. Consequent to introduction of the Companies Act 2013, the

requirement to mandatorily transfer a specified percentage of net profit to general reserve has been withdrawn. However the amount previously transferred to the general reserve can be utilised only in accordance with the specific requirements of the Companies Act, 2013.

Capital Redemption Reserve

Capital redemption reserve represents the amount of profits transferred from general reserve for the purpose of redemption of preference shares or for the buyback of shares.

29) Financial Risk Management Objectives and Policies

The Company's activities expose it to a variety of financial risks: market risk, credit risk and liquidity risk. The company's senior management oversees management of these risks. The Company's focus is to foresee the unpredictability of financial markets and seek to minimize potential adverse effects on its financial performance.

i) Market Risk**a) Foreign currency risk**

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices etc. The company operations involve foreign exchange transactions including mainly import, export, packing credit facilities and is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to US\$. Foreign currency risk arises from future commercial transactions and recognised in assets and liabilities denominated in foreign currency that is not company's functional currency. (i.e. INR) The risk is measured through forecast of highly probable foreign currency cash flow. No derivative instrument was outstanding at the end of the year.

Uncovered risks in foreign currency transactions disclosed as at:

Increase/(Decrease) in Profit or loss	0.16	(0.16)	0.15	(0.15)	0.46	(0.46)

b) Interest rate risk

Long-term borrowings of the Company bear fixed interest rate, thus interest rate risk is limited for the Company.

c) Other Market Price Risk

The company is exposed to Equity price risk, which arises from FVTPL of Equity securities. The company has a very insignificant portion of amount invested in quoted equity securities. The management monitors the proportion of quoted equity instruments in its investment portfolio based on market indices.

ii) Credit Risk

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customer. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

Trade and Other Receivables:

The Company maintains an allowance for impairment of doubtful accounts based on financial condition of the customer, classification of customer, ageing of the customer receivable and over dues, available collaterals and historical experience of collections from customer. Accordingly, the Company creates provision for past due receivables beyond 90 days ranging between 10-11 % after reckoning the underlying collaterals. Besides, based on the expected credit loss model the Company also provides 2% allowances for receivables not due and past due up to 90 days except export receivables, if any.

Summary of company's exposure to credit risk by age of the outstanding from various customers is as follows:

(₹ in Millions)

Expected credit loss assessment for customers as at 31st March 2020, 31st March 2019 and 31st March 2018.

iii) Liquidity risk

Liquidity risk is the risk that the company will encounter difficulty in raising funds to meet commitments associated with financial instruments. Liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through committed credit facilities to meet the obligations when due.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. The Company manages its liquidity risk by preparing month on month cash flow projections to monitor liquidity requirements.

The table below summarises the maturity profile of the Company's financial liabilities based on contractual undiscounted payments.

ii) Fair value hierarchy:

The company uses the following hierarchy for deterring and disclosing the fair value of financial instrument by valuation technique:

Level 1: Quoted (Unadjusted) Prices in Active Markets for Identical Assets or Liabilities.

Level 2: Other Techniques for Which All Inputs Which Have A Significant Effect on The Recorded Fair Value Are Observable, Either Directly or Indirectly.

Level 3: Techniques Which Use Inputs That Have a Significant Effect on the Recorded Fair Value That Are Not Based on Observable Market Data.

- iii) The company has fair valued its investment through profit and loss based on quoted prices of such investments in active market. Hence it falls under level 1 valuations technique.

32) Capital Management

Capital includes equity attributable to the equity holders to ensure that it maintains an efficient capital structure and healthy capital ratios in order to support its business and maximise shareholder value. The Company manages its capital structure and makes adjustments to it, in light of changes in economic conditions or its business requirements. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total equity. Net debt is calculated as total borrowings less cash and cash equivalents.

The gearing ratio at the reporting period was as follows:-

MANAGEMENT’S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

You should read the following discussion and analysis of our financial condition and results of operations, and our assessment of the factors that may affect our prospects and performance in future periods, together with our Restated Financial Statements for the Fiscals 2020, 2019, and 2018, including the notes thereto and reports thereon, each included in this Draft Red Herring Prospectus.

Unless otherwise stated, the financial information in this section has been derived from the Restated Financial Information included in this Draft Red Herring Prospectus. The Restated Financial Information are prepared and presented in accordance with Ind AS, in each case restated in accordance with the requirements of Section 26 of the Companies Act, 2013 read with Rule 4 of Companies (Prospectus and Allotment of Securities) Rules 2014, as amended, the SEBI ICDR Regulations and the Guidance Note on “Reports in Company Prospectus (Revised 2019)” issued by the ICAI (the “Guidance Note”).

Ind AS differs in certain material respects from Indian GAAP, IFRS and U.S. GAAP. Accordingly, the degree to which our financial statements will provide meaningful information to a prospective investor in countries other than India is entirely dependent on the reader's level of familiarity with Ind AS. This discussion and analysis contains forward-looking statements that reflect our current views with respect to future events and our financial performance, which are subject to numerous risks and uncertainties. Our actual results may differ materially from those anticipated in these forward-looking statements. You should also read “Forward-Looking Statements” and “Risk Factors” on pages 21 and 27, respectively, which discuss a number of factors and contingencies that could affect our business, financial condition and results of operations. Our Financial Year ends on March 31 of each year and accordingly, references to Financial Year are to the 12-month period ended March 31 of the relevant year.

Overview

We are a crop protection chemical manufacturer, exporter and marketing company based out of Vapi, Gujarat. We manufacture Intermediates, Technicals and Formulations. We are one of the leading domestic producers of synthetic pyrethroids like cypermethrin, alphacypermethrin, deltamethrin, permethrin, lambda cyhalothrin etc. Our Pesticides range includes insecticides, herbicides, fungicides and public health products for pest control. Our business verticals include (a) *Domestic Institutional sales of Technicals*: manufacturing and selling of Technicals in bulk to domestic companies; (b) *Technicals exports*: Exports of Technicals in bulk to customers outside India; (c) *Branded Formulations*: Manufacturing and selling of Formulations under our own brands through our own distribution network in India; (d) *Formulations exports*: Export of Formulations in bulk and customer specified packaging outside India; and (e) *Public health*: Manufacturing and selling of general insect control chemicals by participating in public health tenders issued by governmental authorities and selling to pest management companies.

We started our manufacturing activity in the year 1996 with production of an Intermediate product CMAC. By the FY 2001-2002, we forward integrated our Company into the manufacturing of various Technicals like metametron, cypermethrin, alpha, permethrin and deltamethrin. By the end of the FY 2004-2005, we further expanded our product range to Formulations, which are final products sold to farmers as Pesticides, Herbicides, Fungicides for crop protection and into public health products in the FY 2010-11. Our Company is present in the entire product value chain of the agrochemicals industry i.e. Intermediates, Technicals and Formulations and holds registrations for eighteen (18) Technicals for manufacture and sale in India, ninety-three (93) Technicals & Formulations for manufacture and sale in the export markets and one hundred and sixty seven (167) Formulations registered for manufacture and sale in India. Applications for registration of thirteen (13) Technicals & Formulations for manufacture & sale in India and two (2) Technicals to manufacture for the export markets have been filed with the CIB&RC and are in the process of evaluation. We have diversified our business from manufacturing and selling of Intermediates to manufacturing, marketing and selling of Technicals and Formulations. Majority of our current Intermediates production is utilized for captive consumption for the manufacturing of Technicals Products. Formulations are produced and packaged in powder and liquid forms and sold to distributors for further sales to farmers.

Our manufacturing process mainly includes chemical reactions of ammonolysis, esterification, hydrolysis, condensation, favorski reaction, isomerisation, cyanation, friedel crafts, methoxylation, cyclisation and halogenation. We have our in-house R&D team for product development and improvisation which is well supported by our product registration team. Our R&D facilities at Unit I and II are recognized by the Department of Scientific and Industrial Research, Ministry of Science & Technology, Government of India (DSIR). Our new R&D facility at Unit III Sarigam shall become operational from December, 2020.

We exported our products to more than sixty (60) countries in Latin America, CIS, Middle East, Africa, Asia and South East Asia in FY 2020. As of August 31, 2020, our International Distribution Partners have successfully obtained three hundred and sixty-one (361) registrations of our Technicals and Formulations in forty (40) countries across countries in Middle East, CIS, Asia, South East Asia and Africa. Our International Distribution Partners have presently filed one hundred sixty nine (169) registration applications for our Technicals and Formulations products which are pending before the regulatory authorities in twenty five (25) countries. Our International Distribution Partner in Europe has already received registration for Deltamethrin Technical and applications for registration of Lambda Cyhalothrin Technical, Alpha Cypermethrin Technical and Metribuzin Technical are in process before the relevant authority in EU. Our International Distribution Partner in the USA has also applied for registration of Lambda Cyhalothrin Technical manufactured by our Company as another source of supply to their existing registration for this product. We are in process of developing two (2) products of Fungicides, two (2) products of Herbicides and one (1) product of Insecticides, for which research and development tests have been initiated, for exclusive sale to the European markets after registration with the regulatory authority in EU. India has emerged as the largest pyrethroid manufacturer over the years. More than half of the global demand for Pyrethroids comes from China, after importing intermediates from India, which is used to produce pyrethroid. Yet China's adoption of the 'Blue Sky' program to realize green GDP has led to the shutdown of several chemical plants. This, in turn, is expected to result in higher volumes of Pyrethroids being exported out of India. For further information, please see "Industry Overview" beginning from page 95.

We have an extensive distribution network in India supported by a skilled sales force. We have more than eight thousand six hundred (8,600) dealers having access to twenty-one (21) depots of our Company across sixteen (16) states and one (1) union territory in India supporting the distribution of our products. We participate in various international & domestic agrochemical exhibitions and industry conferences to market our products. Our sales & marketing teams travel extensively to maintain and strengthen existing relationships with customers and exploring new relationships with potential customers. We also educate farmers regarding the benefits of using our products by conducting farmer training camps, participating in village level programmes and exhibitions to establish a direct relationship with farmer communities all over India. Some of our Branded Formulations sold to farmers in the domestic markets are "Jayam", "Progress Plus", "Param", "Cypraplus", "Dyken", "Mantra", "Astron", "Signor", "Prompt", "Cypra", "Heraban", "Sarag", "Alpha Shakti", "Henox[a] "Glory", "Chakde", "Heraquat", "Zinta", "Glory 71%", "Shera", "Pendant", "Atria", "Macamba", "Sulphy", "Mask", "Silicon Plus", "Propizole", "Vintage", "Exort", "Tulip", "Mandy", "Silicon", "Shado", "Heraphon", "Temper" and "Rat Kill" among others.

We have three (3) manufacturing and packaging facilities in and around the industrial belt of Vapi, Gujarat having one hundred seventy-two (172) reactors with an aggregate manufacturing capacity of 14,024 MTPA. These facilities will manufacture Intermediates like cypermethric acid chloride, cypermethric acid, MPBD and MPBAL and Technicals like Cypermethrin, Alphacypermethrin, Deltamethrin, Permethrin and Lambda cyhalothrin amongst others and a range of Insecticides, Herbicides and Fungicides Formulations. From four (4) facilities earlier, we have now integrated a facility with Unit I for operational purposes which will exclusively manufacture Intermediates and Technicals and Unit II will continue to manufacture Intermediates and Technicals. Facilities which has been mainly producing Formulations in liquid and powder forms, which are then packed in various sizes as per the required dosage for each crop on a per acre basis dismantled and shifted to Unit III at Sarigam. As a part of our expansion plans, we have in the year 2018 acquired on lease from GIDC around 55,000 sq. mtrs. of land at Sarigam, near Vapi, Gujarat out of which around 22,300 sq. mtrs. is being used for Formulations facility, which will streamline our production by some new reactors and establishing an automated facility for packaging the Formulations. Our new R&D facility at Unit III Sarigam shall become operational from December, 2020. The remaining land shall be utilized at a later stage for manufacturing Intermediates, Technicals and for establishing other administrative facilities. The Sarigam Unit III also has a rooftop solar plant generating 2,66,590 units-kWh per annum for captive consumption. Our manufacturing facilities have been/are being installed with well-balanced effluent treatment systems for solid, liquid and gaseous effluents and emission generated from our processes.

