Mr. Ajit Gujral, Head - Strategic Development for Crop Protection Business of Heranba Industries Limited, commented, "Heranba Industries received six CIB registrations and began its FY24 journey on a high note. These registrations are part of our strategy to launch five new products out of Sarigam technical plant. These products would be launched in both technical and formulations segments. Approvals for formulations are already in place with the company.

These products have already achieved success at the pilot stage after R&D clearance. Initially, the company will manufacture small quantities of technical for its own branded formulations and subsequently enter the B2B markets once the Sarigam technical plant starts commercial production."