Our Promoters Sadashiv K. Shetty and Raghuram K. Shetty are first generation entrepreneurs and have more than three (3) decades of experience in the agrochemicals industry. They have been instrumental in the growth and management of our Company.

Significant Factors Affecting our Results of Operations

Availability and price of raw materials

Our business operations are primarily dependent on availability of raw material. Our costs of materials consumed represented 66.10%, 70.01% and 66.23% of our total revenue for the Financial Years 2020, 2019 and 2018, respectively. We do not have long term agreements with any of our raw material suppliers and we acquire such raw materials pursuant to our purchase orders from suppliers as a result of which, we are required to forecast our supply and demand. Our inability

to correctly forecast demand and supply may have an impact on our working capital. The availability and price of raw materials is subject to a number of factors beyond our control including demand and supply, general economic and political conditions, transportation and labour costs, natural disasters, competition and there are inherent uncertainties in estimating such variables, regardless of the methodologies and assumptions that we may use. Interruption of, or a shortage in the supply of, raw materials may result in our inability to operate our production facilities at optimal capacities, leading to a decline in production and sales. Recently, due to the outbreak of COVID-19 pandemic, we were unable to import a few of our raw materials from our overseas suppliers due to transport restrictions. However, we were able to substitute them with domestic suppliers in time and accordingly, we are able to continue our operations during such pandemic. In addition, while competition for procuring raw material may result in an increase in raw material prices, our ability to pass on such increases in overall operational costs may be limited. Furthermore, any increase in the cost of raw materials which results in an increase in prices of our products, may reduce demand for our products and thereby affect our margin and profitability.

Ability to obtain registrations

As a part of our strategy we continue to focus on seeking registrations to increase our portfolio of formulations and technicals. With respect to any new registration, we invest time and money inter alia on identification of generic molecules, registration procedures and fees, trials, various marketing and distribution activities. The launch of a product depends upon our ability to obtain registration in a timely manner or at all as well as on other factors. Accordingly, our profitability, financial condition and market position is dependent on our ability to obtain the necessary registration in a timely manner and to successfully launch and market our products. Also, see, “*Risk Factors – Our ability to introduce new products is dependent on getting the approval for manufacturing and/or selling under Insecticides Act.*” on page 39 of the Draft Red Herring Prospectus.

Seasonal and climatic variations

Our business is sensitive to seasonal fluctuations and climatic variations. The agriculture growing season in India is significantly influenced by the monsoon. Sales of agrochemical products typically begin ahead of the growing season and peak in the middle of the season. The narrow sowing period also puts significant pressure on the sales and the prices of our agrochemical products. Our quarterly results may vary as a result of the effects of fluctuations in prices of agrochemical products due to lower demand, commodity prices and production yields. Since our Company exports to more than 60 countries in the world, the export revenue is not a seasonal in nature. Other climatic variations may also affect our production and sales volumes and could affect our results of operations. Adverse weather conditions such as drought, floods and other natural calamities, could affect farmers’ decisions about the types and the quantum of crops to be planted, the incidence (or timing) of certain crop diseases or pest infestations and farmers’ purchase of agrochemical products, which make our operating results relatively unpredictable. For instance, a drought can reduce demand for pesticides significantly. As such, results of one reporting period may not be necessarily comparable with preceding or succeeding reporting periods. During periods of lower sales activities, we may continue to incur substantial operating expenses despite the fact that our revenue may be lower, delayed or reduced.

Growth of new product categories

We manufacture products which are derived from the generic agrochemical molecules. Going forward as well, we intend to rely on our R&D capabilities to develop new products, which will be manufactured from generic molecules. As a result, our ability to manufacture certain products is directly affected by the expiry of patents for various molecules. As existing patents for molecules expire, we can commence the process of creating dossiers, seeking registrations and marketing and distribution of formulations and generic active ingredients based on the generic versions of these molecules. Our ability to identify molecules going “off-patent” and the corresponding formulations and generic active ingredients in a cost effective, efficient and timely manner, to obtain registrations for the same and to protect such substitutes from legal challenges, will affect our results of operations. For our new products please see, “Our Business” on page 129.

Agricultural growth in economy

The growth in the world population and increased agricultural consumption has resulted into the use of agricultural land into the optimum level and the crop cultivated shall be protected from the insects, flies, etc. Therefore, to increase in agricultural productivity from the same arable land, the farmers use the pesticides to protect their crop from the insects. With this in mind, the use of agrochemicals has been an increasing trend in the Indian agricultural space. Any changes in government policies relating to the agriculture sector such as government expenditure in agriculture, changes in incentives and subsidy systems, export policies for crops, commodity pricing and ability of farmers to realize minimum support prices, among other things, could also have an effect on the ability of the farmers to spend on agrochemical products, which could affect the demand for, and the sales of, our products.

Our business is a consumer driven business, dominated by end-user farmers and institutions purchasing and utilizing our products. As a result, the key driver in the growth of our business and our revenue from operations is the volume of products manufactured and sold by us. Increased sales volume favorably affects our results of operations as it enables us to benefit from economies of scale in procurement of raw material and manufacturing and improves our operating margins through our ability to leverage our fixed cost base.

COVID-19 Pandemic

The world is facing an unprecedented challenge in this century with Corona Virus (Covid 19). World Health Organization (WHO), Geneva has been guiding the world in handling Covid 19 and has finally declared on 11th Mar 2020 as a Pandemic through an outbreak in China during December 2019. Time will tell the cause for the origin and spread, but the world is on tender hook (or on its toes) to stop the spread through various measures including lock-down or work from home or isolation with the concept of social distancing. Health care professionals are struggling to manage increasing Covid 19 cases across the globe. The human being is trying to adopt a new way of life and may soon see a significant change in the lifestyle of the people post-Covid 19.

The Agrochemical industry was categorized under essential commodities and allowed to operate during the lockdown. At Factory, steps was initiated to monitor and control the operations including the travel ban, thermal screening, sanitation and awareness campaigns have been conducted through video, mailers, posters, etc. The initial period (about a week) of lockdown operations were at a slow pace due to streamlining of processes by the Government authorities for movement of materials and personnel. Post this, operations are started improving on a week by week basis. Sales of goods are almost normal even in the initial period of lockdown. Heranba Team has exhibited very good teamwork to maintain and accelerate operations during these toughest days. There is no significant impact on the operations of Heranba and the Company is poised to generate growth in the operations.

The impact of the Lock down to the Company was minimal as the Company deals with Agro Products and the Government gave relaxation to the Agro Products. All factory of the Company is in operation though with less manpower. Laptops/ Computers has been made available to Employees at their Home with EPS connectivity so that they could do the Work from Home without any problem. Full Salary was being paid to the Employees without any cut.

The future impact of COVID-19 or any other severe communicable disease on our business and results of operations depends on several factors including those discussed in “Risk Factors” on page 27. We continue to closely monitor the economic conditions and the effect of COVID-19 and have outlined certain measures to combat the pandemic situation and to minimize the impact on our business.

Basis of preparation and significant accounting policies

1. Basis of preparation and presentation of Financial Statements:

The Restated financial statements of Assets and Liabilities as at 31st March 2020, 31st March 2019 and 31st March 2018 and Restated Statement of Profit and Loss, Restated Cash Flow Statement and the Restated Statement of Changes in Equity for the years ended 31st March 2020, 31st March 2019 and 31st March 2018 (together referred to as “Restated Financial Information”) have been compiled by the Company from the Audited Financial Statements to which further adjustments are made to comply in all material aspects with the requirements of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (the “SEBI ICDR Regulations”). Accordingly, these Restated Financial Information have been prepared after incorporating adjustments for the material amounts in the respective financial years to which they relate. There were no exceptional items that needed to be disclosed separately for the respective years under consideration.

The restated financial statements have been prepared and presented in accordance with the Indian Accounting Standards (“Ind AS”) notified under Section 133 of the Companies Act, 2013 (“the Act”) read with Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) (Amendment) Rules, 2016 and other relevant provisions of the Act.

This Restated Financial Information has been prepared for inclusion in the Offer Document to be filed by the Company with the Securities and Exchange Board of India (‘SEBI’) in connection with proposed Initial Public Offering of its equity shares, in accordance with the requirements of:

- a) Section 26 of Part 1 of Chapter III of the Companies Act, 2013 (“Act”);
- b) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended (“ICDR Regulations”); and

- c) The Guidance Note on Reports in Company Prospectus (Revised 2019) issued by the Institute of Chartered Accountants of India (“ICAI”), as amended from time to time (the “Guidance Note”).

This Restated Financial Information has been extracted by the Management from:

Audited financial statements of the Company as at and for the year ended March 31, 2020, March 31, 2019, and March 31, 2018 are prepared in accordance with the Indian Accounting Standards (referred to as “Ind AS”) as prescribed under Section 133 of the Act read with Companies (Indian Accounting Standards) Rules 2015, as amended, and other accounting principles generally accepted in India.

2. Significant accounting judgements, estimates and assumptions:

The preparation of financial statements in conformity with the recognition and measurement principles of Ind AS requires management to make judgements, estimates and assumptions that affect the reported balances of revenues, expenses, assets and liabilities and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of assets or liabilities affected in future periods.

Estimates and assumptions

The estimates and judgments used in the preparation of the financial statements are continuously evaluated by the Company and are based on historical experience and various other assumptions and factors (including expectations of future events) that the Company believes to be reasonable under the existing circumstances. Differences between actual results and estimates are recognised in the period in which the results are known/materialised. The said estimates are based on the facts and events, that existed as at the reporting date, or that occurred after that date but provide additional evidence about conditions existing as at the reporting date.

The areas involving critical estimates or judgments are:

- Estimation of defined benefit obligation
- Impairment of financial asset such as trade receivables
- Impairment of Non- financial Assets
- Estimation of Tax Expense and Liability

3. Summary of Significant Accounting Policies

A. Revenue Recognition

The Company recognizes revenue when control over the promised goods or services is transferred to the customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods or services.

The specific recognition criteria described below must also be met before revenue is recognised

a. Sale of goods:

The Company recognises revenue generally at the point in time when the products are delivered to customer or when it is delivered to a carrier for export sale, which is when the control over product is transferred to the customer. In contracts where freight is arranged by the Company and recovered from the customers, the same is treated as a separate performance obligation and revenue is recognized when such freight services are rendered. Revenue is adjusted for variable consideration such as discounts, rebates, refunds, credits, price concessions, incentives, or other similar items in a contract when they are highly probable to be provided. The amount of revenue excludes any amount collected on behalf of third parties.

b. Interest and dividend:

Interest income including income arising on other instruments are recognised on time proportion basis using the effective interest rate method.

Dividend income is recognized when the right to receive dividend is established.

B. Export Benefits:

The benefit accrued under the Duty Drawback, Merchandise Export Incentive Scheme and other schemes as per the Import and Export Policy in respect of exports made under the said schemes is included as 'Export Incentives' under the head 'Other operating revenue'.

C. Property Plant and Equipment, Investment Property and Depreciation / Amortisation:

- a. Items of Property, plant and equipment including Capital-work in-progress are stated at cost, net of accumulated depreciation and accumulated impairment losses, if any. Cost comprises the purchase price and any cost attributable of bringing the asset to its working condition for its intended use. Such cost includes the cost of replacing part of the plant and equipment and borrowing costs for long-term construction projects if the recognition criteria are met. Subsequent expenditure related to an item of fixed asset is added to its book value only if it increases the future benefits from the existing asset beyond its previously assessed standard of performance. When significant parts of plant and equipment are required to be replaced at intervals, the Company depreciates them separately based on their specific useful lives. All other repair and maintenance costs are recognized in statement of profit or loss as incurred.
- b. Depreciation is provided based on useful life of the assets as prescribed in Schedule II to the Companies Act, 2013. Depreciation on additions to assets or on sale/disposal of assets is calculated pro-rata from the month of such addition, or up to the month of such sale/disposal, as the case may be.

Asset Category	Estimated useful life (in Years)
Plant & Machinery	20
Servers and networks	6
Computer desktops and laptops	3
Laboratory Equipment's	10
Office Equipment's	5
Plumbing and Piping	20
Electrical Installation	10
Factory Building	30
Non-Factory Buildings	60
Vehicles	8
Furniture and Fixture	10
Leasehold Land	Over Primary Lease period

The residual values, useful lives and methods of depreciation of property plant equipment are reviewed at each financial year and adjusted prospectively, if appropriate.

D. Financial Instruments: -

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

1. Financial Assets: -

(i) Recognition and initial measurement: -

Trade Receivables are initially recognised when they are originated. All other financial assets are initially recognised when the Company becomes party to the contractual provisions of the instrument. All financial assets other than those measured subsequently at fair value through profit and loss, are recognised initially at fair value plus transaction costs that are attributable to the acquisition of the financial asset.

(ii) Classification and Subsequent measurement: -

For purposes of subsequent measurement, financial assets are classified in following categories:

a. Financial Assets at Amortised Cost: -

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate method (EIR). Amortized cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit & loss. The losses arising from impairment are recognized in the statement of profit and loss.

- b. Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI):-** Financial assets are measured at fair value through Other Comprehensive Income (OCI) if these financial assets are held within a business model with an objective to hold these assets in order to collect contractual cash flows or to sell these financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

After initial recognition, these assets are subsequently measured at Fair Value. Interest Income under Effective Interest method, foreign exchange gains and losses and impairment losses are recognized in the statement of profit and Loss. Other net gains and losses are recognized in OCI.

- c.** Financial asset not measured at amortised cost or at fair value through OCI is carried at Fair Value through Profit and Loss.

d. Equity Investments: -

All Equity investments within the scope of Ind AS 109 are measured at Fair Value. Such equity instruments which are held for trading are classified as FVTPL. For all other such equity instruments, the Company decides to classify the same either as FVOCI or FVTPL. The Company makes such election on an instrument by instrument basis. The classification is made on initial recognition and is irrevocable.

For Equity instruments classified as FVOCI, all fair value changes in the instrument excluding dividends are recognized in OCI. Dividends on such equity instruments are recognized in the statement of Profit or loss

(iii) De-recognition of Financial Assets: -

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised when:

- The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a ‘pass-through’ arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

On de-recognition, any gains or losses on all debt instruments (other than debt instruments measured at FVOCI) and equity instruments (measured at FVTP) are recognised in the statement of Profit and Loss. Gains and losses in respect of debt instrument measured at FVOCI and that are accumulated in OCI are reclassified to Profit and Loss on de-recognition. Gains or losses on equity instruments measured at FVOCI that are recognised and accumulated in OCI are not reclassified to Profit or Loss on de-recognition.

2. Financial Liabilities: -

Financial liabilities and equity instruments issued by the Company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

(i) Recognition and Initial Measurement

Financial liabilities are initially recognized when the Company becomes a party to the contractual provisions of the instrument. Financial Liability is initially measured at fair value plus, for an item not at fair value through profit and loss, net of transaction costs that are directly attributable to its acquisition or issue.

(ii) Classification and Subsequent Measurement

The measurement of financial liabilities depends on their classification, as described below:

a. Financial liabilities at fair value through Profit or Loss (FVTPL)

Financial liabilities at FVTPL include financial liabilities held for trading and financial liabilities designated upon initial recognition as at FVTPL. Financial Liabilities at FVTPL are measured at fair value and changes therein, including any interest expense, are recognised in Statement of Profit and Loss.

b. Financial liabilities at amortised cost

After initial recognition, financial liabilities other than those which are classified as FVTPL are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the Statement of Profit and Loss.

(iii) De-recognition of Financial Liabilities: -

Financial liabilities are de-recognised when the obligation specified in the contract is discharged, cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as de-recognition of the original liability and recognition of a new liability. The difference in the respective carrying amounts is recognised in the Statement of Profit and Loss.

3. Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

E. Impairment: -

a. Financial assets: -

In accordance with Ind AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the financial asset measured at amortized cost.

Loss allowances on trade receivables are measured following the 'Simplified Approach' at an amount equal to the Life time ECL at each reporting date. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

In respect of other financial asset, the loss allowance is measured at 12 month ECL only, if there is no significant deterioration in the credit risk since initial recognition of an asset or asset is determined to have a low credit risk at the reporting date.

b. Non-financial assets: -

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's fair value less costs of disposal and its value in use. Recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. When the carrying amount of an asset exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the

asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicator.

c. Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost. Provisions are reviewed at each balance sheet and adjusted to reflect the current best estimates.

F. Taxation: -

i. Current Tax: -

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using rates that have been enacted or substantively enacted by the end of the reporting period.

ii. Deferred Tax: -

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized.

The carrying amount of deferred tax asset is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realized, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

iii. Minimum Alternate Tax (MAT): -

Minimum Alternate Tax (MAT) paid as per Indian Income Tax Act, 1961 is in the nature of unused tax credit which can be carried forward and utilised when the Company will pay normal income tax during the specified period. Deferred tax assets on such tax credit are recognised to the extent that it is probable that the unused tax credit can be utilised in the specified future period. The net amount of tax recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the balance sheet.

G. Inventories: -

All inventories are stated at lower of 'Cost or Net Realizable Value'.

- A. Stores and spares, packing materials and raw materials are valued at lower of cost or net realisable value and for this purpose, cost is determined on First in First Out (FIFO) basis. Cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. However, the aforesaid items are not valued below cost if the finished products in which they are to be incorporated are expected to be sold at or above cost.
- B. Finished products and Work in Progress are valued at lower of cost or net realisable value and for this purpose, cost is determined on standard cost basis which approximates the actual cost. Cost of finished goods and work

in progress includes direct materials, direct labour and an appropriate proportion of variable and fixed overhead expenditure, the latter being allocated on the basis of normal operating capacity.

- C. Traded goods are valued at lower of cost and net realizable value. Cost is determined on a weighted average basis.
- D. Net realisable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and the estimated costs necessary to make the sale.

H. Employee benefits: -

a. Defined Contribution Plan: -

The Company pays provident fund contributions to publicly administered provident funds as per local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as define contribution plan and the contributions are recognised as employee benefit expense when they are due.

b. Defined Benefit Plan: -

The liability or asset recognised in the Balance Sheet in respect of defined benefit gratuity plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation denominated in ₹ is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Re measurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the year in which they occur, directly in other comprehensive income.

Changes in present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in the statement of profit and loss as past service cost.

c. Leave Entitlement: -

Leave entitlement are provided based on an actuarial valuation, similar to that of gratuity benefit. Re-measurement, comprising of actuarial gains and losses, in respect of leave entitlement are recognised in the Statement of Profit and Loss in the period in which they occur.

d. Short-term Benefits: -

Short-term employee benefits such as salaries, performance incentives etc. are recognised as expenses at the undiscounted amounts in the Statement of Profit and Loss of the period in which the related service is rendered.

I. Borrowings and Borrowing costs: -

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

J. Earnings per Share: -

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the weighted average number of equity shares outstanding during the year. The weighted average number of equity shares outstanding during the year is adjusted for events of bonus issue, if any.

For the purpose of calculating diluted earnings per share, the net profit or loss for the year attributable to equity shareholders and the weighted average number of shares outstanding during the year are adjusted for the effects of all dilutive potential equity shares.

K. Cash Flow Statement: -

Cash flows are reported using the indirect method, whereby profit for the period is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing cash flows. The cash flows from operating, investing and financing activities of the Company are segregated.

L. Cash and Cash Equivalents: -

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts, if any as they are considered an integral part of the Company's cash management.

M. Foreign currency transactions: -

- A. All transactions in foreign currency are recorded in the reporting currency, based on closing rates of exchange prevalent on the dates of the relevant transactions;
- B. Monetary assets and liabilities in foreign currency, outstanding as on the Balance Sheet date, are converted in reporting currency at the closing rates of exchange prevailing on the said date. Resultant gain or loss is recognized during the year in the Statement of Profit and Loss;
- C. Non-monetary assets and liabilities denominated in foreign currencies are carried at the exchange rate prevalent on the date of the transaction; and
- D. Exchange difference arising on the settlement of monetary items at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or expenses in the year in which they arise.

N. Segment reporting: -

Based on "Management Approach" as defined in Ind AS 108 - Operating Segments the chief operating decision maker regularly monitors and reviews the operating results of the whole Company as one segment of "Agro-Chemicals". Thus, as defined in Ind AS 108, the Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the Balance Sheet and the Statement of Profit and Loss. The analysis of geographical segments is based on the areas in which customers of the Company are located.

O. Provisions, contingent liabilities and contingent assets: -

A provision is recognized when the Company has a present obligation (legal or constructive) as a result of past event and it is probable that an outflow of resources embodying economic benefits will be required to settle a reliably assessable obligation. Provisions are determined based on best estimate required to settle each obligation at each balance sheet date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities are disclosed in respect of possible obligations that arise from past events, whose existence would be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent liabilities are also present obligations where it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured with sufficient reliability. Contingent Liabilities are not recognized in the financial statements but are disclosed separately.

Contingent assets are not recognised unless it becomes virtually certain that an inflow of economic benefits will arise.

P. Leases: -

Transition

Effective from April 1, 2019, the Company adopted Ind AS 116 "Leases" and applied the standard to all lease contracts existing on April 1, 2019 using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Consequently, the Company recorded the lease liability at the present value of the lease payments discounted at the incremental borrowing rate and the right of use asset at its carrying amount as if the standard had been applied since the commencement date of the lease, but

discounted at the Company's incremental borrowing rate at the date of initial application. Comparatives as at end of the year, ended March 31, 2019 have not been retrospectively adjusted.

Measurement of Lease Liability

At the time of initial recognition, the Company measures lease liability as present value of all lease payments discounted using the Company's incremental cost of borrowing and directly attributable costs. Subsequently, the lease liability is –

- 1) increased by interest on lease liability;
- 2) reduced by lease payments made; and
- 3) remeasured to reflect any reassessment or lease modifications specified in Ind AS 116 'Leases', or to reflect revised fixed lease payments.

Measurement of Right-of-use assets

At the time of initial recognition, the Company measures 'Right-of-use assets' as present value of all lease payments discounted using the Company's incremental cost of borrowing w.r.t said lease contract. Subsequently, 'Right-of-use assets' is measured using cost model i.e. at cost less any accumulated depreciation and any accumulated impairment losses adjusted for any re measurement of the lease liability specified in Ind AS 116 'Leases'.

Depreciation on 'Right-of-use assets' is provided on straight line basis over the lease period.

The exception permitted in Ind AS 116 for low value assets and short term leases has been adopted by Company.

Principle Components of Revenue and Expenses

The following is a brief description of the principal line items that are included in the statement of profit and losses of the Financial Statements.

Revenue

Revenue consists of revenue from operations and other income.

Revenue from operations is revenue obtained from sale of goods in product segments like domestic institutional sales of technicals, technicals exports, own brands, formulations exports and public health. Revenue is stated inclusive of excise duty and excludes sales tax/ value added tax (VAT) / Goods & Service Tax (GST).

Other income consists of interest income, dividend income, foreign exchange fluctuation gain, surplus on sale of fixed assets and miscellaneous income.

Expenses

Our total expenses is comprised of cost of materials consumed, changes in inventories of finished goods and work-in-progress, excise duty on finished goods, employee benefits expense, finance costs, depreciation and amortization expenses, and other expenses.

Cost of materials consumed: The materials consumed primarily include as a difference of opening and closing stocks added for the purchases.

Changes in inventories of finished goods and work-in-progress: It is calculated as the difference between opening and closing stocks of finished goods and work-in-progress and adjusted for provision for excise duty on opening stock.

Employee benefits expense: Employee benefits expense consists of (i) salaries, wages and bonuses, etc., (ii) contribution to provident and other funds, and (iii) staff welfare expenses.

Finance costs: Finance costs comprise of (i) interest paid on fixed loans, cash credits and bill discounting, (ii) other interest expense, and (iii) interest on redeemable preference shares and tax thereon.

Depreciation and amortization Expenses: It includes the depreciation of property, plant and equipment.

Other expenses: Other expenses comprises of consumption of stores and spares, repairs & maintenance to machinery, building, and vehicles, insurance, rent, rates and taxes, bad debts written off, allowances for doubtful debts, payment to auditor, power and fuel, freight, corporate social responsibility, loss on sale of assets, and other expenses.

Results of Operations

The following table sets forth a breakdown of our result of operations for the Financial Years 2020, 2019 and 2018 and each item as a percentage of our total revenue for periods indicated:

(₹ in million)

Loan from Directors	0.07
Total	454.67

We have fund and non-fund based borrowings. Our financing agreements include various conditions and covenants that require us to obtain lender consents prior to carrying out certain activities and entering into certain transactions. For further information on conditions and covenants in our agreements governing our outstanding indebtedness, see “*Financial Indebtedness*” on page 285.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements that have or which we believe reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenue or expenses, operating results, liquidity, capital expenditure or capital resources.

Related Party Transaction

We enter into various transactions with related parties in the ordinary course of business including sale of goods, sale of fixed assets, royalty income received, rent paid, dividend paid, interest payable and receivable, commission paid, loans taken and repaid and security deposits. For further information relating to our related party transactions, see “*Related Party Transactions*” on page 203.

Market Risks

Market risk is the risk of loss related to adverse changes in market prices, including interest rates and foreign exchange rates. In the normal course of business, we are exposed to certain market risks including foreign exchange rate risk and interest risk.

Interest Rate Risk

Interest rate risk results from changes in prevailing market interest rates, which can cause a change in the fair value of fixed-rate instruments and changes in the interest payments of the variable-rate instruments. Our operations are funded to a certain extent by borrowings.

Credit Risk

We are exposed to the risk that our counterparties may not comply with their obligations under a financial instrument or customer contract, leading to a financial loss. We are exposed to credit risk from our operating activities, primarily from trade receivables. Our customer base majorly has creditworthy counterparties which limit the credit risk, however, there can be no assurance that our counterparties may not default on their obligations, which may adversely affect our business and financial condition.

Liquidity risk

Adequate and timely cash availability for our operations is the liquidity risk associated with our operations. We require substantial amounts of working capital for our business operations such as maintaining and operating our manufacturing facility, marketing and distributing our products, developing new products and enhance existing products and the failure to obtain such capital may adversely affect our growth prospects and future profitability.

Foreign Currency Risk

Changes in currency exchange rates influence our results of operations. We import certain raw materials, the prices of which are denominated in foreign currency, which is mostly the US dollar. Our export sales are denominated in currencies other than Indian Rupees. Although we selectively enter into hedging transactions to minimize our foreign currency exchange risks, there can be no assurance that such measures will enable us to avoid the effect of any adverse fluctuations in the value of the Indian Rupee against the US dollar or other relevant foreign currencies.

Inflation risk

India has experienced high inflation in the recent past, which has contributed to an increase in interest rates. High fluctuation in inflation rates may make it more difficult for us to accurately estimate or control our costs.

Unusual or Infrequent Events or Transactions

Except as described in this Draft Red Herring Prospectus, there have been no other events or transactions that, to our knowledge, may be described as “unusual” or “infrequent”

Significant Dependence on a Few Customers and Suppliers

We are not dependent on single or few suppliers or customers for our sales and purchases.

Total Turnover of Each Major Industry Segment

For details of the industry please refer to Chapter titled “*Industry Overview*” on page 95.

Significant Economic Changes That Materially Affected or are Likely to Affect Income from Operations

Other than as described in this section and the sections of this Draft Red Herring Prospectus entitled “*Our Business*”, “*Risk Factors*” and “*Industry Overview*” on pages 129, 27 and 95, there have been no significant economic changes that materially affected or are likely to affect our Company’s income from operations.

Known Trends or Uncertainties

Other than as described in this Draft Red Herring Prospectus, particularly in the sections “*Risk Factors*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 27 and 262, respectively, to our knowledge, there are no known trends or uncertainties that are expected to have a material adverse impact on our revenues or income from continuing operations.

Future Relationship between Cost and Revenue

Other than as described in “*Risk Factors*”, “*Our Business*” and “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” on pages 27, 129 and 262, respectively, to our knowledge there are no known factors that may adversely affect our business prospects, results of operations and financial condition.

Material Increases in Net Income and Sales

Material increases in our Company’s net income and sales are primarily due to the reasons described in the section titled “*Management’s Discussion and Analysis of Financial Condition and Results of Operations*” above on page 262.

New Products or Business Segments

Other than as disclosed in this chapter and in “*Our Business*” on page 129, there are no new products or business segments that have or are expected to have a material impact on our business prospects, results of operations or financial condition.

Competitive Conditions

We operate in a competitive environment. For further details see “*Our Business*”, “*Industry Overview*” and “*Risk Factors*” on pages 129, 95 and 27, respectively.

Seasonality of Business

Our business is sensitive to seasonal fluctuations and climatic variations on account of monsoon.

Significant Developments Subsequent to March 31, 2020 that may affect our Results of Operations

To our knowledge, except as otherwise disclosed in this Draft Red Herring Prospectus, there is no subsequent development after the date of our financial statements contained in this Draft Red Herring Prospectus which materially and adversely affects, or is likely to affect, our operations or profitability, or the value of our assets, or our ability to pay our material liabilities within the next 12 months.

Mechanism for Redressal of Investor Grievance

The Agreement between the Registrar and our Company provides for retention of records with the Registrar for a period of at least three year from the last date of dispatch of the letters of allotment, demat credit and unblocking of funds to enable the investors to approach the Registrar to this Offer for redressal of their grievances.

All grievances relating to the Offer may be addressed to the Registrar to the Offer, giving full details such as name, address of the applicant, number of Equity Shares applied for, amount paid on application and the bank branch or collection centre where the application was submitted.

All grievances relating to the ASBA process may be addressed to the Registrar to the Offer with a copy to the relevant

Designated Intermediary with whom the Bid cum Application Form was submitted. The Bidder should provide complete details such as name of the sole/ first Bidder, Bid cum Application Form number, the Bidder's, DP ID, Client ID, UPI ID (for Retail Individual Investors who make the payment of Bid Amount through the UPI Mechanism), PAN, date of the Bid cum Application Forms, address of the Bidder, number of Equity Shares applied for, the name and address of the Designated Intermediary where the Bid cum Application Form was submitted by the ASBA Bidder and the ASBA Account number in which the amount equivalent to the Bid Amount is blocked. Further, the Bidder shall also enclose the Acknowledgement Slip from the Designated Intermediaries in addition to the documents/ information mentioned hereinabove. The Registrar to the Offer shall obtain the required information from the SCSBs for addressing any clarifications or grievances of ASBA Bidders.

All grievances of the Anchor Investors may be addressed to the Registrar to the Offer, giving full details such as name of the sole/ first Bidder, Anchor Investor Form number, DP ID, Client ID, PAN, date of the Anchor Investor Form, address of the Anchor Investor, number of Equity Shares applied for, Bid Amount paid on submission of the Anchor Investor Form and the name and address of the BRLMs where the Anchor Investor Form was submitted by the Anchor Investor.

In terms of SEBI circular no. SEBI/HO/CFD/DIL2/CIR/P/2018/22, dated February 15, 2018, any ASBA Bidder whose Bid has not been considered for Allotment, due to failure on the part of any SCSB, shall have the option to seek redressal of the same by the concerned SCSB within three months of the date of listing of the Equity Shares. SCSBs are required to resolve these complaints within 15 days, failing which the concerned SCSB would have to pay interest at the rate of 15% per annum for any delay beyond this period of 15 days

Our Company has not received any investor complaint during the three years preceding the date of this Draft Red Herring Prospectus. Further, no investor complaints are pending against our Company as on date of the Draft Red Herring Prospectus.

Further, with respect to the Bid cum Application Forms submitted with the Registered Brokers, the investor shall also enclose the acknowledgment from the Registered Broker in addition to the documents/ information mentioned hereinabove.

Our Company, the Selling Shareholders, the BRLMs and the Registrar to the Offer accept no responsibility for errors, omissions, commission of any acts of the Designated Intermediaries including any defaults in complying with its obligations under the SEBI ICDR Regulations.

Our Company shall obtain authentication on the SCORES and comply with the SEBI circular (CIR/OIAE/1/2013) dated April 17, 2013 in relation to redressal of investor grievances through SCORES.

Disposal of Investor Grievances by our Company

Our Company estimates that the average time required by our Company or the Registrar to the Offer or the relevant Designated Intermediary, for the redressal of routine investor grievances shall be seven Working Days from the date of receipt of the complaint. In case of non-routine complaints and complaints where external agencies are involved, our Company will seek to redress these complaints as expeditiously as possible.

Our Company has also appointed Abdul Latif, Company Secretary as the Compliance Officer for the Offer. For details, see "*General Information*" on page 58.

The Selling Shareholders have authorized the Compliance Officer of our Company and the Registrar to the Offer to redress any complaints received from Bidders in respect of their respective portion of the Offered Shares

There are no listed companies under the same management as our Company.

We have constituted the Stakeholders Relationship Committee/ Investor Grievance Committee of the Board vide resolution passed at the Board Meeting held on August 31, 2018. For further details, refer to the chapter titled "*Our Management*" beginning on page 172.

SECTION VIII – OFFER RELATED INFORMATION

The Equity Shares will also be subject to all applicable laws, guidelines, rules, notifications and regulations relating to issue and offer for sale and listing and trading of securities, issued from time to time, by the SEBI, GoI, Stock Exchanges, the RoC, the RBI and/or other authorities to the extent applicable or such other conditions as may be prescribed by such governmental and/or regulatory authority while granting approval for the Offer.

Ranking of Equity Shares

The Equity Shares being offered and Allotted in the Offer will be subject to the provisions of the Companies Act 2013, the Memorandum of Association and the Articles of Association and will rank *pari passu* in all respects with the existing Equity Shares of our Company, including in respect of dividends and other corporate benefits, if any, declared by our Company. For more information, see “*Main Provisions of the Articles of Association*” on page 335.

Mode of Payment of Dividend

Our Company will pay dividend, if declared, to our equity shareholders, as per the provisions of the Companies Act 2013, the SEBI Listing Regulations, the Memorandum of Association and the Articles of Association, and any guidelines or directives that may be issued by the GoI in this respect. Any dividends declared after the date of Allotment (including pursuant to the transfer of Equity Shares from the Offer for Sale) in this Offer will be received by the Allottees, for the entire year, in accordance with applicable law. For more information, see “*Dividend Policy*” and “*Main Provisions of the Articles of Association*” on pages 204 and 335, respectively.

Face Value, Offer Price, Floor Price and Price Band

The face value of each Equity Share is ₹10 and the Offer Price is ₹ [●] per Equity Share. At any given point of time there will be only one denomination for the Equity Shares. The Floor Price of the Equity Shares is ₹ [●] and the Cap Price of the Equity Shares is ₹ [●], being the Price Band. The Anchor Investor Offer Price is ₹ [●] per Equity Share.

The Price Band and the minimum Bid Lot size in the Offer will be decided by our Company and Selling Shareholders, in consultation with the BRLMs and shall be published at least two Working Days prior to the Bid/Offer Opening Date, advertised in all editions of [●], all editions of [●] and Gujarat edition of [●] which are widely circulated English, Hindi and Gujarati daily newspapers respectively (Gujarati being the regional language of Gujarat where our Registered Office is located), and shall be made available to the Stock Exchanges for the purpose of uploading on their websites. The Price Band, along with the relevant financial ratios calculated at the Floor Price and at the Cap Price shall be pre-filled in the Bid-cum-Application Forms available at the website of the Stock Exchanges.

Rights of the Equity Shareholders

Subject to applicable laws, rules, regulations and guidelines and our AoA, our equity shareholders shall have the following rights:

- Right to receive dividends, if declared;
- Right to attend general meetings and exercise voting rights, unless prohibited by law;
- Right to vote on a poll either in person or by proxy, in accordance with the provisions of the Companies Act;
- Right to receive offers for rights shares and be allotted bonus shares, if announced;
- Right to receive surplus on liquidation, subject to any statutory and preferential claim being satisfied;
- Right of free transferability, subject to applicable laws including any RBI rules and regulations; and
- Such other rights, as may be available to a shareholder of a listed public company under the Companies Act, the SEBI LODR, Regulations and our MoA and AoA and other applicable laws.

For a detailed description of the main provisions of our AoA relating to voting rights, dividend, forfeiture and lien, transfer, transmission, consolidation and splitting, see “*Main Provisions of Articles of Association*” on page 335.

Joint Holders

Subject to the provisions contained in our Articles of Association, where two or more persons are registered as the holders of the Equity Shares, they will be deemed to hold such Equity Shares as joint tenants with benefits of survivorship.

Market Lot and Trading Lot and Allotment of securities in dematerialised form

In terms of Section 29 of the Companies Act 2013, and the SEBI ICDR Regulations, the Equity Shares shall be allotted only in dematerialized form. As per the SEBI ICDR Regulations, the trading of the Equity Shares shall only be in dematerialized form. In this context, tripartite agreements had been signed among the Company, the respective Depositories and Bigshare Services Private Limited.

- Agreement dated March 19, 2012, amongst NSDL, our Company and the Registrar to the Offer;
- Agreement dated May 28, 2018, amongst CDSL, our Company and the Registrar to the Offer

Since trading of the Equity Shares will only be in dematerialized form, the tradable lot is one Equity Share. Allotment in the Offer will be only in electronic form in multiples of [●] Equity Share subject to a minimum Allotment of [●] Equity Shares. For the details of basis of allotment, see “*Offer Procedure*” on page 320.

Compliance with disclosure and accounting norms

Our Company shall comply with all applicable disclosure and accounting norms as specified by SEBI from time to time.

Nomination Facility to Bidders

In accordance with Section 72 of the Companies Act, 2013, read with Companies (Share Capital and Debentures) Rules, 2014, the sole Bidder, or the First Bidder, along with other joint Bidders, may nominate any one person in whom, in the event of the death of sole Bidder or in case of joint Bidders, death of all the Bidders, as the case may be, the Equity Shares Allotted, if any, will vest. A person, being a nominee, entitled to the Equity Shares by reason of the death of the original holder(s), will be entitled to the same advantages to which he or she would be entitled if he or she were the registered holder of such Equity Shares. Where the nominee is a minor, the holder(s) may make a nomination to appoint, in the prescribed manner, any person to become entitled to Equity Shares in the event of his or her death during the minority. A nomination will stand cancelled, or varied by any other person in place of the present nominee, by the holder of the Equity Shares who has made the nomination, by giving a notice of such cancellation or variation to our Company in the prescribed form. Fresh nomination can be made only on the prescribed form available on request at our Registered and Corporate Office or to the registrar and transfer agents of our Company

Further, any person who becomes a nominee by virtue of the provisions of Section 72 of the Companies Act, 2013 will upon the production of such evidence as may be required by our Board, elect either:

- a) to register himself or herself as the holder of the Equity Shares; or
- b) to make such transfer of the Equity Shares, as the deceased holder could have made.

Further, our Board may at any time give notice requiring any nominee to choose either to be registered himself or herself or to transfer the Equity Shares, and if the notice is not complied with within a period of 90 days, our Board may thereafter withhold payment of all dividends, bonuses, interests or other moneys payable in respect of the Equity Shares, until the requirements of the notice have been complied with.

Since the Allotment of Equity Shares in the Offer will be made only in dematerialized form, there is no need to make a separate nomination with our Company. Nominations registered with the respective Depository Participant of the Bidder would prevail. If the Bidders wish to change the nomination, they are requested to inform their respective Depository Participant.

Bid/Offer Period

BID/OFFER OPENS ON*	[●]
BID/OFFER CLOSES ON**	[●]

*Our Company and the Selling Shareholders in consultation with the BRLMs may consider participation by Anchor Investors. The Anchor Investor Bid/Offer Period will be one Working Day prior to the Bid/Offer Opening Date in accordance with the SEBI ICDR Regulations.

**Our Company and the Selling Shareholders in consultation with the BRLMs, may decide to close the Bid/Offer Period for QIBs one Working Day prior to the Bid/Offer Closing Date in accordance with the SEBI ICDR Regulations.

An indicative timetable in respect of the Offer is set out below:

EVENT	INDICATIVE DATE
BID/OFFER CLOSING DATE	[●]
FINALIZATION OF BASIS OF ALLOTMENT WITH THE DESIGNATED STOCK EXCHANGE	On or about [●]
INITIATION OF REFUNDS (IF ANY, FOR ANCHOR INVESTORS)/UNBLOCKING OF FUNDS FROM ASBA ACCOUNT	On or about [●]
CREDIT OF EQUITY SHARES TO DEMAT ACCOUNTS OF ALLOTTEES	On or about [●]
COMMENCEMENT OF TRADING OF THE EQUITY SHARES ON THE STOCK EXCHANGES	On or about [●]

This above timetable is indicative in nature and does not constitute any obligation or liability on our Company, the respective Selling Shareholders or BRLMs or the members of the Syndicate.

While our Company shall ensure that all steps for the completion of the necessary formalities for the listing and the commencement of trading of the Equity Shares on the Stock Exchanges are taken within six Working Days of the Bid/Offer Closing Date, the timetable may be extended due to various factors, such as extension of the Bid/Offer Period by our Company and the Selling Shareholders, in consultation with the BRLMs, revision of the Price Band or any delay in receiving the final listing and trading approval from the Stock Exchanges. The commencement of trading of the Equity Shares will be entirely at the discretion of the Stock Exchanges and in accordance with the applicable laws. Each of the Selling Shareholders, severally and not jointly, confirm that they shall extend such reasonable support and co-operation required by our Company and the BRLMs for completion of the necessary formalities for listing and commencement of trading of the Equity Shares at the Stock Exchanges within six Working Days from the Bid/Offer Closing Date or such other period as may be prescribed by SEBI.

In terms of the UPI Circulars, in relation to the Offer, the BRLMs will submit reports of compliance with T+6 listing timelines and activities, identifying non-adherence to timelines and processes and an analysis of entities responsible for the delay and the reasons associated with it.

SEBI is in the process of streamlining and reducing the post issue timeline for IPOs. Any circulars or notifications from SEBI after the date of this Draft Red Herring Prospectus may result in changes to the above mentioned timelines. Further, the offer procedure is subject to change to any revised SEBI circulars to this effect.

Submission of Bids (other than Bids from Anchor Investors)

Except in relation to Anchor Investors, Bids and any revision in Bids will be accepted only between 10.00 a.m. and 5.00 p.m. (Indian Standard Time) during the Bid/Offer Period at the Bidding Centres, except that on the Bid/Offer Closing Date (which for QIBs may be a day prior to the Bid/Offer Closing Date for non-QIBs), Bids will be accepted only between 10.00 a.m. and 3.00 p.m. (Indian Standard Time).

On the Bid/Offer Closing Date, the Bids shall be uploaded until:

- (i) 4.00 p.m. IST in case of Bids by QIBs and Non-Institutional Bidders, and
- (ii) until 5.00 p.m. IST or such extended time as permitted by the Stock Exchanges, in case of Bids by Retail Individual

Bidders.

On Bid/Offer Closing Date, extension of time will be granted by Stock Exchanges only for uploading Bids received by Retail Individual Bidders after taking into account the total number of Bids received and as reported by the BRLMs to the Stock Exchanges.

It is clarified that Bids not uploaded on the electronic bidding system or in respect of which the full Bid Amount is not blocked by SCSBs and the Sponsor Bank or the full Bid Amount is not blocked under the UPI Mechanism in the relevant ASBA Account, as the case may be, would be rejected.

Due to limitation of time available for uploading the Bids on the Bid/Offer Closing Date, Bidders are advised to submit their Bids one day prior to the Bid/Offer Closing Date. Any time mentioned in this Draft Red Herring Prospectus is Indian Standard Time. Bidders are cautioned that, in the event a large number of Bids are received on the Bid/Offer Closing Date, some Bids may not get uploaded due to lack of sufficient time. Such Bids that cannot be uploaded will not be considered for allocation under the Offer. Bids will be accepted only during Monday to Friday (excluding any public holiday). None of our Company, the Selling Shareholders or any member of the Syndicate is liable for any failure in uploading the Bids due to faults in any software or hardware system or blocking of application amount by SCSBs on receipt of instructions from the Sponsor Bank due to any errors, omissions, or otherwise non-compliance by various parties involved in, or any other fault, malfunctioning or breakdown in the UPI Mechanism.

In case of any discrepancy in the data entered in the electronic book vis -a-vis the data contained in the physical Bid cum Application Form, for a particular Bidder, the details as per the Bid file received from the Stock Exchanges shall be taken as the final data for the purpose of Allotment.

Our Company and the Selling Shareholders, in consultation with the BRLMs, reserves the right to revise the Price Band during the Bid/Offer Period, in accordance with the SEBI ICDR Regulations, provided that the Cap Price will be less than or equal to 120% of the Floor Price and the Floor Price will not be less than the face value of the Equity Shares. Subject to compliance with the foregoing, the Floor Price may move up or down to the extent of 20% of the Floor Price and the Cap Price will be revised accordingly.

In case of revision in the Price Band, the Bid/Offer Period will be extended for at least three additional Working Days after revision of Price Band subject to the Bid/Offer Period not exceeding 10 Working Days. In cases of force majeure, banking strike or similar circumstances, our Company may, for reasons to be recorded in writing, extend the Bid/Offer Period for a minimum of three Working Days, subject to the Bid/Offer Period not exceeding 10 Working Days. Any revision in the Price Band and the revised Bid/Offer Period, if applicable, will be widely disseminated by notification to the Stock Exchanges by issuing a press release and by indicating the change on the websites of the BRLMs and terminals of the Syndicate Members and will also intimated to SCSBs, Sponsor Bank and other Designated Intermediaries.

Minimum Subscription

If our Company does not receive the minimum subscription in the Offer as specified under Rule 19(2)(b) of the SCRR or the minimum subscription of 90% of the Fresh Issue on the date of closure of the Offer; or withdrawal of applications or after technical rejections; or if the listing or trading permission is not obtained from the Stock Exchange for the Equity Shares so offered under the Red Herring Prospectus, our Company shall forthwith refund the entire subscription amount received. If there is a delay beyond fifteen days, our Company and our Directors, who are officers in default, shall pay interest at the rate of fifteen per cent. per annum. Subject to applicable law, a Selling Shareholder shall not be responsible to pay interest for any delay, unless such delay has been caused solely by such Selling Shareholder. The requirement for minimum subscription is not applicable to the Offer for Sale. In the event that insufficient bids are received, after meeting the minimum subscription of 90% of the Fresh Issue, the balance allotment will be met through the Offered Shares offered by the Selling Shareholders on a pro rata basis to their respective shareholding.

In the event of under-subscription in the Offer, the Equity Shares will be Allotted in the following order:

- (i) such number of Equity Shares will first be Allotted by the Company such that 90% of the Fresh Issue portion is subscribed;
- (ii) next, all the Equity Shares held by the Selling Shareholders and offered for sale in the Offer for Sale will be Allotted; and
- (iii) once Equity Shares have been Allotted as per (i) and (ii) above, such number of Equity Shares will be Allotted by the Company that the balance 10% of the Fresh Issue portion is also subscribed

Undersubscription, if any, in any category except the QIB portion, would be met with spill-over from the other categories at the discretion of our Company, in consultation with the Book Running Lead Managers, and the Designated Stock Exchange.

Further, our Company shall ensure that the number of prospective allottees to whom the Equity Shares will be Allotted will be not less than 1,000.

Arrangements for Disposal of Odd Lots

Since our Equity Shares will be traded in dematerialised form only and the market lot for our Equity Shares will be one Equity Share, no arrangements for disposal of odd lots are required.

Restrictions, if any on Transfer and Transmission of Equity Shares

Except for lock-in of pre-Offer Equity Share capital of our Company, Minimum Promoters' Contribution and Anchor Investor lock-in in the Offer, as provided in "*Capital Structure*" on page 67 and except as provided in our Articles of Association as detailed in "*Main provisions of Articles of Association*" on page 335, there are no restrictions on transmission of Equity Shares. Further, there are other restrictions on the transmission of shares/debentures and on their consolidation/splitting, except as provided in the Articles of Association. For details, see "*Main provisions of Articles of Association*" on page 335.

Withdrawal of the Offer

Our Company and the Selling Shareholders severally and not jointly, in consultation with the BRLMs, reserve the right not to proceed with the Fresh Issue, and each Selling Shareholder, severally and not jointly, reserves the right not to proceed with the Offer for Sale, in whole or in part thereof, to the extent of their respective portion of the Offered Shares, after the Bid/ Offer Opening Date but before the Allotment. In such an event, our Company would issue a public notice in the newspapers in which the pre-Offer advertisements were published, within two days of the Bid/ Offer Closing Date or such other time as may be prescribed by SEBI, providing reasons for not proceeding with the Offer and inform the Stock Exchanges simultaneously. The BRLMs, through the Registrar to the Offer, shall instruct the SCSBs and the Sponsor Bank, as applicable, to unblock the bank accounts of the ASBA Bidders within one Working Day from the date of receipt of such instruction and also inform the Bankers to the Offer to process refunds to the Anchor Investors, as the case may be. Our Company shall also inform the same to the Stock Exchanges on which Equity Shares are proposed to be listed. The notice of withdrawal will be issued in the same newspapers where the pre-Offer advertisements have appeared, and the Stock Exchanges will also be informed promptly.

If our Company and/or the Selling Shareholders withdraw the Offer after the Bid/ Offer Closing Date and thereafter determines that it will proceed with an issue/ offer for sale of the Equity Shares, our Company shall file a fresh raft red herring prospectus with SEBI. Notwithstanding the foregoing, this Offer is also subject to obtaining the final listing and trading approvals of the Stock Exchanges, which our Company shall apply for after Allotment, and the final RoC approval of the Prospectus after it is filed with the RoC.

Authority for the Offer

This Offer has been authorized by a resolution of the Board passed at their meeting held on September 9, 2020 subject to the approval of shareholders through a special resolution to be passed pursuant to section 62 (1) (c) of the Companies Act, 2013. * Assuming full subscription in the Offer

(1) Our Company and the Selling Shareholders in consultation with the BRLMs may allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis. One-third of the Anchor Investor Portion shall be reserved for domestic Mutual Funds only, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription or non-Allotment in the Anchor Investor Portion, the balance Equity Shares in the Anchor Investor Portion shall be added to the Net QIB Portion. For details, see “Offer Procedure” on page 320.

(2) Subject to valid Bids being received at or above the Offer Price. This Offer is being made in accordance with Rule 19(2)(b) of the SCRR in compliance with Regulation 6(1) of the SEBI ICDR Regulations.

(3) In case of joint Bids, the Bid cum Application Form should contain only the name of the first Bidder whose name should also appear as the first holder of the beneficiary account held in joint names. The signature of only such first Bidder would be required in the Bid cum Application Form and such first Bidder would be deemed to have signed on behalf of the joint holders. Our Company reserves the right to reject, in its absolute discretion, all or any multiple Bids, except as otherwise permitted, in any or all categories.

(4) Full Bid Amount shall be payable by the Anchor Investors at the time of submission of the Anchor Investor Application Forms provided that any difference between the Anchor Investor Allocation Price and the Anchor Investor Offer Price shall be payable by the Anchor Investor pay-in-date as indicated in the CAN. For details of terms of payment applicable to Anchor Investors, see General Information Document.

Bidders will be required to confirm and will be deemed to have represented to our Company, the Selling Shareholders, the Underwriters, their respective directors, officers, agents, affiliates and representatives that they are eligible under applicable law, rules, regulations, guidelines and approvals to Bid and acquire the Equity Shares.

Subject to valid Bids being received at or above the Offer Price, under-subscription, if any, in the Non-Institutional Portion or the Retail Portion would be allowed to be met with spill-over from other categories or a combination of categories at the discretion of our Company and the Selling Shareholders, in consultation with the BRLMs and the Designated Stock Exchange, on a proportionate basis. However, under-subscription, if any, in the QIB Portion will not be allowed to be met with spill-over from other categories or a combination of categories. For further details, see “Terms of the Offer” on page 311.

OFFER PROCEDURE

All Bidders should read the General Information Document for Investing in Public Issues, which highlights the key rules, processes and procedures applicable to public issues in general in accordance with the provisions of the Companies Act, the SCRA, the SCRR and the SEBI ICDR Regulations. The General Information Document is available on the websites of the Stock Exchanges and the BRLMs. Please refer to the relevant provisions of the General Information Document, which are applicable to the Offer.

Additionally, all Bidders may refer to the General Information Document for information in relation to (i) category of investors eligible to participate in the Offer; (ii) maximum and minimum Bid size; (iii) price discovery and allocation; (iv) payment instructions for ASBA Bidders; (v) issuance of Confirmation of Allocation Note (“CAN”) and Allotment in the Offer; (vi) general instructions (limited to instructions for completing the Bid cum Application Form); (vii) designated date; (viii) disposal of applications; (ix) submission of Bid cum Application Form; (x) other instructions (limited to joint bids in cases of individual, multiple bids and instances when an application would be rejected on technical grounds); (xi) applicable provisions of Companies Act, 2013 relating to punishment for fictitious applications; (xii) mode of making refunds; and (xiii) interest in case of delay in Allotment or refund.

SEBI through its circular (SEBI/HO/CFD/DIL2/CIR/P/2018/138) dated November 1, 2018 as amended from time, including pursuant to circular (SEBI/HO/CFD/DIL2/CIR/P/2019/50) dated April 3, 2019 (“UPI Circular”) has proposed to introduce an alternate payment mechanism using Unified Payment Interface (“UPI”) and consequent reduction in the timelines for listing in phased manner. UPI has been introduced in a phased manner as a payment mechanism in addition to ASBA for applications by Retail Individual Investors through intermediaries from January 1, 2019. The UPI Mechanism for Retail Individual Investors applying through Designated Intermediaries, in phase I, was effective along with the prior process and existing timeline of T+6 days (“UPI Phase I”), until June 30, 2019.

With effect from July 1, 2019, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2019/76 dated June 28, 2019, read with circular bearing number SEBI/HO/CFD/DIL2/CIR/P/2019/85 dated July 26, 2019 with respect to Bids by RIBs through Designated Intermediaries (other than SCSBs), the existing process of physical movement of forms from such Designated Intermediaries to SCSBs for blocking of funds has been discontinued and only the UPI Mechanism for such Bids with existing timeline of T+6 days was mandated for a period of three months or launch of five main board public issues, whichever is later (“UPI Phase II”). Subsequently, however, SEBI vide its circular no. SEBI/HO/CFD/DCR2/CIR/P/2019/133 dated November 8, 2019 extended the timeline for implementation of UPI Phase II till March 31, 2020. However, given the prevailing uncertainty due to the COVID-19 pandemic, SEBI vide its circular no. SEBI/HO/CFD/DIL2/CIR/P/2020/50 dated March 30, 2020, has decided to continue with the UPI Phase II till further notice. The final reduced timeline will be made effective using the UPI Mechanism for applications by RIBs (“UPI Phase III”), as may be prescribed by SEBI.

The Offer will be made under UPI Phase II of the UPI Circular, unless UPI Phase III of the UPI Circular becomes effective and applicable on or prior to the Bid / Offer Opening Date. If the Offer is made under UPI Phase III of the UPI Circular, the same will be advertised in [●] editions of the English national daily newspaper, [●], [●] editions of the Hindi national daily newspaper, [●],[●] editions of the Gujarati national daily newspaper, [●] (Gujarati being the regional language of Gujarat, where our Registered Office is located) on or prior to the Bid / Offer Opening Date and such advertisement shall also be made available to the Stock Exchanges for the purpose of uploading on their websites.

Further, Our Company, the Selling shareholders and the BRLMs do not accept any responsibility for the completeness and accuracy of the information stated in this section and are not liable for any amendment, modification or change in the applicable law which may occur after the date of this Draft Red Herring Prospectus. Bidders are advised to make their independent investigations and ensure that their Bids are submitted in accordance with applicable laws and do not exceed the investment limits or maximum number of the Equity Shares that can be held by them under applicable law or as specified in this Draft Red Herring Prospectus.

Further, our Company, the Selling Shareholders and the Members of the Syndicate do not accept any responsibility for any adverse occurrences consequent to the implementation of the UPI Mechanism for application in the Offer.

Book Building Procedure

The Offer is being made through the Book Building Process in accordance with Regulation 6(1) of the SEBI ICDR Regulations wherein not more than 50% of the Net Offer shall be allocated on a proportionate basis to QIBs, provided that our Company (through the IPO Committee) in consultation with the BRLMs, allocate up to 60% of the QIB Portion to Anchor Investors on a discretionary basis in accordance with the SEBI ICDR Regulations, of which one-third shall be

reserved for domestic Mutual Funds, subject to valid Bids being received from domestic Mutual Funds at or above the Anchor Investor Allocation Price. In the event of under-subscription, or non-allotment in the Anchor Investor Portion, the balance Equity Shares shall be added to the Net QIB Portion. Further, 5% of the Net QIB Portion shall be available for allocation on a proportionate basis only to Mutual Funds, and spill-over from the remainder of the Net QIB Portion shall be available for allocation on a proportionate basis to all QIBs (other than Anchor Investors), including Mutual Funds, subject to valid Bids being received at or above the Offer Price. Further, not less than 15% of the Net Offer shall be available for allocation on a proportionate basis to Non-Institutional Investors and not less than 35% of the Net Offer shall be available for allocation to Retail Individual Bidders in accordance with the SEBI ICDR Regulations, subject to valid Bids being received at or above the Offer Price.

Under-subscription, if any, in any portion except in the QIB Portion, would be allowed to be met with spill-over from any other portion or combination of portions, at the discretion of our Company and the Selling Shareholders, in consultation with the BRLMs and the Designated Stock Exchange and subject to applicable laws. Under-subscription, if any, in the QIB Portion, would not be allowed to be met with spill-over from any other category or a combination of categories. In case of an undersubscription in the Offer, the Equity Shares proposed for sale by each Selling Shareholder shall be in proportion to the Offered Shares by such Selling Shareholder.

The Equity Shares, on Allotment, shall be traded only in the dematerialized segment of the Stock Exchanges.

Bidders should note that the Equity Shares will be Allotted to all successful Bidders only in dematerialised form. The Bid cum Application Forms that do not have the details of the Bidders' depository account, including DP ID, Client ID, UPI ID as applicable, and PAN and UPI ID (for RIBs using the UPI Mechanism), shall be treated as incomplete and will be rejected. Bidders will not have the option of being Allotted Equity Shares in physical form.

Phased implementation of UPI Mechanism

SEBI has issued the UPI Circulars in relation to streamlining the process of public issue of inter alia, equity shares. Pursuant to the UPI Circulars, the UPI Mechanism has been introduced in a phased manner as a payment mechanism (in addition to mechanism of blocking funds in the account maintained with SCSBs under ASBA) for applications by RIIs through Designated Intermediaries with the objective to reduce the time duration from public issue closure to listing from six Working Days to upto three Working Days. Considering the time required for making necessary changes to the systems and to ensure complete and smooth transition to the UPI payment mechanism, the UPI Circulars have introduced the UPI Mechanism in three phases in the following manner:

Phase I: This phase was applicable from January 1, 2019 until March 31, 2019 or floating of five main board public issues, whichever was later. Subsequently, the timeline for implementation of Phase I was extended till June 30, 2019. Under this phase, an RII had the option to submit the ASBA Form with any of the Designated Intermediary and use his/ her UPI ID for the purpose of blocking of funds. The time duration from public issue closure to listing continued to be six Working Days.

Phase II: This phase has become applicable from July 1, 2019 and the continuation of this phase has been extended until March 31, 2020. Under this phase, submission of the ASBA Form by RIIs through Designated Intermediaries (other than SCSBs) to SCSBs for blocking of funds has been discontinued and is replaced by the UPI Mechanism. However, the time duration from public issue closure to listing continues to be six Working Days during this phase. Further, pursuant to SEBI circular dated March 30, 2020, this phase has been extended till further notice.

Phase III: The commencement period of Phase III is yet to be notified. In this phase, the time duration from public issue closure to listing is proposed to be reduced to three Working Days.

For further details, please refer to the General Information Document available on the websites of the Stock Exchanges and the BRLMs.

Bid cum Application Form

Copies of the Bid cum Application Form (other than for Anchor Investors) and the Abridged Prospectus will be available with the Designated Intermediaries at relevant Bidding Centers and at our Registered Office. The Bid cum Application Forms will also be available for download on the websites of the NSE (www.nseindia.com) and the BSE (www.bseindia.com) at least one day prior to the Bid/Offer Opening Date.

For Anchor Investors, the Anchor Investor Application Form will be available at the offices of the BRLMs.

All Bidders (other than Anchor Investors) must compulsorily use the ASBA process to participate in the Offer. Anchor Investors are not permitted to participate in this Offer through the ASBA process.

Bidders (other than Anchor Investors and Retail Individual Investors Bidding using the UPI Mechanism) must provide bank account details and authorisation by the ASBA account holder to block funds in their respective ASBA Accounts in the relevant space provided in the Bid cum Application Form and the Bid cum Application Form that does not contain such details are liable to be rejected.

Retail Individual Investors submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) shall be required to bid using the UPI Mechanism and must provide the UPI ID in the relevant space provided in the Bid cum Application Form. Retail Individual Investors submitting their Bid cum Application Form to any Designated Intermediary (other than SCSBs) without mentioning the UPI ID are liable to be rejected. Retail Individual Investors Bidding using the UPI Mechanism may also apply through the SCSBs and mobile applications using the UPI handles as provided on the website of the SEBI.

Further, ASBA Bidders shall ensure that the Bids are submitted at the Bidding Centres only on ASBA Forms bearing the stamp of a Designated Intermediary (except in case of electronic ASBA Forms) and ASBA Forms not bearing such specified stamp maybe liable for rejection. Bidders, using the ASBA process to participate in the Offer, must ensure that the ASBA Account has sufficient credit balance such that an amount equivalent to the full Bid Amount can be blocked therein.

The prescribed colour of the Bid cum Application Form for the various categories is as follows:

Category	Colour of Bid cum Application Form*
Resident Indians including resident QIBs, Non-Institutional Investors, RIIs and Eligible NRIs applying on a non-repatriation basis^	White
Non-Residents including FPIs, Eligible NRIs applying on a repatriation basis, FVCIs and registered bilateral and multilateral institutions^	Blue
Anchor Investors (Anchor Investors Application forms will be made available only at the Office of the BRLMs)	White

*Excluding electronic Bid cum Application Form

^Electronic Bid cum Application forms and the Abridged Prospectus will also be available for download on the website of the NSE (www.nseindia.com) and the BSE(www.bseindia.com).

The relevant Designated Intermediaries shall upload the relevant bid details in the electronic bidding system of the Stock Exchanges. Designated Intermediaries (other than SCSBs) were required to submit/deliver the Bid cum Application Forms (except Bid cum Application Forms submitted by Retail Individual Investors Bidding using the UPI Mechanism) to the respective SCSB, where the Bidder has a bank account and not to any non-SCSB bank or any Escrow Bank. For Retail Individual Investors using the UPI Mechanism, the Stock Exchanges were required to share the Bid details (including UPI ID) with the Sponsor Bank on a continuous basis to enable the Sponsor Bank to initiate a UPI Mandate Request to such Retail Individual Investors for blocking of funds.

Stock Exchanges shall validate the electronic bids with the records of the depository for DP ID/Client ID and PAN, on a real time basis through API integration and bring inconsistencies to the notice of the relevant Designated Intermediaries, for rectification and re-submission within the time specified by Stock Exchanges. Stock Exchanges shall allow modification of either DP ID/Client ID or PAN ID (but not both), bank code and location code in the Bid details already uploaded.

Participation by Promoters, Promoter Group, the BRLMs, associates and affiliates of the BRLMs and the Syndicate Members and the persons related to Promoter, Promoter Group, BRLMs and the Syndicate Members

The BRLMs and the Syndicate Members shall not be allowed to purchase the Equity Shares in any manner, except towards fulfilling their underwriting obligations. However, the respective associates and affiliates of the BRLMs and the Syndicate Members are permitted to purchase Equity Shares in the Offer, either in the QIB Category or in the Non-Institutional Category as may be applicable to such Bidders, where the allocation is on a proportionate basis and such subscription may be on their own account or on behalf of their clients. All categories of investors, including respective associates or affiliates

of the BRLMs and Syndicate Members, have been treated equally for the purpose of allocation to be made on a proportionate basis.

Neither (i) the BRLMs or any associates of the BRLMs (except Mutual Funds sponsored by entities which are associates of the BRLMs or insurance companies promoted by entities which are associate of BRLMs or AIFs sponsored by the entities which are associate of the BRLMs or FPIs other than individuals, corporate bodies and family offices sponsored by the entities which are associates of the BRLMs) nor (ii) any “person related to the Promoters/ Promoter Group” shall apply in the Offer under the Anchor Investor Portion.

For the purposes of this section, a QIB who has any of the following rights shall be deemed to be a “person related to the Promoters/ Promoter Group”: (a) rights under a shareholders’ agreement or voting agreement entered into with the Promoters or Promoter Group; (b) veto rights; or (c) right to appoint any nominee director on our Board.

Further, an Anchor Investor was deemed to be an “associate of the BRLMs” if: (i) either of them controlled, directly or indirectly through its subsidiary or holding company, not less than 15% of the voting rights in the other; or (ii) either of them, directly or indirectly, by itself or in combination with other persons, exercised control over the other; or (iii) there was a common director, excluding nominee director, amongst the Anchor Investors and the BRLMs.

Further, the Promoter and members of the Promoter Group could not participate by applying for Equity Shares in the Offer, except in accordance with the applicable law. Furthermore, persons related to the Promoter and the Promoter Group shall not apply in the Offer under the Anchor Investor Portion.

Bids by Mutual Funds

With respect to Bids by Mutual Funds, a certified copy of their SEBI registration certificate must be lodged with the Bid cum Application Form. Failing this, the Company reserves the right to reject any Bid without assigning any reason thereof. Bids made by asset management companies or custodians of Mutual Funds shall specifically state names of the concerned schemes for which such Bids are made.

In case of a Mutual Fund, a separate Bid may be made in respect of each scheme of a Mutual Fund registered with the SEBI and such Bids in respect of more than one scheme of a Mutual Fund will not be treated as multiple Bids, provided that such Bids clearly indicate the scheme for which the Bid is submitted.

No Mutual Fund scheme shall invest more than 10% of its net asset value in equity shares or equity related instruments of any single company provided that the limit of 10% shall not be applicable for investments in case of index funds or sector or industry specific schemes. No Mutual Fund under all its schemes should own more than 10% of any company's paid-up share capital carrying voting rights.

Bids by Eligible NRIs

Eligible NRIs may obtain copies of Bid cum Application Form from the offices of the Designated Intermediaries. Only Bids accompanied by payment in Indian Rupees or freely convertible foreign exchange will be considered for Allotment. Eligible NRIs applying on a repatriation basis should authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of Retail Individual Investors Bidding through the UPI Mechanism) to block their Non-Resident External Accounts (“**NRE Account**”), or Foreign Currency Non-Resident Accounts (“**FCNR Account**”), and Eligible NRIs bidding on a non-repatriation basis should authorise their SCSBs or confirm or accept the UPI Mandate Request (in case of Retail Individual Investors Bidding through the UPI Mechanism) to block their Non-Resident Ordinary (“**NRO**”) accounts for the full Bid amount, at the time of submission of the Bid cum Application Form. Participation of Eligible NRIs in the Offer shall be subject to the FEMA regulations.

Eligible NRIs Bidding on a repatriation basis are advised to use the Bid cum Application Form meant for Non- Residents (Blue in colour).

Eligible NRIs Bidding on non-repatriation basis are advised to use the Bid cum Application Form for residents (White in colour).

For details of restrictions on investment by NRIs, see “*Offer Procedure - Restrictions on Foreign Ownership of Indian Securities*” on page 320.

Bids by HUFs

Bids by Hindu Undivided Families or HUFs should be made in the individual name of the Karta. The Bidder/Applicant should specify that the Bid is being made in the name of the HUF in the Bid cum Application Form/Application Form as follows: “Name of sole or first Bidder/Applicant: XYZ Hindu Undivided Family applying through XYZ, where XYZ is the name of the Karta”. Bids/Applications by HUFs will be considered at par with Bids/Applications from individuals.

Bids by FPIs

In terms of the Securities and Exchange Board of India (Foreign Portfolio Investors) Regulations, 2019 (“**SEBI FPI Regulations**”), investment in the Equity Shares by a single FPI or an investor group (which means multiple entities registered as foreign portfolio investors and directly and indirectly having common ownership of more than 50% of common control) shall be below 10% of our post-Offer Equity Share capital.

Further, in terms of the FEMA Rules the total holding by each FPI or an investor group, cannot exceed 10% of the total paid-up Equity Share capital of our Company on a fully diluted basis and the aggregate holdings of all the FPIs, including any other direct and indirect foreign investments in our Company, shall not exceed 24 % of the total paid-up Equity Share capital on a fully diluted basis.

In case of Bids made by FPIs, a certified copy of the certificate of registration issued under the SEBI FPI Regulations is required to be attached to the Bid cum Application Form, failing which our Company reserves the right to reject any Bid without assigning any reason. FPIs who wish to participate in the Offer are advised to use the Bid cum Application Form for Non-Residents (Blue in colour).

In terms of applicable FEMA Rules and the SEBI FPI Regulations, investments by FPIs in the capital of an Indian company is subject to certain limits, i.e. the individual holding of an FPI (including its investor group) is restricted to below 10% of the capital of the company. In case the total holding of an FPI or investor group increases beyond 10% of the total paid-up equity capital of our Company, on a fully diluted basis or 10% or more of the paid-up value of any series of debentures or preference shares or share warrants that may be issued by our Company, the total investment made by the FPI or investor group will be re-classified as FDI subject to the conditions as specified by SEBI and the RBI in this regard and our Company and the investor will be required to comply with applicable reporting requirements. Further, the total holdings of all FPIs put together, with effect from April 1, 2020, can be up to the sectoral cap applicable to the sector in which our Company operates (i.e. 100%). The aggregate limit may be decreased below the sectoral cap to a threshold limit of 24% or 49% or 74% as deemed fit by way of a resolution passed by our Board followed by a special resolution passed by the Shareholders of our Company. In terms of the FEMA Rules, for calculating the aggregate holding of FPIs in a company, holding of all registered FPIs shall be included.

To ensure compliance with the above requirement, SEBI, pursuant to its circular dated July 13, 2018, has directed that at the time of finalisation of the Basis of Allotment, the Registrar shall (i) use the PAN issued by the Income Tax Department of India for checking compliance for a single FPI; and (ii) obtain validation from Depositories for the FPIs who have invested in the Offer to ensure there is no breach of the investment limit, within the timelines for issue procedure, as prescribed by SEBI from time to time.

Subject to compliance with all applicable Indian laws, rules, regulations, guidelines and approvals in terms of Regulation 21 of the SEBI FPI Regulations, an FPI is permitted to issue, subscribe to, or otherwise deal in offshore derivative instruments, directly or indirectly, only if it complies with the following conditions:

- (i) such offshore derivative instruments are issued only by persons registered as Category I FPIs;
- (ii) such offshore derivative instruments are issued only to persons eligible for registration as Category I FPIs;
- (iii) such offshore derivative instruments are issued after compliance with the ‘know your client’ norms as specified by SEBI; and
- (iv) such other conditions as may be specified by SEBI from time to time.

An FPI is required to ensure that the transfer of an offshore derivative instruments issued by or on behalf of it, is subject to (i) the transfer being made to persons which fulfil the criteria provided under Regulation 21(1) of the SEBI FPI Regulations (as mentioned above from points (i) to (iv)) and (ii) prior consent of the FPI is obtained for such transfer, except in cases, where the persons to whom the offshore derivative instruments are to be transferred, are pre-approved by the FPI.

Participation of FPIs in the Offer shall be subject to the FEMA Rules.

Bids by SEBI registered VCFs, AIFs and FVCIs

The SEBI FVCI Regulations and the SEBI AIF Regulations inter-alia prescribe the investment restrictions on the VCFs, FVCIs and AIFs registered with SEBI.

The holding by any individual VCF or FVCI registered with SEBI in one venture capital undertaking should not exceed 25% of the corpus of the VCF or FVCI. Further, VCFs and FVCIs can invest only up to 33.33% of the investible funds by way of subscription to an initial public offering.

The category I and II AIFs cannot invest more than 25% of their investible funds in one investee company. A category III AIF cannot invest more than 10% of its investible funds in one investee company. A VCF registered as a category I AIF, cannot invest more than one-third of its investible funds, in the aggregate, in certain specified instruments, including by way of subscription to an initial public offering of a venture capital undertaking. An FVCI can invest only up to 33.33% of its investible funds, in the aggregate, in certain specified instruments, which includes subscription to an initial public offering of a venture capital undertaking or an investee company (as defined under the SEBI AIF Regulations). All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission.

All non-resident investors should note that refunds (in case of Anchor Investors), dividends and other distributions, if any, will be payable in Indian Rupees only and net of bank charges and commission. Our Company, the Selling Shareholder or the BRLMs will not be responsible for loss, if any, incurred by the Bidder on account of conversion of foreign currency.

Bids by limited liability partnerships

In case of Bids made by limited liability partnerships registered under the Limited Liability Partnership Act, 2008, a certified copy of certificate of registration issued under the Limited Liability Partnership Act, 2008, must be attached to the Bid cum Application Form. Failing this, our Company and the Selling Shareholders reserves the right to reject any Bid without assigning any reason thereof.

Bids by banking companies

In case of Bids made by banking companies registered with RBI, certified copies of: (i) the certificate of registration issued by RBI, and (ii) the approval of such banking company's investment committee are required to be attached to the Bid cum Application Form, failing which our Company in consultation with the BRLMs reserve the right to reject any Bid without assigning any reason.

The investment limit for banking companies in non-financial services companies as per the Banking Regulation Act, 1949 (the "Banking Regulation Act"), and Master Direction – Reserve Bank of India (Financial Services provided by Banks) Directions, 2016 is 10% of the paid-up share capital of the investee company or 10% of the bank's own paid-up share capital and reserves, whichever is less. Further, the aggregate investment in subsidiaries and other entities engaged in financial and non-financial services company cannot exceed 20% of the bank's paid-up share capital and reserves. A banking company may hold up to 30% of the paid-up share capital of the investee company with the prior approval of the RBI, provided that the investee company is engaged in non-financial activities in which banking companies are permitted to engage under the Banking Regulation Act or the additional acquisition is through restructuring of debt/corporate debt restructuring/strategic debt restructuring, or to protect the bank's interest on loans/investments made to a company. The bank is required to submit a time-bound action plan for disposal of such shares within a specified period to the RBI. A banking company would require a prior approval of the RBI to make investment in excess of 30% of the paid-up share capital of the investee company, investment in a subsidiary and a financial services company that is not a subsidiary (with certain exceptions prescribed), and investment in a non-financial services company in excess of 10% of such investee company's paid-up share capital as stated in the Reserve Bank of India (Financial Services provided by Banks) Directions, 2016, as amended.

Bids by SCSBs

SCSBs participating in the Offer are required to comply with the terms of the SEBI circulars (No. CIR/CFD/DIL/12/2012 and CIR/CFD/DIL/1/2013) dated September 13, 2012 and January 2, 2013. Such SCSBs are required to ensure that for making applications on their own account using ASBA, they should have a separate account in their own name with any

other SEBI registered SCSBs. Further, such account shall be used solely for the purpose of making application in public issues and clear demarcated funds should be available in such account for such Bids.

Bids by insurance companies

In case of Bids made by insurance companies registered with the IRDA, a certified copy of certificate of registration issued by IRDA must be attached to the Bid cum Application Form. Failing this, the Company reserves the right to reject any Bid without assigning any reason thereof. The exposure norms for insurers are prescribed under Regulation 9 of the Insurance Regulatory and Development Authority of India (Investment) Regulations, 2016 (“IRDA Investment Regulations”), and are based on investments in the equity shares of a company, the entire group of the investee company and the industry sector in which the investee company operates. Bidders are advised to refer to the IRDA Investment Regulations for specific investment limits applicable to them.

Bids by provident funds/pension funds

Names of entities responsible for finalising the basis of allotment in a fair and proper manner

The authorised employees of the Stock Exchanges, along with the BRLMs and the Registrar, shall ensure that the basis of allotment is finalised in a fair and proper manner in accordance with the procedure specified in SEBI ICDR Regulations.

Method of allotment as may be prescribed by SEBI from time to time

Our Company will not make any allotment in excess of the Equity Shares offered through the Offer through the Red Herring Prospectus and the Prospectus except in case of oversubscription for the purpose of rounding off to make Allotment, in consultation with the Designated Stock Exchange. Further, upon oversubscription, an allotment of not more than 1% of the Net Offer to public may be made for the purpose of making Allotment in minimum lots.

The Allotment of Equity Shares to applicants other than to the Retail Individual Bidders and Anchor Investors shall be on a proportionate basis within the respective investor categories and the number of securities allotted shall be rounded off to the nearest integer, subject to minimum allotment being equal to the minimum application size as determined and disclosed.

The allotment of Equity Shares to each Retail Individual Bidder shall not be less than the minimum bid lot, subject to the availability of Equity Shares in Retail Individual Bidder category, and the remaining Equity Shares, if any, shall be allotted on a proportionate basis.

Payment into Escrow Account for Anchor Investors

Our Company in consultation with the BRLMs, in its absolute discretion, will decide the list of Anchor Investors to whom the CAN will be sent, pursuant to which the details of the Equity Shares allocated to them in their respective names will be notified to such Anchor Investors. For Anchor Investors, the payment instruments for payment into the Escrow Account should be drawn in favour of:

In case of resident Anchor Investors: "[●]"

In case of Non-Resident Anchor Investors: "[●]"

Anchor Investors should note that the escrow mechanism is not prescribed by SEBI and has been established as an arrangement between our Company, the Selling Shareholders, the Syndicate, the Escrow Collection Bank and the Registrar to the Offer to facilitate collections from Anchor Investors

Pre-Offer Advertisement

Subject to Section 30 of the Companies Act, 2013, our Company shall, after registering the Red Herring Prospectus with the RoC, publish a pre-Offer advertisement, in the form prescribed by the SEBI ICDR Regulations, in: (i) All India editions of English national newspaper [●]; (ii) All India editions of Hindi national newspaper [●]; and (iii) [●] editions of Gujarati newspaper [●], each with wide circulation.

In the pre-Offer advertisement, we shall state the Bid/Offer Opening Date and the Bid/Offer Closing Date. This advertisement, subject to the provisions of Section 30 of the Companies Act, 2013, shall be in the format prescribed in Part A of Schedule XIII of the SEBI ICDR Regulations.

The above information is given for the benefit of the Bidders/applicants. Our Company, the Selling shareholders and the BRLMs are not liable for any amendments or modification or changes in applicable laws or regulations, which may occur after the date of this Draft Red Herring Prospectus. Bidders/applicants are advised to make their independent investigations and ensure that the number of Equity Shares Bid for do not exceed the prescribed limits under applicable laws or regulations.

Signing of the Underwriting Agreement and the RoC Filing

- a. Our Company, the Selling shareholders and the Syndicate intend to enter into an Underwriting Agreement after the finalisation of the Offer Price.
- b. After signing the Underwriting Agreement, an updated Red Herring Prospectus will be filed with the RoC in accordance with applicable law, which then would be termed as the 'Prospectus'. The Prospectus will contain details of the Offer Price, the Anchor Investor Offer Price, Offer size, and underwriting arrangements and will be complete in all material respects.

Depository Arrangements

The Allotment of the Equity Shares in the Offer shall be only in a dematerialised form, (i.e., not in the form of physical certificates but be fungible and be represented by the statement issued through the electronic mode). In this context,

tripartite agreements had been signed among the Company, the respective Depositories and Big Share Services Private Limited:

- Agreement dated March 19, 2012, among NSDL, the Company and Registrar to the Offer
- Agreement dated May 28, 2018, among CDSL, the Company and Registrar to the Offer

Impersonation

Attention of the applicants is specifically drawn to the provisions of sub-section (1) of Section 38 of the Companies Act, 2013, which is reproduced below:

"Any person who:

- a. makes or abets making of an application in a fictitious name to a company for acquiring, or subscribing for, its securities; or**
- b. makes or abets making of multiple applications to a company in different names or in different combinations of his name or surname for acquiring or subscribing for its securities; or**
- c. otherwise induces directly or indirectly a company to allot, or register any transfer of, securities to him, or to any other person in a fictitious name, shall be liable for action under Section 447."**

The liability prescribed under Section 447 of the Companies Act, 2013 includes imprisonment for a term which shall not be less than six months extending up to 10 years (provided that where the fraud involves public interest, such term shall not be less than three years) and fine of an amount not less than the amount involved in the fraud, extending up to three times of such amount.

Undertakings by our Company

Our Company undertakes the following:

- the complaints received in respect of the Offer shall be attended to by our Company expeditiously and satisfactorily;

RESTRICTIONS ON FOREIGN OWNERSHIP OF INDIAN SECURITIES, IF ANY

Foreign investment in Indian securities is regulated through the Industrial Policy, 1991 of the Government of India and FEMA. While the Industrial Policy, 1991 prescribes the limits and the conditions subject to which foreign investment can be made in different sectors of the Indian economy, FEMA regulates the precise manner in which such investment may be made. Under the Industrial Policy, unless specifically restricted, foreign investment is freely permitted in all sectors of the Indian economy up to any extent and without any prior approvals, but the foreign investor is required to follow certain prescribed procedures for making such investment. The RBI and the concerned ministries/departments are responsible for granting approval for foreign investment. The Government has from time to time made policy pronouncements on foreign direct investment (“FDI”) through press notes and press releases. The Department for Promotion of Industry and Internal Trade, Ministry of Commerce and Industry, Government of India (earlier known as Department of Industrial Policy and Promotion) (“DPIIT”), issued the Consolidated FDI Policy Circular of 2017 (“FDI Policy”), which, with effect from August 28, 2017, consolidated and superseded all previous press notes, press releases and clarifications on FDI issued by the DPIIT that were in force and effect as on August 27, 2017. The FDI Policy will be valid until the DPIIT issues an updated circular. FDI in companies engaged in sectors/ activities which are not listed in the FDI Policy is permitted up to 100% of the paid up share capital of such company under the automatic route, subject to compliance with certain prescribed conditions.

The transfer of shares between an Indian resident and a non-resident does not require the prior approval of the RBI, provided that (i) the activities of the investee company are under the automatic route under the foreign direct investment policy and transfer does not attract the provisions of the Takeover Regulations; (ii) the non-resident shareholding is within the sectoral limits under the FDI policy; and (iii) the pricing is in accordance with the guidelines prescribed by the SEBI/RBI.

As per the existing policy of the Government of India, OCBs cannot participate in this Offer.

The Equity Shares offered in the Offer have not been and will not be registered under the Securities Act or any state securities laws in the United States, and unless so registered, may not be offered or sold within the United States, except pursuant to an exemption from, or in a transaction not subject to, the registration requirements of the Securities Act and in accordance with any applicable U.S. state securities laws. Accordingly, the Equity Shares are being offered and sold outside the United States in ‘offshore transactions’ in reliance on Regulation S under the Securities Act and the applicable laws of the jurisdictions where such offers and sales are made.

The Equity Shares have not been and will not be registered, listed or otherwise qualified in any other jurisdiction outside India and may not be offered or sold, and Bids may not be made by persons in any such jurisdiction, except in compliance with the applicable laws of such jurisdiction. Further, in accordance with Press Note No. 3 (2020 Series), dated April 17, 2020, issued by the Department for Promotion of Industry and Internal Trade, Government of India, investments where the beneficial owner of the Equity Shares is situated in or is a citizen of a country which shares land border with India, can only be made through the Government approval route, as prescribed in the Consolidated FDI Policy dated August 28, 2017. These investment restrictions shall also apply to subscribers of offshore derivative instruments.
